

From February 14, 2014 Bridge Element Inspection Manual

With the MAP-21 requirement that element level inspections be performed for bridges on the National Highway System the Illinois manual for bridge element inspection has been updated. The *Bridge Element Inspection Manual* dated February 2014 is available at <http://www.dot.il.gov/bridges/brmanuals.html>. This manual reflects Illinois policy and element descriptions for element level bridge inspections.

In addition to the new manual a new Bridge Element Inspection form (BBS ELI) is available at <http://www.dot.il.gov/bridges/bridgforms.html>.
