

March 13, 2018, Critical Finding Video

A Critical Finding is a structural or safety related deficiency that may pose an imminent threat to the safety of the traveling public.

A short video describing the process of properly identifying, responding to and reporting a Critical Finding has been produced to help inspectors with this process. The video is approximately 17 minutes long and is available on the IDOT YouTube channel by [clicking here](#).

Section 3.3.12 of the Structural Services Manual has additional information on Critical Findings. The Structural Services Manual is available by [clicking here](#).

Please watch the video and familiarize yourself with the Critical Finding process to ensure you are prepared to respond properly to a Critical Finding.
