Comments:

Shall it be noted that the data received from the Abingdon Police Department for year 2008 is not complete. Due to disorganization from a previous administration, not every stop initiated by this agency was submitted. However, the data is accurate beginning August 2008. I can verify that all data has been regularly submitted in compliance with the data collection requirements since August 2008. If any questions arise, please direct them to the following:

Corporal Ralph W. Brown, Jr. #51
Abingdon Police Department
105 North Main Street
Abingdon, Illinois 61410
309 462-2091
309 462-5318 FAX
abingdonpd@yahoo.com

E-mail is preferred. Thank you.

Corporal R.W. Brown, Jr. #51

Comments:

We agree with most of the data. However, your figures show one additional traffic stop for American-Indian and two more traffic stops for Asians then what our data shows.

Comments:

The minority driving population of 34% is outdated and when the new census is completed that figure will change to over 60%. From 6am to 5pm during the week our driving population is approximately 60% minority. On weekdays after 5pm our minority driving population is approximately 78%. Cahokia is the shopping area which includes East St. Louis, Centreville and Alorton. The population of the aforementioned communities are approximately 90% minority. This changes our minority driving population significantly.

Respectfully,

Richard Watson
Chief of Police
Village of Cahokia

Comments:

After reveiw of the study, I am somewhat satisfied with the outcome, except I would like to determine why 25% of the stops made with caucasian drivers resulted in verbal warnings and 82% of the stops made with minority drivers resulted in citations. I am hopeful that this disparity is not a result of impartial enforcement. Verbal warnings are and effective tool when used equitably, however the fact can be supported when you look at the demographic population of the Village which is quite simular to the results in population of the of the study.

Comments:

From: Carroll County Sheriff's Office
To: Whom It May Concern:
Subject: Comments ICO Racial Profiling Study

The study is flawed. The data collected is not reliable. This study was shoved down the throats of thousands of honest law enforcement officers for the purpose of buying votes for then State Senator Obama. At its inception it was recognized that the data collected could be in error by as much as 40%. Despite this the program was fast tracked at the expense of law enforcement.

If the purpose of collecting useful data was the goal, you would not rely on those you suspect of being offenders to collect the data. How easy would it be for an offending officer to subjectively identify a Hispanic as a Caucasian? It is his judgment call after all. A monumentally foolish waste of time and the tax payers money.

If you want to collect meaningful data, have the SOS employee, who has no stake in the outcome of the study, make the subjective assessment of a persons race at the time that they obtain their drivers license. Make this a part of their SOS file and when they get a citation, let the SOS computers evaluate it. This would take the perception of the officer (whom you suspect of racial profiling) out of the equation.

I believe that an unintended outcome of the study is that a lot more people are given citations. Stops that in the past routinely resulted in a verbal warning to "slow down "or "make sure to stop at the stop sign from now on", now result in a citation.

My 2008 assessment? If it were meaningful data I would be pleased as the report does not show a problem in Carroll County Sheriff's Office. If the analysis reflected a problem, the report is not structured to show me who the offending officers are.

My recommendation? Scrap the study and save the tax payers some money.

Comments:

The analysis looked fine. However, a lot of extra work could be eliminated by just allowing an Officer the opportunity to mark the race of the offender right on the citation to begin with. It would eliminate a lot of unecessary paperwork and reduce time in processing information.

Comments

My comments remain the same. I question the estimate of the minority driving population at less than 12%. With a community that has 70% multi-family housing and is home to two shopping malls, our minority driving population is much higher than 12%. We also have I-294 access bordering Chicago Ridge which tends to lead to many visitors daily to our area.

Comments:

#1 why report at times of darkness? afterdark it is nearly impossible to
detect race of driver and passengers.

#2 why require in counties with a very small percentage of non-whites? set a number
either as percent of total population or the total number of non-whites.

#3 if we must report all non-white stops, then report only those.

sheriff sulsberger

Comments:

I want to say that I feel this study has continued on without direct purpose. The data has been furnished without any action being taken on submitted numbers. In addition, there is no avenue for agency like ours who has a large interstate bisecting our jurisdiction to report the stops of motorist. To hold officer accountable for the statistics of minority drivers stopped against the registered population is not an accurate count when officers are exposed to thousand of motorists who do not live in the county.

In addition, the time of day should be reflected in the report. This information is collected and required to be completed on the reporting document then it should be included on the report. Officers making traffic stops during night time hours should be noted. Also the search needs to be more specific. If an offender is arrested then a search is conducted. If the data requested asks for type of search then the report should reflect the types of search conducted not just searched or not.

Comments:

I have reviewed the Racial Profiling Analysis for the Gibson City Police Department. I have printed it from the computer and I'm going to give each officer a copy, so they can see that there data is entered and accounted for each month. Also, our City Council is always wanting to see a report of officer activity and this report is something I could share with them.

