Grant Highway resurfacing begins Sept. 26

CHICAGO – The Illinois Department of Transportation announced today that a resurfacing of Grant Highway (U.S. 20), between Page and Locus streets, in Marengo, will require intermittent daytime lane closures beginning, weather permitting, Monday, Sept. 26.

The project, which also includes constructing new ADA-compliant sidewalk ramps and replacing deteriorated curbs, is expected to be completed by the end of this year. Access to residences and businesses within the work zone will be maintained throughout construction.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.

Over the next six years, IDOT is planning to improve more than 2,500 miles of highway and nearly 10 million square feet of bridge deck as part of the Rebuild Illinois capital program, which is investing \$33.2 billion into all modes of transportation. Accomplishments through Year Three of Rebuild Illinois included approximately \$8.6 billion of improvements statewide on 4,422 miles of highway, 412 bridges, and 621 additional safety improvements.
