

UNMANNED AERIAL VEHICLES ARE AIRCRAFT

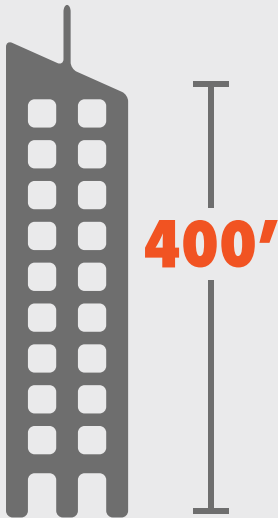

Flying one makes you a pilot.

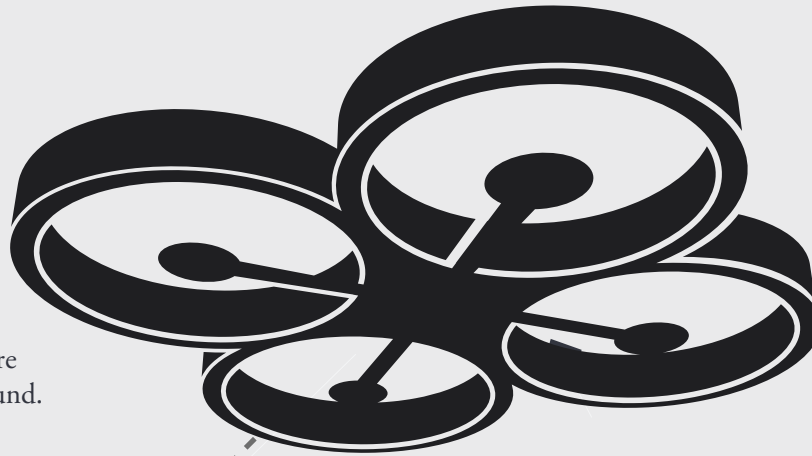

5 miles

Federal rules prohibit drones from being flown within five miles of an airport, without first contacting the airport.

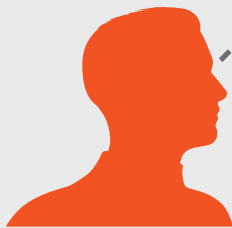

400'

Do not fly your drone more than 400 feet above the ground.

Do not fly under the influence.

Always maintain a line of sight with the drone when you are flying.

Avoid flying over large groups of people, including stadiums and sports events, or emergency response efforts, such as fires or traffic accidents.
