## U.S. 34 bridge work begins March 27

**MONMOUTH** – The Illinois Department of Transportation announced that construction on the Cameron Road (140<sup>th</sup> Street) bridge over U.S. 34, between Monmouth and Galesburg in Warren County, begins March 27.

The work involves bridge joint replacement, patching and resurfacing. Cameron Road will be reduced to one lane in both directions, with traffic controlled by temporary signals. Intermittent lane closures also will be necessary for pier repairs. The project is expected to be complete by September.

Motorists can expect delays and should allow extra time for trips through this area. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.

Over the next six years, IDOT is planning to improve more than 2,500 miles of highway and nearly 10 million square feet of bridge deck as part of the Rebuild Illinois capital program, which is investing \$33.2 billion into all modes of transportation. Accomplishments through Year Three of Rebuild Illinois included approximately \$8.6 billion of improvements statewide on 4,422 miles of highway, 412 bridges, and 621 additional safety improvements.
