Illinois 75 construction near Freeport begins April 4

DIXON – The Illinois Department of Transportation announced today that weather permitting, construction to replace two box culverts on Illinois 75 east of Freeport will begin on Monday, April 4. The culverts are located east of Tower Road.

Traffic will be reduced to one lane controlled by temporary traffic signals and temporary concrete barrier walls throughout the construction. This \$1.04 million project is anticipated to be completed by the end of July.

Motorists can expect delays and should allow extra time for trips through this area. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.

Over the next six years, IDOT is planning to improve more than 3,535 miles of highway and 9 million square feet of bridge deck as part of the Rebuild Illinois capital program, which is investing \$33.2 billion into all modes of transportation. Accomplishments through Year Two included approximately \$5.2 billion in improvements statewide on 3,020 miles of highway and 270 bridges along with 428 additional safety improvements.
