Illinois 64 bridge repair in Ogle County begin May 17

DIXON – The Illinois Department of Transportation announced today that weather permitting, construction on bridge carrying Illinois 64 over Pine Creek in Ogle County will begin Tuesday, May 17. The bridge is located 3 miles west of Mount Morris.

The project will replace the approach slab to the structure. One lane of traffic will be maintained using temporary traffic signals and a barrier wall. Work is expected to be completed by June 29.

Motorists can expect delays and should allow extra time for trips through this area. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.

Over the next six years, IDOT is planning to improve more than 3,535 miles of highway and 9 million square feet of bridge deck as part of the Rebuild Illinois capital program, which is investing \$33.2 billion into all modes of transportation. Accomplishments through Year Two included approximately \$5.2 billion in improvements statewide on 3,020 miles of highway and 270 bridges along with 428 additional safety improvements.
