Sidewalk construction in Henry and Rock Island counties begins May 2

DIXON – The Illinois Department of Transportation announced today that weather permitting, construction of various sidewalk ramps at various routes in Henry and Rock Island counties will begin on Monday, May 2.

One lane of traffic will be maintained during the day and will be controlled by flaggers during construction, which is expected to be completed by September.

Motorists can expect delays and should allow extra time for trips through this area. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.
