Comments:
The Illinois State Police (ISP) continues to work diligently to make the roads and highways of Illinois safe for everyone. Through traffic stops and consent searches, State Troopers are helping ensure that citizens travelling throughout Illinois are safe.

The 2013 Illinois Traffic Stop Statistical Study (TSSS) report shows some changes. For the year, overall traffic stop numbers are down.

a) The variance between the reasons for traffic stops (moving and equipment violations) by ISP officers continues to be about the same when comparing minority driver traffic stops to white driver traffic stops; and

b) The gap between the rate of ISP officers' requests to conduct consent searches of minority drivers as opposed to consent searches of white drivers continues to narrow; and

c) The gap between ISP officer conducted "dog sniff" searches where contraband is found continues to be about the same rate for minority drivers when compared to white drivers.

Our agency will continue to evaluate the data from the TSSS report and make necessary changes in order to provide additional training and to ensure that ISP officers treat everyone equitably. The ISP is committed to providing the best in public safety and that officers take the appropriate actions regardless of race. Accordingly, ISP is working to continue mandatory Biased-Based Policing training on an annual basis for all ISP officers.

Comments:
We are a small town. As chief, I am the one to enter the data daily. If you look at our report, you see that a huge majority of stops are white male/female. I believe this report should be required for population over 10,000. Is there an end to this reporting in the near future?
