## Irving Park Road/Barrington Road intersection improvements

**CHICAGO** – The Illinois Department of Transportation announced today that an intersection improvement at Irving Park Road (Illinois 19) and Barrington Road, in Hanover Park, will require daytime lane closures beginning, weather permitting, Friday, July 8.

The \$2.9 million project, which involves widening the existing intersection to allow for dedicated left turns lanes on Barrington Road, constructing new ADA-compliant sidewalk ramps and resurfacing, is anticipated to be completed in summer 2023.

At least one lane in each direction will remain open throughout construction.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.

Over the next six years, IDOT is planning to improve more than 3,535 miles of highway and nine million square feet of bridge deck as part of the Rebuild Illinois capital program, which is investing \$33.2 billion into all modes of transportation. Accomplishments through Year Two included approximately \$5.2 billion of improvements statewide on 3,020 miles of highway, 270 bridges and 428 additional safety improvements.
