

FY 2024

PROPOSED HIGHWAY IMPROVEMENT PROGRAM

Program Overview

Each year, the Illinois Department of Transportation develops the Annual Highway Improvement Program. This publication presents a detailed account of the Fiscal Year 2024 highway program element, originally presented in the Fiscal Year 2024-2029 Proposed Highway and Multimodal Improvement Program. It provides a current listing of the projects sorted by district and phase of work to assist stakeholders with planning activities.

On Nov. 15, 2021, the Infrastructure Investment and Jobs Act, also known as the Bipartisan Infrastructure Law, was signed into law. This new five-year funding authorization bill provides for an approximate 20% increase in federal formula funds and an estimated 12% increase over existing formula funds. This funding, along with additional funding from the Rebuild Illinois capital program passed in June 2019, helps make significant progress in addressing our road and bridge needs in Illinois.

The IJA and the Rebuild Illinois capital program have significantly increased the size of IDOT's highway program. The FY 2024 Annual Highway Improvement Program remains significantly larger than previous years, providing \$4.63 billion of the \$27.03 billion included for highways in the Fiscal Year 2024-2029 Proposed Highway and Multimodal Improvement Program. Also included are projects totaling approximately \$620 million in appropriations from previous fiscal years that are scheduled to be implemented in FY 2024. As a result, the FY 2024 Annual Highway Improvement Program totals \$5.25 billion. This allows the department to continue to move assertively towards meeting Transportation Asset Management Plan goals and fixing our state's crumbling infrastructure.

A total of 894 miles of highways and 252 bridges will be improved or constructed through the FY 2024 Annual Highway Improvement Program. Safety and traffic improvements are scheduled at 143 locations. The FY 2024 Annual Highway Improvement Program includes \$3.76 billion for projects on the state highway system and \$1.49 billion for projects on the local system.

This year continues the implementation of the federally required TAMP. This means that states are required to consider the life-cycle cost of roads and bridges. On January 24, 2023, the Federal Highway Administration recertified an updated fully compliant TAMP. Under asset management, a data-driven decision process has been developed and implemented that supports the use of analysis tools and life-cycle strategies to reduce the rate of system deterioration as cost-effectively as possible. The department will continue to address road and bridge preservation needs to ensure our system is safe but will also spend money on low-cost treatments to preserve those roads and bridges and keep them in acceptable condition longer. The projects in the FY 2024 State Program of the Annual Highway Improvement Program have been selected within the parameters of the TAMP.

The program priorities are to maintain and preserve our existing roads and bridges, or assets, with a special emphasis on the National Highway System and structurally deficient bridges on that system. There are 7,756 miles of roads and 4,821 bridges (totaling 75,328,199 square feet of deck area) on the NHS.¹ The department's focus on the NHS is due in large part to new federal performance rules that require state departments of transportation to prioritize its condition. New federal performance measures were developed to "increase the accountability and transparency of the federal-aid highway program and provide for a framework to support improved investment decision making through a focus on performance outcomes for key national transportation goals."²

Asset management is a strategic and systematic process of operating, maintaining and improving physical assets, with a focus on engineering and economic analysis based upon quality information, to identify a structured sequence of maintenance, preservation, repair, rehabilitation and replacement actions that will achieve and sustain a desired state of good repair over the life cycle of the assets at minimum practicable cost. (23 U.S.C. 101(a)(2), MAP-21 § 1103)

