## Agency: AMBOY POLICE

- **Comments**

What is not reflected in either the report or the population estimates is the way that our population changes during the summer months. Do to the large number of camping facilities we have within a five mile area of the city, our population and changes dramaticlly during the period between Memorial day and Labor day. The report is deceiving when the changes to our population are not taken into account.

**Agency: BROWNSTOWN POLICE****▪ Comments**

First of all the racial profiling current form does not match up with the form on the computer. This makes it hard to know if you have everything filled correctly.

Village of Brownstown is a small Village of 705 population,so therefore our Village does not have alot of racial differences.

This racial profiling study is very difficult to maintain on the side of the road when the police officer stops someone for a violation due to the dispatcher being in a different town. The officer has to go to the Fayette County Sheriff's office to retrieve copies of the person's profile. This is also a hazardous, unsafe practice for the officer to stay along the road when he has someone stopped

## **Agency: BURR RIDGE POLICE**

- **Comments**

After a review of the 2006 Illinois Traffic Study for our village we found two items that were incorrectly reported.

1. Our Estimated Minority Driving Population should be 32.88%
2. Our Benchmark ratio for 2006 is 1.44

**Agency: CAHOKIA POLICE****▪ Comments**

Our estimated minority driving population exceeds 70%. Our community is the shopping area for East St. Louis, Centreville and Alorton which are communities which are over 90% minority. Our high school is 88% minority. Our community is now at least 50% minority. Since our community is aging after 7pm our minority driving population exceeds 80%.

Richard Watson  
Chief of Police  
Village of Cahokia

## Agency: CARBONDALE POLICE

- **Comments**

The City of Carbondale emphasized traffic enforcement during 2006, which is evident in the increased traffic stop numbers from 2005. The goal of the increased enforcement was to reduce the speed of traffic on major roadways and reduce the number of intersection related traffic crashes.

The designated "Estimated Minority Driving Population" percentage is difficult to accurately determine for the City of Carbondale. Carbondale is a destination community with significant commuter traffic traveling to employment at Southern Illinois University Carbondale, shopping centers and regional health care facilities. This significant increase in daily commuter traffic in the City of Carbondale is not reflected in the designated "Estimated Minority Driving Population" percentage. The actual percentage may, in fact, greatly vary from the designated percentage. The transient nature of the Carbondale community certainly questions the validity of the estimate and must be considered when comparing percentages with neighboring communities. A large transient population increases the potential for increased traffic enforcement based on offenses committed, not race.

Specifically, members of the City of Carbondale Police Department support the Racial Profiling Traffic Stop Study and do not engage in any activities that are discriminatory or indicative of any practice of racial profiling or bias-based law enforcement.

## Agency: CHICAGO POLICE

### ▪ Comments

The Chicago Police Department welcomes the opportunity to comment on the results of the Traffic Stop Statistical Study (TSSS), an outcome of Public Act 93-0209, managed by the Illinois Department of Transportation (IDOT).

We acknowledge the efforts of the Northwestern University Center for Public Safety (NUCPS) and in particular Dr. Alex Weiss and his staff for providing departments across the state with their analysis. Their analytical model has provided an objective focus for the Chicago Police Department (CPD) in tracking traffic stops.

However, the Chicago Police Department has questions regarding the calculations involved in search data. According to the data listed for the Department, vehicles driven by minorities are more likely to result in a search of their car, with 23.9 percent of stops resulting in a vehicle search compared to only 5.9% of vehicles driven by Caucasians. However, vehicles driven by minority drivers were just as likely as those driven by Caucasians to be searched following consent (40.8% and 40.4%, respectively) or for some other reason (59.2% and 59.7%, respectively). The current analysis conducted by Northwestern University is misleading because it divides the number of searches conducted by consent by the total number of traffic stops made regardless as to whether the stop resulted in a vehicle search. The resulting percentage suggests that consent is being requested more often of minority drivers when a stop is made. However, our analysis indicates that while minorities are being searched more often, those searches are being conducted in a manner similar to Caucasians. We look forward to discussing our concerns with the research analysts.

