

**JOSLIN****ISGS #23****WETLAND COMPENSATION SITE**

FAP 585

Henry County, near Joslin, Illinois

**Primary Project Manager: Kelli D. Weaver****Secondary Project Manager: Keith W. Carr**

## SITE HISTORY

- January 1995: An initial ISGS topographic survey and hydrologic analysis were sent to IDOT.
- Summer 1998: ISGS installed 18 soil-zone monitoring wells.
- April 2001: ISGS installed an RDS data logger and a stage gauge to monitor surface water. This station monitors a backwater slough that communicates with the Rock River and parallels the eastern site margin.
- March 2004: IDOT requested site monitoring be discontinued.
