Lane closures on Irving Park Road begin March 21

CHICAGO – The Illinois Department of Transportation announced today that a project to install pigeon abatement to the bridge that carries the Kennedy Expressway (Interstate 90/94) over Irving Park Road, in Chicago, will begin, weather permitting, Monday, March 21.

To complete the work, motorists should expect various daytime lane closures on both sides of Irving Park Road at the bridge. Access to the Chicago Transit Authority's Irving Park Road Blue Line station will not be impacted. The work is expected to be complete in late June.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
