Signal work at Adams and Spalding set Oct. 27

PEORIA – The Illinois Department of Transportation announced that traffic signal maintenance at the intersection of Adams Street (Illinois 29) and Spalding Avenue in Peoria is set Oct. 27.

The signals will be turned off and the intersection controlled by four-way stop signs during the work, which will take place between 8 a.m. and 4 p.m. and last one day.

Motorists can expect delays and should allow extra time for trips through this area. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.

Over the next six years, IDOT is planning to improve more than 2,500 miles of highway and nearly 10 million square feet of bridge deck as part of the Rebuild Illinois capital program, which is investing \$33.2 billion into all modes of transportation. Accomplishments through Year Three of Rebuild Illinois included approximately \$8.6 billion of improvements statewide on 4,422 miles of highway, 412 bridges, and 621 additional safety improvements.
