^{**}Technical Application PM1080 (revised 6/1/17) is required. No previous version of the PM1080 will be accepted.

ILLINOIS DEPARTMENT OF TRANSPORTATION POSITION DESCRIPTION

DATE: September 1, 2018 POSITION: Inspector

APPROVED BY: Jeffrey M. South OFFICE/DIVISION: OHPI/District 7/Region 4

Project Implementation

CODE: PW110-23-57-201-10-01 REPORTS TO: Resident Engineer

Position Purpose

This position is accountable for assisting in the layout, inspection, and documentation required on various highway improvement construction projects. This is a training position.

Dimensions

Subordinate Personnel: None

Value of Construction Projects: \$100,000 - \$2,500,000

Nature and Scope

This position reports to the Resident Engineer. No subordinates report to this position.

The position will be enrolled in a rotation program and will be assigned to various sections or bureaus in the district. These responsibilities may involve performing various assigned duties within the sections of Programming, Studies and Plans, Project Support, Land Acquisition, Construction, Materials, Local Roads, Maintenance, Bridges, and Traffic. Upon completion of the rotation program, the district will work with the incumbent to determine a permanent bureau assignment, which will also take into account bureau needs and their staffing levels. This position assists in providing the contractor with the necessary layout and inspection required on highway improvement construction projects. This position operates within an environment of ensuring that the contractor provides a quality improvement in accordance with plans, specifications, and special provisions in a timely manner.

Typical problems faced by the incumbent are the interpretation of the plans and specifications while inspecting and directing the contractor's personnel in compliance with the specifications. The greatest challenge is to balance the application of civil engineering principles to field conditions.

The functions performed by the incumbent include acting as an instrument man on the survey party, inspecting construction operations such as traffic control, earthwork, drainage, asphalt or concrete pavements, concrete, steel and other miscellaneous items involved in road and bridge construction; using the Illinois Construction Records System (ICORS) software to generate the necessary reports and documentation for pay items; checking computations of others; and assisting the Resident Engineer on construction contracts.

The incumbent is governed by the plans and specifications of the project. H/She refers major problems or necessary plan changes to the Resident Engineer. H/She does, however, accept or reject materials incorporated in the project on the basis of visual or field tests, and assures that all materials have been properly inspected prior to being incorporated into the project.

The incumbent has contact with resident engineers, project engineers and personnel from the district's Materials Section as well as with contractors and the general public.

The timeliness and accuracy of layout, inspection, and reports provided by the incumbent will measure the effectiveness of this position.

Principal Accountabilities

- 1. Provides accurate measurement, computation, and documentation of contract items.
- 2. Keeps resident engineers informed of any construction problems encountered or changes made.
- 3. Ensures the items inspected are in accordance with the specifications.
- 4. Provides accurate and timely layouts.
- 5. Performs duties in compliance with departmental safety rules. Performs all duties in a manner conducive to the fair and equitable treatment of all employees.
- 6. Performs other duties as assigned.
