**ILLINOIS DEPARTMENT OF TRANSPORTATION
POSITION DESCRIPTION**

DATE:	04/26/2018	POSITION:	Program Analyst
APPROVED BY:	Jim Hickey	DIVISION:	Intermodal Project Implementation
CODE:	PW414-23-80-008-00-01	REPORTS TO:	Safety Oversight Program Section Manager

Position Purpose

This position is responsible for ongoing assistance to the State Safety Oversight Section by synthesizing information, conducting research, and developing safety performance indicators in rail transit safety activities, as well as performing inspections, audits, assessments, and studies as necessary.

Dimensions

Key Performance Indicator Analyses	6-12 Annually
Quarterly Key Performance Indicator Reports	4 Annually
Scheduled Investigations and Audits	6-12 Annually
Special Safety Assessments and Studies	2-4 Annually
Review of Accident Investigations	50-100 Annually
Executive Briefings	12 Annually
Financial Analysis and Reporting	4 Annually

Nature and Scope

This position reports to the Safety Oversight Program Section Manager. No subordinates report to this position.

The incumbent supports all aspects of the State Safety Oversight (SSO) Section. The incumbent conducts complex technical and analytical research, special audits and investigations, as well as technical studies and recommends alternatives on a broad range of issues involving safety oversight for rail fixed guideway public transportation systems. The incumbent will make recommendations using the development of performance measures to improve rail transit safety, consistent with the principles of Safety Management Systems. This position prepares written and oral reports and briefings for department management on a wide range of highly complex issues related to rail transit safety oversight. The position will also ensure compliance with federal requirements for financial management and reporting.

The greatest challenges for the incumbent will be making recommendations in the development of measures to improve rail transit safety, including implementation of safety risk management and safety assurance processes to prepare written and oral reports and briefings for department management on a wide range of highly complex issues related to rail transit safety oversight. The incumbent will utilize data gathered from inspections, audits, assessments, and studies to produce actionable deliverables and further guide the policy decisions of the SSO section.

The incumbent also assists in the compilation of department decision drafts, reports, and studies on rules, procedures, safety standards, safety audits, safety oversight plans, and transit equipment and facilities affecting the safety of transit system planning, construction, operations and maintenance. The incumbent provides advisory services regarding new legislation and federal notice of proposed rulemaking initiatives and compiles and submits periodic reports/data requested by the Federal Transit Administration.

Internal contacts include the staff of the Offices of Intermodal Project Implementation, Chief Counsel, Internal Audit, Finance and Administration, and Communications. External contacts may include representatives from the Federal Transit Administration, Transportation Security Administration, National Transportation Safety Board, Chicago Transit Authority (CTA), Missouri Department of Transportation (MODOT), and other local, state, and federal government agencies. Some in-state and out of state travel is required.

The effectiveness of this position is measured by the incumbent's ability to conduct complex and analytical research, inspections, and audits, providing accurate and timely reporting, and to proactively develop recommendations to improve rail transit safety.

Principal Accountabilities

1. Conducts complex technical and analytical research, special investigations, as well as policy studies and recommends alternatives on a broad range of regulatory issues involving rail transit safety oversight.
2. Works collaboratively and independently or in a lead capacity to evaluate complex inspection and accident data, using SMS as the foundation for identifying root causes and the analyses of incident and hazardous conditions by location.
3. Makes recommendations in the development of proactive measures to improve rail transit safety including modifications to existing local and State safety policies, as well as industry standards and prepares written and oral reports and briefings for department management on a wide range of highly complex issues related to rail transit safety oversight.
4. Coordinates activities of technical professional staff in the development and implementation of strategic initiatives, data collection, interpretation of data, and advisory services pertinent to rail transit system safety.
5. Assists in the compilation of department decision drafts, reports, and studies on rules, procedures, safety standards, safety audits, safety oversight plans, and transit equipment and facilities affecting the safety of transit system planning, construction, operations and maintenance.
6. Performs other duties as assigned. Performs duties in compliance with departmental safety rules. Performs all duties in a manner conducive to the fair and equitable treatment of all employees.