¹ National Highway System Illinois Highway Statistics Sheet 2022

² <https://www.fhwa.dot.gov/tpm/rule.cfm>

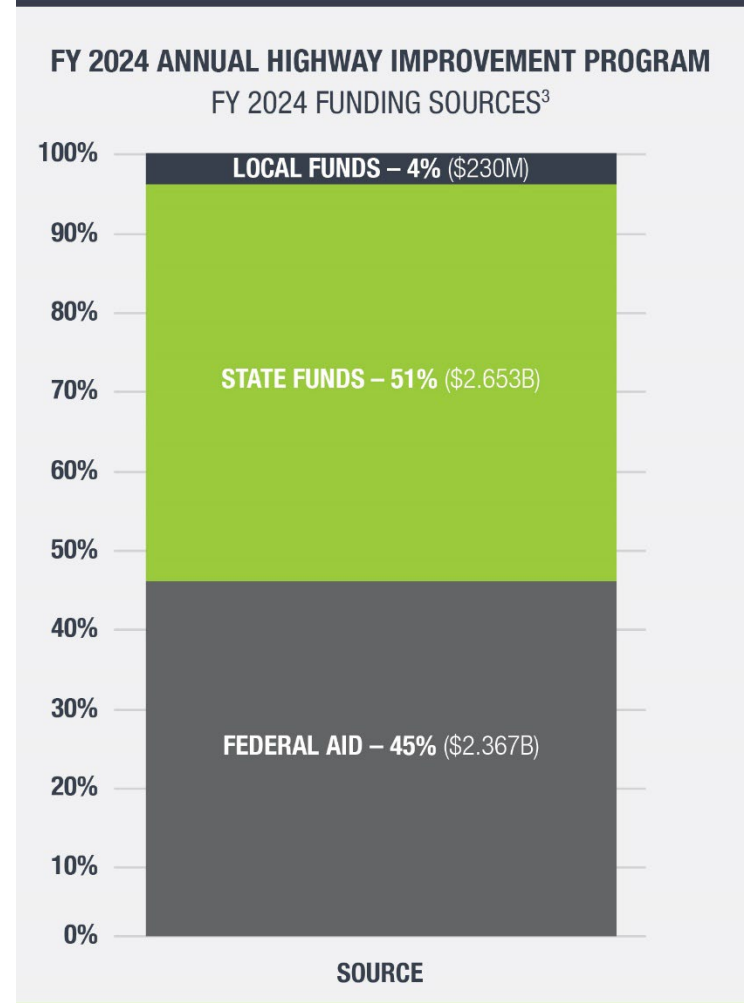

The chart to the right displays the funding sources for the Annual Highway Improvement Program.

State Program

The FY 2024 state program included in the Annual Highway Improvement Program focuses on maintaining and preserving our existing roads and bridges, or assets, with a special emphasis on the NHS and structurally deficient bridges for a total cost of \$3.76 billion. This investment allows for 598 miles of roads to be improved or added to the existing highway system, along with 1,653,678 square feet of deck area improvements (138 bridges) and 107 intersection and spot improvements.

The department is working to more accurately relate costs associated with preservation and maintenance activities. Through this effort, IDOT can evaluate potential investment strategies and determine how best to reach the goals outlined in the TAMP. With the additional funding provided by IIJA and Rebuild Illinois, it is anticipated that the pavement goals will be met or nearly met. However, the rate at which bridges are deteriorating will make it very difficult to meet the bridge targets, even with the additional investment provided by IIJA and Rebuild Illinois. All pavement and bridge projects included in the state program have been evaluated to ensure they are programmed for the right treatment at the right time, consistent with the life-cycle planning as described in the TAMP.

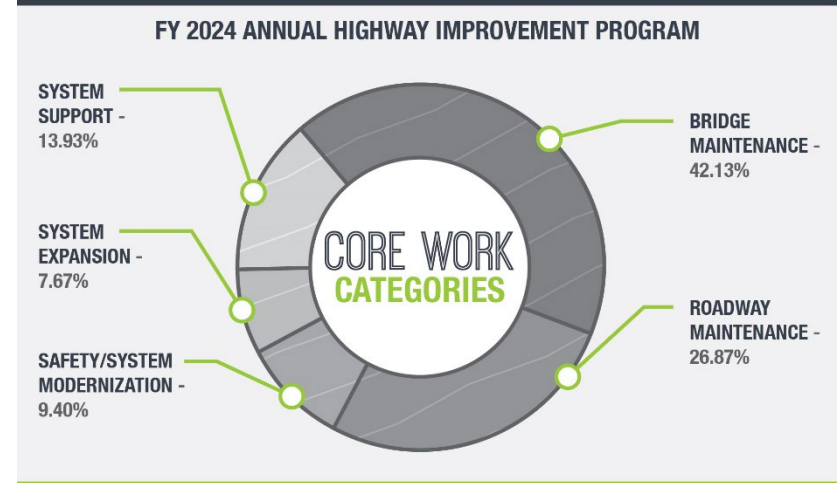

To further the department’s ability to ensure the correct treatments are being done at the right time during an asset’s life cycle and then see the long-term results of this approach, IDOT is implementing an Enterprise Asset Management System. Once the system is in place, the districts will be able to see the best treatments for an asset as well as the optimal mix of projects to obtain the most benefit for the cost.

