BDE PROCEDURE MEMORANDUM

NUMBER: 14-11

SUBJECT: BDE Manual Revision – Chapter 26

DATE: November 14, 2014

Chapter 26 of the BDE Manual has been revised to update Section 26-14 for new COSIM 4.0 language. Please see Chapter 26 of the BDE Manual on-line to view the revisions.

Background

Illinois COSIM Version 4.0 incorporates Carbon Monoxide (CO) emissions factors generated by the USEPA's Motor Vehicle Emission Simulator (MOVES) model, which replaced the MOBILE6 model.

The requirements for complying with the MOVES model are codified in the "IDOT-IEPA Agreement on Microscale Air Quality Assessments for IDOT-Sponsored Transportation projects," signed June 5, 2014 by the Department.

A handwritten signature in black ink, appearing to read "Omer M. Osman". To the right of the signature, the number "3" is written above the initials "AAW".

Omer M. Osman
Director of Highways
Chief Engineer
