**ILLINOIS DEPARTMENT OF TRANSPORTATION
POSITION DESCRIPTION**

DATE:	September 19, 2018	POSITION:	Inspector/Assistant to Resident Engineer
APPROVED BY:	William Cruz	OFFICE:	OHPI / Region 2 / District 3 Project Implementation
CODE:	PW110-23-53-201-10-01	REPORTS TO:	Senior Resident Engineer

Position Purpose

This position is accountable for assisting in the layout, inspection and documentation required on various highway improvement construction projects. This is a training position.

Dimensions

Value of Construction Projects: \$100,000 up

Nature and Scope

This position reports to the Senior Resident Engineer but may report to the Resident Engineer or Resident Technician on a project basis. No subordinates report to this position.

This position assists in providing the contractor with the necessary layout and inspection required on highway improvement construction projects. This position operates within an environment of ensuring that the contractor provides a quality improvement in accordance with plans, specifications and special provisions in a timely manner.

Typical problems faced by the incumbent are in the interpretation of the plans and specifications while inspecting and directing the contractor in compliance with the specifications. The greatest challenge is to balance the application of civil engineering principles to field conditions.

The functions performed, under the close supervision of the Senior Resident Engineer, include acting as an instrument person on the survey party, inspecting construction operations, such as earthwork, drainage, asphalt or concrete pavements, concrete, steel and other miscellaneous items involved in road and bridge construction; assisting in the preparation of the necessary reports and documentation for pay items; reducing survey notes, plotting cross sections, computing quantities, checking computations of others, and assisting the Resident Engineer/Resident Technician on specific construction problems. S/He must exhibit effective communication skills.

The incumbent is governed by the plans and specifications of the project as well as departmental policies. S/He refers major problems or necessary plan changes to the Resident Engineer/Resident Technician. S/He does, however, accept or reject materials incorporated in the project based on visual or field tests and ensures that all materials have been properly inspected prior to being incorporated into the project.

Internal contacts are with resident engineers/technicians, project engineers and personnel from the district Bureau of Project Implementation. External contacts include contractors. Travel is required to active construction sites.

The effectiveness of this position will be measured by the timeliness and accuracy of layout, inspection and reports provided by the incumbent.

Principal Accountabilities

1. Provides accurate measurement, computation and documentation of contract items.
2. Keeps Senior Resident Engineer informed of any construction problems encountered.
3. Ensures that the items inspected are in accordance with the specifications.
4. Provides accurate and timely layouts.
5. Performs duties in compliance with departmental safety rules. Performs all duties in a manner conducive to the fair and equitable treatment of all employees.
6. Performs other duties as assigned.
