I-55 bridge work in Livingston County underway

OTTAWA – The Illinois Department of Transportation today announced that work is underway on the Interstate 55 bridges crossing Rooks Creek in Livingston County. The work zone is located 3 miles southwest of Pontiac.

Work includes expansion joint replacement, deck repairs and the installation of a latex overlay on the structures. One lane will be closed in each direction during the \$1.9 million project, which is scheduled to be completed by the end of June.

Motorists can expect delays and should allow extra time for trips through this area and be prepared for slow and stopped traffic. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.

Over the next six years, IDOT is planning to improve more than 2,500 miles of highway and nearly 10 million square feet of bridge deck as part of the Rebuild Illinois capital program, which is investing \$33.2 billion into all modes of transportation. Accomplishments through Year Three of Rebuild Illinois included approximately \$8.6 billion of improvements statewide on 4,422 miles of highway, 412 bridges, and 621 additional safety improvements.
