

Illinois Department of Transportation

2300 South Dirksen Parkway / Springfield, Illinois / 62764

January 16, 2013

CIRCULAR LETTER 2013-02

FY 2014 Allotments to the Counties:

- Surface Transportation Program Rural (STP-Rural),**
- State Matching Assistance (SMA)**
- Surface Transportation Program – Bridges (STP-Bridge)**

COUNTY ENGINEERS/SUPERINTENDENTS OF HIGHWAYS

There is no longer a dedicated Highway Bridge Program (formerly known as HBP) in MAP-21. Local bridge projects are now to be funded with Surface Transportation Program (STP) funds. However, the Illinois Department of Transportation set aside 15 percent of the local STP allotment for use specifically on bridges. The remaining STP funding is being distributed as before between STP-Rural (STR) and STP-Urban (STU).

The 15 percent amount of STP-Bridge funding will be distributed in the same manner as the old Highway Bridge Program based on the combined deficient square footage of county, township and municipal structures. Requests for local agencies to use STP-Bridge funds will be made through the County Engineer with the approval of the IDOT District. Municipalities with 15,000 or greater population will program STP-Bridge funds directly through the IDOT District, with the amount coming from the county allotment.

Attached is a list of the current STR allotments for the downstate 96 counties and the STP-Bridge allotments for all counties in the state. The total amount of FY 2014 STR funds allotted to the counties is \$44,705,663 with \$39,873,289 to be distributed among the counties in Districts 2 through 9. The total amount of FY 2014 STP-Bridge funds allotted to all counties is \$35,126,352.

The formula for distribution of the STR funds to the downstate counties is as follows:

1. Ten percent divided equally among the downstate counties, Districts 2-9.
2. Balance allocated to the downstate counties on the basis of the following three factors with equal weight being given to each factor:
 - a. non-urban area
 - b. non-urban population
 - c. non-urban mileage (total all systems)

CIRCULAR LETTER 2013-01

Page Two

January 16, 2013

This year's distribution reflects the 2010 census, including any updates received from the Secretary of State's office, and the 2010 Illinois Highway and Street Mileage Statistics non-urban mileage and non-urban area totals.

This year the formula for distribution of the \$4.0 million in state matching assistance is based on 68% federal funding and 32% local match. This match ratio is variable each year and is generated to result in utilization of the entire state matching assistance amount. A more detailed explanation of the state matching assistance program is also attached.

If you have any questions regarding this matter, please contact your district office.

Sincerely,

A handwritten signature in black ink that reads "James K. Klein". The signature is written in a cursive, flowing style.

James K. Klein, P.E., S.E.
Acting Engineer of Local Roads and Streets

STATE MATCHING ASSISTANCE (SMA)

The State Matching Assistance Program is designed to assist counties in matching federal funds when the county cannot derive sufficient matching funds from local taxation. Counties receive a Surface Transportation Program Rural (STR) allotment which may be used to fund up to 80% of eligible project costs. Counties are allowed to levy a Federal-aid matching tax to use for the local share. Although a 80/20 federal/local matching ratio is allowable for STR projects, a lower matching ratio is judged to be more equitable when determining the need for matching funds because the counties receive other Federal-aid funds in addition to STR funds that require a local match. Some counties do not have a sufficient tax base to generate the local funds needed for the match. The State Matching Assistance Program of \$4 million per year addresses this problem.

The county is required to levy a Federal-aid matching tax of at least .045% to be eligible for assistance. To receive the maximum amount it is required to have a tax rate of .05%. If the rate is .045%, the allocation is 90% of the maximum. If the rate is between .045% and .05%, the assistance is prorated. If the rate falls below .045%, the county may retain its eligibility for assistance if a permanent transfer of funds from a non-highway fund to the Federal-aid Matching Tax Fund is made to meet the equivalent of the minimum eligibility threshold.

The maximum assistance amount for each county is established as the difference between the amount required to match the county's STR allotment using a computer generated federal/local matching ratio and the funds generated by the county's Federal-aid matching tax. This matching ratio is variable each year and is generated to result in utilization of the entire State Matching Assistance amount.

The amount of funds received by each county will vary from year to year. The variable amount of STR funds available each year and the local Equalized Assessed Valuation (EAV) as provided by the Department of Revenue have a direct correlation on the amount of funds to be disbursed based on shortfall. As an example, when the STR allotment increases, the counties will have a greater need for additional match. Conversely, when the STR allotment decreases, the counties will not have a need to match as much federal funding and therefore will require less state matching assistance funds.

State matching funds may be used for any federal-aid project.

Commitment of Funds: If a county so desires, it may use its accumulated matching funds to defray any part or the entire non-federal portion of any local federal-aid project regardless of the Federal matching percentage. The State matching assistance may be committed as a lump-sum amount or as a percentage of the project cost not to exceed the current available State Match allotment for the county.

Anticipation: There can be no anticipation of State matching funds. In other words, no county can commit more State matching assistance funds to a project than it has available at the time of letting. However, existing agreements for active projects may be amended to increase the amount of State Matching Assistance when it becomes available.
