## Press Release

### Green Mount Road over Loop Creek – Belleville, IL

Collinsville, Illinois – The Illinois Department of Transportation announces that daytime single lane closures will be encountered on the bridge carrying southbound and northbound Green Mount Road over Loop Creek, approximately 0.2 miles north of IL 158 (Mascoutah Avenue).

Southbound and northbound lanes of Green Mount Road will be alternately closed (i.e., one at a time) on Thursday, March 24, 2016, weather permitting. The closures may possibly extend into Friday, March 25, 2016, if the planned work is not able to be completed on Thursday. A minimum of one lane of traffic in each direction will be maintained during the lane restrictions. The lane restrictions will occur between 7:00 AM and 3:00 PM.

The lane restrictions are needed to conduct required deck testing on the bridge carrying this route.

Traffic delays are anticipated, motorists are encouraged to consider alternate routes.

Flaggers and traffic control devices will be utilized to assist motorists making their way through the work zone. The Department asks that all motorists be patient and use additional caution when travelling near and through this work zone. Please slow down and use extreme caution while driving through all work zones.
