Work on U.S. 6 in Ottawa begins April 21

OTTAWA – The Illinois Department of Transportation announces that construction on Norris Drive (U.S. 6) between just west of Boyce Memorial Drive and the Fox River begins April 21.

The work involves pavement resurfacing and patching as well as improvements to pedestrian accommodations and will require lane closures. Access to homes and businesses will be maintained, but there may be short periods of inaccessibility at times. The project is expected to be complete in early fall.

Motorists can expect delays and should allow extra time for trips through this area. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.