Thank you for the information.

Comments:

I do not feel that this study of racial profiling can be accurate as it does not ask for the race of the officer making the stop.

Chief Fred Voigt Gilman
Police Department.

Comments:

There aren't very many minorities in this area. Will this report show that the Grantfork Police Department is profiling Cacausins?

Comments:

Duration of Hispanic stops tends to be longer because of language and license issues.

Comments:

The Illinois State Police and the Illinois Department of Transportation are pleased to report that traffic fatalities on Illinois roadways continue to drop to new all time low levels. In 2008, the number of fatalities was reported at 1,043, significantly reduced from 1,454 in 2003, the first year of the traffic stop statistical study.

Traffic enforcement is a key component of safer highways. Illinois state troopers conducted more than 500,000 traffic stops during 2008. Although speeding and seat belt violations are among the most common traffic violations encountered by troopers, alcohol offenses, defective equipment, and other moving violations are routinely enforced.

The Illinois State Police continues to train troopers to â€œlook beyond the ticketâ€ and remain aware of criminal and potential terrorist activity during traffic stops. In 2008 troopers made more than 21,000 criminal arrests during traffic stops for offenses that included murder, sexual assault, wanted on warrant, narcotic, and weapon violations.

The Illinois State Police does not condone or tolerate bias-based policing. Data from the traffic stop statistical study is reviewed and monitored as an important component of a bias free policing commitment to the citizens in Illinois.

Total traffic stops by Illinois state troopers increased during 2008. Traffic stops on Caucasian drivers increased while stops on minority drivers decreased and remained less than the minority driving ratio as established by Northwestern University. Consent searches were requested by troopers during two percent of all traffic stops. Requests to search decreased on minority drivers while they increased on Caucasian drivers as compared to the previous year. The ratio of minority drivers searched as a result of consent search remained higher than the ratio of Caucasian drivers. In an effort to better analyze the differences in consent search rates, the Illinois State Police recently implemented a new procedure that mandates a field report for every consent search. The Illinois State Police is committed to bias-free policing and in addition to data collection and analysis, continues to utilize video cameras in patrol vehicles, a formal citizen complaint process, training, supervision, and community involvement to ensure professionalism during traffic stop enforcement activities.

Comments:

Northwestern University Center for Public Safety did a study in 2003 to determine the minority driving population within the Village of Lansing. At that time, using Sixth District Court data, it was determined that 47.01% of the driving population in Lansing was minority. This estimated information may have been correct at that time, but surely no one can believe that the minority driving population in Lansing and/or the Sixth District has remained unchanged in almost six years. The number of minorities living within the Village of Lansing has more than doubled during this time frame. In addition, personal observation has shown that the number of minority drivers traveling the roadways of Lansing has increased very significantly during the last six years. I request that Northwestern University update this 47.01% number using whatever method they desire. At least use current Sixth District Court information, which will reflect a more accurate minority driver population of over 55%. How long will this outdated 47.01% number be used? We hope that Northwestern is not planning to use this number until 2010 census data becomes available in 2011.

Comments:

The City of LaSalle has had a large increase of minorities move into the city, which is not reflected in the 2000 census. The City also has a large transient population, which is also not reflected in the census. Much of the transient population is due to our disproportionate low income and public housing.

Comments:

The Village of Maywood which is located west of the city of Chicago is a community which has a population of approximately 27,500 residents. The Village of Maywood residental racial make-up is approximately 70% African American, 20% Hispanic and 10% Caucasian.

In overview of the Illinois Traffic Stop Study for the year 2008, the total number of minority drivers involved in traffic violations may attribute to the racial make-up of the Maywood community. Although the Village of Maywood has a low Caucasian make-up, that may and can also contribute to the lower total of Caucasian Stops. Since the Village of Maywood borders the big city of Chicago, it is a major thoroughfare for an enormous amount of vehicle traffic. Majority of Caucasian drivers come thru the Village of Maywood enroute to other communities. The Caucasian traveling times are primarily morning and evening traffic hours. Most Caucasian drivers as indicated in the study have been given moving violations as a result of equipment violations. Equipment violations which can be more easily observed by a Patrol Officer while both the Officer and the vehicle Driver are sitting in heavy or stilled traffic. The Patrol Officer may exercise the right to issue such violators more with verbal warnings due to the fact that most drivers during traffic hours times are enroute to work or home where family and children may be waiting.