³ There are projects totaling approximately \$620 million included in the published FY 2024 program utilizing reappropriations

Core Work Categories

The implementation of asset management has necessitated several changes to the FY 2024 state program, as federal asset management rules require that IDOT show a commitment to preserving and maintaining the existing system. The department's focus has been modified to concentrate on five core areas in categorizing projects: roadway maintenance, bridges, safety/system modernization, system expansion and a system support category that includes assets and activities supporting the transportation network, as shown in the chart to the right.

The types of work included in the core areas are:

- **Roadway Maintenance** includes reconstruction, resurfacing, lane or shoulder width widening and pavement preservation projects.
- **Bridges** consists of bridge replacement and rehabilitation, minor structure repairs and preservation projects. Bridge information will be discussed in terms of square feet of deck area instead of number of bridges.
- **Safety/System Modernization** consists of projects such as interchange reconstruction, interstate safety projects, and traffic and safety improvements.
- **System Expansion** includes major projects, such as new bridges on new alignment, bridge replacements that increase capacity, additional lanes, new interchanges, and strategic regional arterials.
- **System Support** consists of rest area and weigh station maintenance, miscellaneous districtwide projects, contract maintenance, statewide engineering or other statewide items, such as pavement markings, guardrail delineation, sign truss work and median barriers.

The table below lists the miles of roads and square feet of bridges programmed in the FY 2024 state program for the NHS and non-NHS system.

Table 1. Total Miles and Square Feet of Bridges in the FY 2024 State Program

FY 2024 Core Work Categories Programmed Improvements

Roadway Maintenance

Interstate NHS (miles)	53
Non-Interstate NHS (miles)	87
Non-NHS Marked (miles)	193
Non-NHS Unmarked (miles)	54

Bridges

Interstate NHS (sq. ft.)	867,414
Non-Interstate NHS (sq. ft.)	507,810
Non-NHS Marked (sq. ft.)	65,735
Non-NHS Unmarked (sq. ft.)	153,650

Safety/System Modernization

Safety Locations (number)	107
---------------------------	-----

System Expansion

Interstate NHS (miles)	7
Non-Interstate NHS (miles)	1
Non-NHS Marked (miles)	2
New Bridges (sq. ft.)	59,069

Preservation

Accomplished (miles)	201
----------------------	-----

The following notable NHS system construction projects are included in the Annual Highway Improvement Program:

Northern Illinois

- Reconstruction, auxiliary lanes, shoulder reconstruction, bridge replacements, retaining wall, culverts, and other bridge work on Interstate 80 from River Road to Wheeler Avenue in Joliet and from Rowell Avenue to Gougar Road in New Lenox at a cost of \$328 million.
- Reconstruction, additional lanes, intersection improvement, ADA improvements, culvert replacement and retaining wall on Illinois 47 from 0.1 mile north of Illinois 120 (McHenry Avenue) to U.S. 14 in Woodstock at a cost of \$39 million.
- Reconstruction, ramp modifications, traffic signals and culverts on Interstate 39 from Harrison Avenue to 0.4 mile north (including interchange ramps), U.S. 20 from Interstate 39 to Mill Road and Harrison Avenue from Bell School Road to Interstate 39 in Cherry Valley at a cost of \$13 million.
- Designed overlay, resurfacing and wing wall repair on Interstate 55 from 0.8 miles north of Wolf Creek to 1.8 miles south of Illinois 17 in Livingston County at a cost of \$25 million.

Central Illinois

- Designed overlay and resurfacing on Interstate 57 from the Coles County line to 0.3 mile north of U.S. 36 in Tuscola and Arcola at a cost of \$38 million.
- Standard overlay, ADA improvements and traffic signal modernization on U.S. 45 (Neil Street) from Springfield Avenue in Champaign to Curtis Road in Savoy at a cost of \$11 million.
- Reconstruction, additional lanes, intersection improvement, turn lanes, traffic signals, sidewalks and bike lanes on Interstate 55 Business (6th Street) from Interstate 72 to 0.1 miles north of Stevenson Drive in Springfield at a cost of \$44 million.

