

**Emergency Purchase Number:** EA13-09

**Office/Division:** Division of Highways - District 6

**Address:** 126 E. Ash Street  
Springfield, IL 62704

Chief Procurement Officer: Bill Grunloh

**Vendor:** P.H. Broughton, Inc.

**Address:** 905 North Lincoln Avenue  
Springfield, IL 62702

Estimated Cost: \$15,000.00

**Final Cost:** \$11,858.54

This expenditure is justified as:

- An emergency involving public health.
- An emergency involving public safety.
- Necessary to protect State property from further loss or damage.
- Necessary to prevent or minimize serious disruption in State services.
- Necessary to insure integrity of State records.
- Quick purchase as provided by Section 20-30 (d) of the Illinois Procurement Code.

The conditions and circumstances requiring this emergency expenditure are:

Due to emergency call outs, vehicle damage due to roadway rapid deterioration and the inability to temporarily patch "pot holes" in the roadway surface, we are asking for approval to purchase hot mix asphalt to allow us to mill off the top 3 1/4" of the roadway surface and replace that with new asphalt. This will extend the life of the roadway and allow the motoring public to have trouble free travel along this area of I-55 in Logan county. There has been severe damage to some vehicles recently to the extent of knocking the axle out from under a traveler's vehicle. Truman Flatt is the low bidder and can supply us with the estimated 150 tons of hot mix asphalt and the 180 tons of Binder in the time frame needed.

The original affidavit was to purchase binder and surface coarse from Truman L. Flatt of Springfield. After the project began, on Friday, June 14th, we were notified that Truman L. Flatt would not be able to supply the surface on Tuesday, June 17th as requested. The were going to shut down their asphalt plant for 2 or 3 days, this delay was not accepable and did not meet the original terms to supply the material in the time frame needed. We then contacted the second low bidder, P.H. Broughton, Inc. and asked if they could supply the needed surface bituminous mixture. They responded they could indeed supply the surface course as needed to complete the emergency project at their previous quoted price of \$92.50 per ton.
