

# Commuting, In A Lane Of Its Own.

Starting November 14th, Pace is putting the “express” back in “expressway”. That’s when Pace Express routes 755 & 855 begin using the shoulder of I-55 to drive safely past congestion—keeping your commute moving along—all the way to work and back. To learn more about how Pace riders will be treated to an open road even during heavy traffic, call **847-364-PACE** or visit **PaceBus.com**.