Southern Illinois

- Intersection reconstruction, new bridge and pedestrian overpass on Illinois 162 from Illinois 157 (North Junction) Relocation to Illinois 157 (South Junction) in Glen Carbon at a cost of \$18 million.
- Designed overlay, resurfacing, bridge and ramp repair on Interstate 255/U.S. 50 from 0.2 mile north of Illinois 157 to Illinois 15 in Cahokia Heights at a cost of \$45 million.
- Additional lanes on Interstate 57 from Atchison Creek south of Bonnie to Interstate 64 South Tri-Level Interchange in Mount Vernon at a cost of \$48 million.
- Smart overlay on Interstate 24 from Interstate 57 Interchange in Williamson County to U.S. 45 north of Vienna at a cost of \$21 million.

Of the 91 NHS bridges programmed, 53 are structurally deficient. Following are a few of the significant NHS bridge construction projects included in the Annual Highway Improvement Program:

Northern Illinois

- Bridge replacements, auxiliary lanes, channelization, safety improvements, other bridge work and noise barriers on U.S. 20 from Illinois 31 to east of Grace Street in Elgin at a cost of \$108 million.
- Bridge replacement, reconstruction, interchange reconstruction and additional lanes on Interstate 39 from 0.8 mile north of Blackhawk Road to 0.3 miles east of Mulford Road and U.S. 20 from 0.6 mile west of Mulford Road to Interstate 39 in Rockford and Cherry Valley at a cost of \$133 million.
- Bridge replacement and median crossover on Illinois 2 at Rock River in Rockton at a cost of \$28 million.

Central Illinois

- Bridge replacement and interchange reconstruction on Illinois 8/116 (Cedar Street Extension) over Tazewell and Peoria Railroad and Illinois 29 in East Peoria at a cost of \$65 million.
- Bridge replacement, horizontal realignment and culvert extension on U.S. 67 at Illinois River in Beardstown at a cost of \$123 million.

Southern Illinois

- Bridge replacement and median crossover on Interstate 57 over the Eastern Illinois Railroad 0.3 mile south of Neoga Interchange and over U.S. 45 at Neoga at a cost of \$32 million.
- Bridge replacement, bridge removal and reconstruction on Interstate 70 from an abandoned railroad bridge at Altamont to 0.8 mile east of Altamont Interchange in Altamont at a cost of \$18 million.

Local Program

The FY 2024 Highway Improvement Program includes improvements on local streets and highways using federal funds. A portion of the federal funding is allocated based on population to local agencies throughout the state. The local program included in the FY 2024 Highway Improvement Program provides \$1.49 billion to fund improvements on 296 miles of road and 541,243 square feet of deck area (114 bridges), along with 36 traffic and safety improvements. In addition, \$7 million is included in the program to help local governments upgrade designated truck routes.

Under the current asset management requirements, IDOT is required to report on the condition of the total NHS, regardless of who maintains it. Of the 296 miles of road and 114 bridges programmed, 11 miles and five bridges are located on the locally owned NHS. The five bridges total 216,643 square feet and are structurally deficient. IDOT will work with its local agency partners to develop a plan to address the maintenance of the locally maintained miles and square feet of bridge deck area to determine how their plans impact IDOT's ability to meet its goals.

The FY 2024 Highway Improvement Program also provides \$75.1 million in state funds to assist local governments that are not listed in this document. The Township Bridge Program listed below increased to \$60 million per year in the FY 2024 capital program budget. This increase in funding will be reflected in the next year's FY 2025-2030 Proposed Highway and Multimodal Improvement Program.

These funds are allocated directly to local governments by formula. The breakdown is as follows:

Approximately \$1.098 billion of state motor fuel tax funds will be directly distributed to municipalities, counties and townships for administration and the repair of local roads and bridges during FY 2024. This distribution is in addition to the state's \$5.25 billion FY 2024 Annual Highway Improvement Program.

GUIDE TO THE LISTING

The projects included in the FY 2024 Annual Highway Improvement Program are grouped by state highway district. Within each district, projects are listed under six headings:

- State Construction
- State Engineering
- State Land Acquisition
- Local Construction
- Local Engineering
- Local Land Acquisition

Individual projects are listed within these six headings in descending route marking order, i.e., Interstate, U.S., Illinois and other. Each project's funding type is identified by eligibility with symbols. The symbols and their funding categories are shown in Table 2. Projects in some categories, such as railroad-highway grade crossing safety and some statewide and districtwide items, will be identified and selected during the fiscal year. A glossary with abbreviations is listed in Table 3.
