Illinois Department of Transportation

An Equal Opportunity Employer

Position Summary Sheet

Classification:	Civil Engineer Trainee (2 Positions)	Salary:	\$4,275 - \$4,655*
Position Title:	Construction Inspection Engineer	Union Position:	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Position Number:	PW110-23-52-201-10-01	IPR#:	42540

Office/Central Bureau/District/Work Address:

Office of Highways Project Implementation / Region 2 / District 2 / Bureau of Project Implementation / 819 Depot Avenue, Dixon, IL

Description Of Duties:

This position is accountable for assisting in the inspection and layout required on various improvements in construction projects and for the preparation of location studies and plans for highways, lighting, bridges, landscaping and resurfacing improvements. This is a training position that is part of a rotation program.

Special Qualifications:

Required:

- Bachelor of Science in Civil Engineering from an ABET accredited university prior to date of employment or must be a Licensed Engineer Intern in the State of Illinois (includes those expecting to graduate in spring 2018)
- Minimum 2.5 cumulative GPA in engineering related courses (If GPA is between a 2.0-2.5, candidate must have passed Fundamentals of Engineering Exam.)
- Official college transcripts must be included with application. (Official transcripts indicating graduation date for spring 2018 graduates must be provided at time of hire.)
- Valid driver's license

Desired:

- Strong oral and written communication skills

Shift/Remarks:

7:00 am – 3:30 pm / Monday – Friday

THIS IS AN ENTRY-LEVEL POSITION THAT IS PART OF A ROTATION PROGRAM.

IDOT considers official college transcripts to be original embossed transcripts in a sealed envelope from the university/college or in PDF format sent from the university/college directly to the Bureau of Personnel Management.

*Individual salary offers are computed based on an applicant's current position and experience level in comparison to the posted title as well as internal equity of staff in the organizational unit.

**Technical Application PM1080 (revised 6/1/17) is required. No previous version of the PM1080 will be accepted.

**ILLINOIS DEPARTMENT OF TRANSPORTATION
POSITION DESCRIPTION**

DATE:	January 6, 2018	POSITION:	Construction Inspection Engineer
APPROVED BY:	Kevin Marchek	OFFICE:	OHPI/D2/Project Implementation
CODE:	PW110-23-52-201-10-01	REPORTS TO:	Resident Engineer

Position Purpose

This position is accountable for assisting in the layout, inspection, and documentation required on various highway improvement construction projects and preparation of location studies and plans for highways, lighting, bridges, landscaping and resurfacing improvements. This is a training position that is part of a rotation program.

Dimensions

Subordinate Personnel:	Direct - None Indirect - 1-2 on an as-needed basis
Value of Construction Projects:	\$10,000 - \$20 Million

Nature and Scope

This position reports to the Resident Engineer, as do two to four other Civil Engineers and/or Engineering Technicians. This position may be assigned to a Resident Technician on a project-by-project basis. When this occurs, the incumbent would report to the Resident Technician. There are no direct subordinates reporting to this position, but he/she may supervise one to two technicians on direct assignments.

This position assists in providing the contractor with the necessary layout, direction, and inspection required on highway improvement and/or construction projects. This position operates within an environment that ensures the contractor provides a quality improvement in accordance with plans, specifications, and special provisions in a timely manner. This position rotates to other bureaus within the district as part of the rotational training program.

Typical problems faced by the incumbent are in the interpretation of the plans and specifications while inspecting and directing the contractor's personnel in compliance with the specifications. The greatest challenge is to balance the application of civil engineering principles to field conditions.

The functions performed by the incumbent include acting as a member on the survey party; inspecting construction operations such as earthwork, drainage, asphalt or concrete pavements, concrete, steel, and other miscellaneous items involved in road and bridge construction; providing necessary reports and documentation for pay items; reducing survey notes; plotting cross-sections; computing quantities; checking computations of others; and assisting the Resident Engineer on small and uncomplicated construction contracts.

The incumbent could supervise one or two technicians occasionally to help in inspection or surveying.

The incumbent is governed by the plans and specifications of the project. H/She refers major problems or necessary plan changes to the Resident Engineer. H/She does, however, accept or reject materials incorporated in the project on the basis of visual or field tests and ensures that all materials have been properly inspected prior to being incorporated into the project.

The incumbent has contacts with resident engineers, project engineers, and personnel from the Project Implementation Section, as well as with contractors and the general public.

The effectiveness of this position will be measured by the timeliness and accuracy of layout, inspection, and reports provided by the incumbent.

Principal Accountabilities

1. Provides accurate measurement, computation, and documentation of contract items to ensure proper payment and completion of pay items in accordance with the contract plans and standard specifications.
2. Keeps Resident Engineer informed of any construction problems encountered or changes made to allow for proper engineering judgment to be applied and working plans updated.
3. Inspects pay items and materials to ensure compliance with standard specifications and production of a quality improvement project.
4. Provides the contractor with accurate and timely layouts to allow for project completeness in accordance with the contract plans and the time frame outlined.
5. Performs duties in compliance with departmental safety rules.
