Property needed is to be acquired by fee simple, dedication, permanent easement, or temporary easement as determined and shown on the right of way plan furnished by the DEPARTMENT.

The Appraisal Report will require the Appraiser to make a detailed inspection of the properties and complete any investigations and studies necessary to derive sound conclusions for the preparation of appraisal reports.

On parcels that require the acquisition of a residence, the Appraisal Report may require the Appraiser to perform additional analysis to determine an allocated value for the residence and home site (carve out) as separate from the whole parcel to be acquired. This would be needed for relocation purposes and is not to be included in the appraisal report. The cost for the additional appraisal analysis will be included in the price established in the work order for that appraisal.

An Appraiser's revision of the appraisal due to the Review Appraiser's comments or corrections does not constitute an update or revision that would necessitate a separate work order.

These updates or revisions will be assigned to the CONSULTANT in a separate work order as the need arises. A Review Appraiser's second or other subsequent review of an appraisal report, rewritten by the Appraiser due to the Review Appraiser's comments or corrections, does not constitute an update or revision to the Appraisal Review Certification Report nor would necessitate a separate work order.
