**Technical Application PM1080 (revised 6/1/17) is required. No previous version of the PM1080 will be accepted.

**ILLINOIS DEPARTMENT OF TRANSPORTATION
POSITION DESCRIPTION**

DATE:	August 2015	POSITION:	Inspector
APPROVED BY:		OFFICE/DIVISION:	Division of Highways/ Project Implementation
CODE:	PW110-23-56-201-10-01	REPORTS TO:	Resident Engineer

Position Purpose

This position is accountable for for the inspection, documentation and safety on highway improvements during the construction phase. This position may perform general Studies and Plans work in the winter months

Dimensions

Number of Projects: 1 to 5, 1 to 10 miles in length

Nature and Scope

This position reports to the Resident Engineer or Resident Technician.

As a trainee, the incumbent is involved in the field inspection or inspection supervision of various construction projects. These projects involve material inspection and testing, surveying, resurfacing and new highway construction projects. Each project involves written documentation on a daily basis and because of the unique nature of each construction project technical understanding of the construction plans is necessary.

Typical problems faced by the incumbent are technical in nature. These include computative quantity checks of materials used on construction projects where materials are paid for separately. Technical skills are also needed for infield interpretation of highway construction plans, in order to ensure a quality inspection and documentation on various types of construction projects. These projects include resurfacing, new highway construction, material inspection, earthwork and drainage construction. The greatest challenge is to ensure an accurate and timely on-site inspection and documentation of the assigned construction project, while maintaining harmonious relations with the contractor's personnel.

This position will personally inspect earthwork, hot-mix asphalt resurfacing, new highway construction projects, grading sections, drainage construction, bridge construction, hot-mix asphalt proportioning and may be a member of a survey or paving crew. The incumbent also is responsible for cross section plotting, computations, note keeping and documentation of all assigned projects. S/He may also do general Studies and Plans work in the winter months.

The incumbent's latitude in decision making is guided by Plans, Special Provisions and Specifications. S/He has some freedom in making the field decisions on certain construction problems within the limitations of the incumbent's engineering background. Instances where interpretation is unclear are referred to the Resident Engineer or Resident Technician. This position is constrained by departmental rules and regulations.

Primary contacts are with contractor personnel. Also, there may be limited contact with property owners, utility companies and the general public. The incumbent may be required to work overtime, travel some distance to the job site, or stay away from home overnight.

The effectiveness of this position can be measured by the thoroughness of the inspections performed and the accuracy, professionalism and neatness of required documentation.

Principal Accountabilities

1. Ensures accurate and thorough inspection and documentation of assigned construction projects.
2. Performs general Studies and Plans work during the winter months.
3. Maintains a harmonious working relationship with contractors, property owners, utility companies and the general public.
4. Performs all duties in a manner conducive to the safety of self and others.
5. Performs other duties as assigned.
