Work on Illinois 96 bridges begins May 1

LOMAX – The Illinois Department of Transportation announced that repairs to the Illinois 96 bridges over Camp and Weaver creeks, approximately 1.5 and 4.5 miles west of Lomax in Henderson County, begin May 1.

Improvements will consist of bridge joint repairs, patching and bridge deck resurfacing, and the work will reduce the bridges to one lane with traffic controlled by temporary signals into September.

Motorists can expect delays and should allow extra time for trips through this area. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.

Over the next six years, IDOT is planning to improve more than 2,500 miles of highway and nearly 10 million square feet of bridge deck as part of the Rebuild Illinois capital program, which is investing \$33.2 billion into all modes of transportation. Accomplishments through Year Three of Rebuild Illinois included approximately \$8.6 billion of improvements statewide on 4,422 miles of highway, 412 bridges, and 621 additional safety improvements.
