*Individual salary offers are computed based on an applicant's current position and experience level in comparison to the posted title as well as internal equity of staff in the organizational unit.

**Technical Application PM1080 (revised 6/1/17) is required. No previous version of the PM1080 will be accepted.

**ILLINOIS DEPARTMENT OF TRANSPORTATION
POSITION DESCRIPTION**

| | | | |
|---------------------|------------------------------|-------------------------|---|
| DATE: | <i>January, 2016</i> | POSITION: | <i>Inspector</i> |
| APPROVED BY: | <i>Roger Driskell</i> | OFFICE/DIVISION: | <i>Highways/District 7 Project Implementation</i> |
| CODE: | <i>PW110-23-57-201-10-01</i> | REPORTS TO: | <i>Resident Engineer</i> |

Position Purpose:

This position is accountable for assisting in the layout, inspection, and documentation required on various highway improvement construction projects. This is a training position.

Dimensions:

Subordinate Personnel: None
Value of Construction Projects: \$100,000 - \$2,500,000

Nature and Scope:

This position reports to the Resident Engineer as do three to four other technical employees.

The position will be enrolled in a rotation program and will be assigned to various sections or bureaus in the District. These responsibilities may involve performing various assigned duties within the sections of Programming, Studies and Plans, Project Support, Land Acquisition, Construction, Materials, Local Roads, Maintenance, Bridges, and Traffic. Upon completion of the rotation program, the District will work with the incumbent to determine a permanent bureau assignment, which will also take into account bureau needs and their staffing levels.

This position assists in providing the contractor with the necessary layout and inspection required on highway improvement construction projects. This position operates within an environment of ensuring that the contractor provides a quality improvement in accordance with plans, specifications and special provisions in a timely manner.

Typical problems faced by the incumbent are the interpretation of the plans and specifications while inspecting and directing the contractor's personnel in compliance with the specifications. The greatest challenge is to balance the application of civil engineering principles to field conditions.

The functions performed by the incumbent include acting as an instrument man on the survey party, inspecting construction operations such as traffic control, earthwork, drainage, asphalt or concrete pavements, concrete, steel and other miscellaneous items involved in road and bridge construction; uses the ICORS software to generate the necessary reports and documentation for pay items; computations of other and assisting the Resident Engineer construction contracts.

The incumbent is governed by the plans and specifications of the project. He/she refers major problems or necessary plan changes to the Resident Engineer. He/she does, however, accept or reject materials incorporated in the project on the basis of visual or field tests, and assures that all materials have been properly inspected prior to being incorporated into the project.

The incumbent has contacts with Resident Engineers, Project Engineers and personnel from the District Bureau of Materials as well as with contractors and the general public.

The timeliness and accuracy of layout, inspection and reports provided by the incumbent will measure the effectiveness of this position.

Principal Accountabilities:

1. Provides accurate measurement, computation and documentation of contract items.
2. Keeps resident engineers informed of any construction problems encountered or change made.
3. Ensures that the items inspected are in accordance with the specifications.
4. Provides accurate and timely layouts.
5. Performs duties in compliance with departmental safety rules. Performs all duties in a manner conducive to the fair and equitable treatment of all employees.
6. Performs other duties as assigned.
