***IDOT considers official college transcripts as original embossed transcripts in a sealed envelope from the university/college or in PDF format sent from the university/college directly to the Bureau of Personnel Management.**

**ILLINOIS DEPARTMENT OF TRANSPORTATION
POSITION DESCRIPTION**

DATE:	February 10, 2017	POSITION:	Seasonal Engineering Technician Intern
APPROVED BY:	<u>Jeffrey Keirn</u>	OFFICE:	OHPI/Region 5/District 9
CODE:	PW011-23-59-201-10-44	REPORTS TO:	Senior Resident Engineer

Position Purpose

This position is accountable for providing engineering assistance for all aspects of highway related design, construction, and maintenance projects.

Dimensions

Various Types of Civil Engineering Related Projects

Nature and Scope

This position reports to a Senior Resident Engineer. On a project basis, may receive guidance from assigned bureau staff.

This position performs engineering tasks for highway related design, construction, and maintenance projects under the direction of a Resident Engineer/Technician. This position operates within an environment of ensuring that projects are designed and completed in accordance with plans, specifications, and special provisions in a timely manner.

Typical problems will be in following all policies, standards of design, and to ensure accurate inspection of highway related construction projects. The greatest challenge is to ensure that the work assignments are completed accurately and on time.

The incumbent acts as an assistant in design, laboratory or survey work; inspects earthwork, drainage, concrete paving, bituminous resurfacing, bridges, and other engineering related items. The incumbent checks design plans, field notes, plots cross sections, makes field measurements, computations, and reports.

The incumbent is constrained by the plans, specifications, and special provisions of the project and by the policies and procedures of the Bureau of Construction and the Bureau of Design. Instances that are not in accordance with these rules are referred to the Resident Engineer/Technician.

The incumbent has contact with the internal personnel, contractor's personnel, and occasionally with the general public. This position requires frequent travel within the district.

The effectiveness of this position can be measured by the design, inspection, and accuracy/neatness of his/her reports.

Principal Accountabilities

1. Provides accurate designs, measurements, computations, and documentation.
2. Keeps the Resident Engineer/Technician informed of any problems encountered or deviations made.
3. Ensures that work performed is in accordance with the specifications.
4. Perform other duties as assigned.
5. Perform all duties in compliance with departmental safety rules. Perform all duties in a manner conducive to the fair and equitable treatment of all employees.
