TRAFFIC INCIDENT MANAGEMENT TRAINING PROGRAM

Providing responders with best practices that improve their safety at incident scenes

ACKNOWLEDGEMENT

The development of this program was sponsored by IDOT, the Illinois Center for Transportation and the Illinois Tollway. This training would not have been possible without additional guidance from personnel at IDOT, the Illinois State Police, the Illinois Tollway Authority, the Illinois Fire Services Institute, the Federal Highway Administration, Professional Tow Recovery Operators of Illinois and several Fire and Rescue Departments.

KEEP YOUR SKILLS FRESH

Practice traffic incident management using our online video game at http://cetrans.isg.siu.edu/HIMT_Test/Main.html

START ON-LINE

The Illinois Department of Transportation (IDOT), through the Illinois Center for Transportation and Southern Illinois University Edwardsville, has established a Traffic Incident Management Training Program. This Program includes an on-line course and a multi-agency in-class session.

The online training includes 11 modules, each lasting between 15 and 30 minutes, to allow responders to view

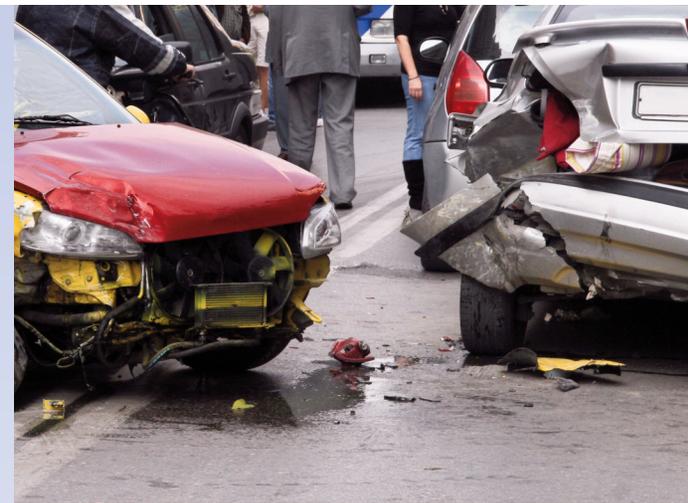

a whole module in one sitting. Each module is narrated by an expert in the field, including a wide variety of perspectives.

FINISH IN-PERSON

This half-day course includes participants from all disciplines involved in incident management and is the first multi-disciplinary class of its kind in Illinois. The goal is to provide responders with information and best practices that improve their safety at traffic incident scenes.

This course is equivalent to the National Traffic Incident Management Responder Training offered by the Federal Highway Administration, but is focused towards the laws and responders in Illinois.
