This project consists of the staged construction of three railroad bridges, two highway bridges and numerous retaining wall systems to replace two Canadian National and METRA railroad viaducts. This project includes railroad related work of furnishing, constructing and removing railroad track, signal bridges, catenary structures, fiber optic communication cables and electric cables in conduit for railroad utility relocations. This project also includes reconstruction of U.S. Route 6 from Lexington Avenue to Fisk Avenue including storm sewer replacement, watermain relocation, traffic signal replacement and lighting.
