### Background

Chapter 22 - Due to previous revisions in Chapters 23, 24, and 25; as well as the recently created Appendix D, Chapter 22 has been updated to reflect the relevant changes in those other areas and to reduce the amount of redundant information.

Chapters 23 and 26, Appendices C and D - The Natural Resources Conservation Service (NRCS) now requires the use of Form NRCS-CPA-106 instead of Form AD-1006 for federally funded projects that convert farmland to nonagricultural use. The form reference has been updated in:

- Section 23-2.08(a)
- Section 26-10
- Appendix C
- Appendix D

In addition, Figure 26-10.A was removed as the figure was an example of Form AD-1006.

Chapter 27 - Section 27-1.02 has been updated so the criteria for when to send in an Environmental Survey Request agrees with the special waste screening procedures discussed in Section 27-3.