The bulk of traffic stops are made against minority drivers. That number is affected by the community's make-up. A total number of 799 African Americans, 222 Hispanic drivers, 22 Asian and 5 American Indian drivers were stopped. Majority of African American and Hispanic reside within the community. Although we are not fully given an explanation for the traffic stop there are other factors which should be explained which could lead to the traffic stops. The Village of Maywood is a community that has an enourmous amount of vehicle traffic, it is also a community with an enourmous amount of request for police service. Sometimes when residents are requesting police service, that request may lead to a traffic stop. For example, a woman calls the police and says that her boyfriend just struck her, jumped in his vehicle and left her residence. While explaining to the dispatcher what happened, the boyfriend's name, description of the car, direction of travel, etc., the Patrol Officer(s) responding to the request for service may observe the alledged offender leaving the scene or in the area. The Patrol Officer(s) would then conduct a traffic stop based on the victim's complaint. Once the Officer(s) has stopped the possible vehicle in question and talk with the driver and the complaintant, the Officer(s) may learn that the driver may be suspended or revoked, he may not have been wearing a seat belt, his turning signal may not be working or he failed to signal when turning. There may be many violations that the alledged offender can do which could possibly lead him into recieving traffic violation citations and also being arrested for criminal charges. But the inital request was for police service for criminal charges, not a traffic stop, which lead to and involved traffic violations. The Village of Maywood also recieves numerous police service calls for drug trafficking. Majority of these calls lead to traffic stops because the calling complaintant is witnessing a drug transaction which is taking place between two cars or a car and an individual(s) on the street. The total number of citations of 852 for Minority Drivers may also contribute to the vehicle driver recieving more than one citation during the traffic stop. Less verbal warnings may be issued due to the fact other factors

may have affected the Officer's need for discretion escpecially if it is involving a criminal act along with the traffic violations.

The Village of Maywood Police Department has the full responsiblity of enforcing and abiding by the Illinois Traffic Law Rules. But, The Maywood Police Department also has a responsibility of treating others with respect and understanding. Unfortunately, drivers sometimes commit traffic violations while enroute to bettering themselves and/or their communities. If a traffic violator commits a violation in which no one is injured, violated and/or endangered a Patrol Officer may use discretion in the decision of issuing or not issuing a citation and allow the violator to continue their journey. If a Patrol Officer encounters a driver with slurred speech, no driver's license on person, sweerving in and out of traffic and unable to give accurate information of present whereabouts, surely it is the Patrol Officers duty and responsibility to uphold the law without hesitation. If a Patrol Officer encounters an individual speeding, no license on person and enroute to the hospital because a family member may be passing away, we expect that Patrol Officer to do their duty to keep the individual and other safe but also use discretion in handling and helping in the situation. That duty may mean escort or take the violator to the hospital. Sometimes traffic stops can lead to drivers losing jobs, missing their childrens special event or missing important appointments. But, traffic laws are necessary. Traffic Laws help us in balancing out the needs of the community. It also helps the community communicate with others. The Village of Maywood Police Department is all about bettering the community and keeping the residents safe. By upholding "THE RULES OF THE ROAD" it will enable our Village to travel outwards amoungst other communities and make everyone's travels on the roads around the world--SAFE.

Comments:

The estimated minority driving population appears to be based upon the 2000 census. This figure is highly inaccurate and does not take into account the population shift that has occurred in the south suburban Chicago area.

Comments:

Wednesday May 27, 2009

This is the Rockford Police Department's response to the 2008 Racial Profiling Study:

The department does not issue written warnings. This information is reflected in the â€œOutcome of Stopâ€ area. The department only issues verbal warnings or citations. The report accurately reflects the only two possible outcomes for a traffic stop.

All information on the report is an accurate representation of the 2008 driver stops.

Comments:

I have never understood the purpose of this program. What is shown by the printout is that most of our stops and arrests are with white Americans. Not surprising when the vast majority of the population in this area and those traveling through this village are white. I would bet that the study would also show that if police officers enforcement duties are in a predomanantly black area that most people stopped are of African American decent. Could someone from your agency tell me just what the Racial Profiling program serves and what the cost has been for the State of Illinois as well as to the municipalities. If Governor Quinn is serious about cost cutting, this would be a great place to start.

Stockton Police Department

Comments:

The actual population cannot be calculated do to the fact that the population of the campus community and the areas we patrol are transient and gateways to various parts of the city. Chicago is divided in communities of various characteristics such as race, ethnicity, religion and other factors which make it difficult to accurately calculate the population.

Comments:

Small population but the report looks correct. Outline is good and very helpful to our department

Comments:

According to IDOT'S Website entitled, Illinois Travel Statistics,"Average Daily Traffic Counts," it is reflected that there are morethan 16,000 vehicles traveling through the intersection of U.S. Route 20 (also referred to as West State Road), and Winnebago Road (commonly referred to as North Elida Road), on a daily basis. There are two gas stations with convenience stores, a strip mall, and several fast-food restaurants located just south of this intersection, which is commonly referred to as â€œWinnebago Corners." Winnebago Corners is within the jurisdiction of the Winnebago Police Department.
