Qualified Producer List
CERTIFIED PRECAST CONCRETE PRODUCERS
October 1, 2021

This list supersedes the September 17, 2021 list.

Standard Specifications for Road and Bridge Construction, Sections 522 and 1042

Guide Bridge Special Provision "Three Sided Precast Concrete Structure"

Contract Special Provision "Noise Abatement Wall"

Current Policy Memorandum "Quality Control / Quality Assurance Program for Precast Concrete Products"

Note 1: This producer is a certified precast concrete producer only for products manufactured on or before May 25, 2018.

Note 2: As of November 6, 2020, these locations were officially renamed from Concrete Specialties to Old Castle Infrastructure.

A Product markings are applicable to products A1, A6, B1, B2, C1-7, D1-8, and F1. Refer to Attachment C in the current Bureau of Materials and Physical Research's Policy Memorandum, "[Quality Control/Quality Assurance Program for Precast Concrete Products](#)" for additional information regarding minimum identification markings. For traffic barrier, refer to Design and Environment Highway Standard 704001.

B Central Bureau of Materials

Inspectors are reminded to visually inspect precast concrete products which arrive at the jobsite. Refer to Sections 23.0 and 24.0 in the current Bureau of Materials and Physical Research's Policy Memorandum, "[Quality Control/Quality Assurance Program for Precast Concrete Products](#)" for additional information on visually inspecting and repairing precast concrete products. Photographs of precast concrete products that are acceptable, unacceptable, and unacceptably repaired may be found by clicking [here](#). Regarding identification markings on a product, inspectors are reminded to verify the producer's mark to determine the actual manufacturer. Some precast concrete producers will acquire products from another manufacturer and resell it. Any questions on the acceptability of a product should be referred to the District Materials Engineer or Physical Test Engineer.

Products Key:

A. Structural Members

1. Bridge Slabs
2. Pile Caps
3. Other Structural Members
4. Piles and Extensions
5. Decorative Bridge Structural Elements
6. Three Sided Precast Concrete Structures

B. Box Culvert

1. Box Culvert Sections
2. Box Culvert End Sections

C. Pipe

1. Reinforced Concrete Culvert, Storm Drain, and Sewer Pipe
2. Reinforced Concrete Elliptical Culvert, Storm Drain, and Sewer Pipe
3. Reinforced Concrete Arch Culvert, Storm Drain, and Sewer Pipe
4. Concrete Sewer, Storm Drain, and Culvert Pipe
5. Reinforced Concrete Rectangular End Sections
6. Reinforced Concrete Flared End Sections
7. Reinforced Concrete Elliptical Flared End Sections

D. Drainage Structures

1. Inlet Boxes for Pipe Culverts and Medians
Types 24A-G, 36A, 48A, and Flush Inlet Box for Median
2. Headwall for Pipe Drain
3. Catch Basins Types A, B, C, D
4. Manhole Type A
5. Inlets Types A, B
6. Drainage Structures Types 1, 2, 3, 4, 5, 6
7. Valve Vault Type A
8. Bridge Approach Drains
9. *Reserved*
10. Other Inlets (Applies when there is no Design and Environment Highway Standard.)

E. Markers

1. Right of Way
2. Drainage
3. Permanent Survey
4. Section

F. Traffic Barrier

1. Temporary Concrete Barrier

G. Block/Brick

1. Erosion Control: Precast Block Revetment Mats
2. Erosion Control: Precast Articulated Block Revetment Mats
3. Concrete Brick
4. Concrete Masonry Units
5. Concrete Pavers
6. Segmental Concrete Block Walls

H. Walls

1. Facing Panels for Mechanically Stabilized Earth Systems
2. Noise Abatement Walls (Reflective Type)
3. Modular Retaining Walls
4. Non-smooth Facing Panels for Mechanically Stabilized Earth Systems

I. Miscellaneous

1. Bumper Blocks (Wheel Stops For Cars)
2. Picnic Tables, Trash Receptacles, Planters
3. Splash Blocks
4. Handholes

The Products Key does not include composite concrete handholes (Article 1088.05/Design and Environment Highway Standards 814001 and 814006), composite concrete gulfbox junction (Article 1088.07(b)), precast concrete railroad crossings, or precast prestressed concrete products. In addition, clay paving bricks (Article 1041.01), decorative pavers and some special purpose blocks are not included.

Contract Special Provision "Noise Abatement Wall"

Current Policy Memorandum "Quality Control / Quality Assurance Program for Precast Concrete Products"

Submittal for Evaluation and Approval

A. Scope

The following guidelines are provided to clarify the submittal requirements and expedite the process for supplying precast concrete products to Department projects.

B. Procedure

When requesting to be a certified precast concrete producer with the Department, a Quality Control Plan shall be submitted for evaluation and approval. The Department will also inspect the producer's plant/laboratory and obtain samples of component materials for testing. For further assistance on becoming a certified precast concrete producer, please contact the following [Materials Office](#) based on the location of your plant.

Out-of-State – Central Bureau of Materials, (217) 782-7202

C. Policy and Specifications

Details for application and approval are provided by Policy Memorandum, "[Quality Control/Quality Assurance Program for Precast Concrete Products](#)".

After reviewing the policy, the Precast Concrete Producer must determine if the precast item is covered under Attachment D and that its components are approved. Furthermore, the Precast Concrete Producer must verify that the Quality Control (QC) personnel have the appropriate training.

Details regarding the Department's current specifications and special provisions can be found by clicking [here](#).
