Bridge painting on Illinois 57 over Curtis Creek begins June 27

QUINCY – The Illinois Department of Transportation announced that painting of the Illinois 57 over Curtis Creek just south of RJ Peters Drive in Quincy will begin Monday, June 27.

Lane reductions will be necessary for this project. Temporary barriers, cones and flaggers will be present for traffic control. This project will help preserve the bridge and create a protective coat on the structural steel.

Motorists can expect delays and should allow extra time for trips through this area. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.

Over the next six years, IDOT is planning to improve more than 3,500 miles of highway and 9 million square feet of bridge deck as part of the Rebuild Illinois capital program, which is investing \$33.2 billion into all modes of transportation. Accomplishments through Year Two included approximately \$5.2 billion of improvements statewide on 3,020 miles of highway, 270 bridges and 428 additional safety improvements.
