I-39 bridge work over Blackhawk Road begins Sept. 6

DIXON – The Illinois Department of Transportation announced today that weather permitting, construction on the Interstate 39 bridge crossing Blackhawk Road in Winnebago County will begin Tuesday, Sept. 6. The work zone is located 2 miles south of U.S. 20.

Work will consist of installing new expansion joints and concrete overlays on both bridges. Traffic will be reduced to one lane in each direction with a temporary concrete barrier throughout the project, which is expected to be completed by early November.

Motorists can expect delays and should allow extra time for trips through this area. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.

Over the next six years, IDOT is planning to improve more than 3,535 miles of highway and 9 million square feet of bridge deck as part of the Rebuild Illinois capital program, which is investing \$33.2 billion into all modes of transportation. Accomplishments through Year Two included approximately \$5.2 billion in improvements statewide on 3,020 miles of highway and 270 bridges along with 428 additional safety improvements.