The Chicago Police Department understands that its success is based on reducing crime and strengthening partnership and building trust in all of Chicago's communities. Therefore upon release of the 2004 report, the Chicago Police Department's CAPS Project Office organized and hosted a series of Community Traffic Stop Education Forums. Our community outreach continued in 2006. In 2006, ten Community Forums were conducted in both Spanish and English throughout the city, including one at the Mexican Consulate. Each forum was approximately two hours in duration and included a Use of Force segment. Additionally, a Traffic Stop DVD was created by this office to reflect what is presented in the forums.

In order to illicit feedback from these groups, the CAPS Project Office requested the Research and Development Division of CPD to complete an overall survey of these forums. The results showed while some participants of the Community Forum were not active supporters of the Chicago Police Department prior to the Community Forums, nearly every participant reported the Community Forums were "Very Beneficial" or "Beneficial" and that the information at the Community Forums was clearly presented. This suggests that the CAPS office was able to effectively provide information to the community regarding traffic stops.

As part of our outreach to youth, the CAPS Implementation Office conducted Traffic Stop Training in ten separate high schools during 2006. This group also distributed a "CAPS TIPS", information sheet at beat meetings. This handout entitled "Ensuring your Safety During a Vehicle Stop" outlined the expectations of both the officer and citizen during a traffic stop.

The relationship between the Traffic Stop Statistical Study and the installation of In-Car Cameras into a selected number of Department vehicles cannot be ignored. Currently the In-Car Cameras are installed in the Department's 005th and 016th Districts and in the Traffic Enforcement Unit. We also look forward to the placement of cameras into the rest of the Department's 280 Beat cars which are deployed city wide, around-the-clock.

The 005th District patrols an extended area of the City's far south side and the 016th District is one of the Department's largest Districts and also incorporates Chicago's O'Hare Airport. Our Traffic enforcement vehicles patrol Lake Shore Drive and The Skyway. We have trained over 500 officers on the In-Car Camera and as a result TSSS is included in the related directive and has benefited from the reiteration. In addition, the subsequent review of the video by Department Supervisors has created an opportunity for on-going officer safety training as well as identification of TSSS compliance.

Currently as the audio and video activation of the cameras can only be done for an Illinois Vehicle Code (IVC) traffic stop because of the stringent eavesdropping laws in Illinois. This allows the Department to have a record of all the traffic stops made by trained Department In-Car Camera operators to be captured.

The Chicago Police Department is committed to participating in the TSSS. To enhance our compliance, the TSSS card was revised in 2007 and a new dataset was created. These efforts are both labor intensive and costly (\$20,048.25 for us to print 400,000 of the new stickers, \$25,000 to develop dataset), but these efforts continue to demonstrate our commitment to participate fully.

The Chicago Police Department believes the data shows a department that engages in aggressive crime fighting strategies without employing biased based policing. The success in reducing crime is based on crime data and not race data. It is the policy of the Department that any type of racial profiling will not be tolerated. Racial profiling is not a legitimate law enforcement tactic.

The Chicago Police Department understands that its success is based on reducing crime and strengthening partnership and building trust in all of Chicago's communities.

Thank you for the opportunity to comment.

The Chicago Police Department appreciates the opportunity this study provides in continued learning and improving our level of service to the citizens of the City of Chicago.

## Agency: CHICAGO RIDGE POLICE

- **Comments**

As is the case in some other communities, Chicago Ridge has other factors that would lead to a skewed outcome in regards to the Racial Profiling Study. First, we have a large mall and secondary shopping center that bring in customers from surrounding communities. The minority population at the mall is greater than the 11.56% minority estimated driving population. Secondly, I-294 is accessible by driving down 95th street in Chicago Ridge. Many commuters from various towns travel these roads daily. Third, I seriously doubt our census information. Chicago Ridge is approximately 70% multi-family, the highest percentage in all of Cook County. We have a much higher Hispanic population than is reported. Finally, If you notice the percentage of drivers cited, Caucasian and Minority drivers ticketed are almost identical. In fact, there is a higher percentage of Caucasian drivers consenting to searches than Minority drivers.

**Agency: DARIEN POLICE****▪ Comments**

The data analyzed fails to account for the racial diversity of the motoring public. Comparing roadway violations to residents is inaccurate. The data collected on stops should be compared to the racial makeup of the motoring public ON THE ROADWAYS, not in their homes.

## Agency: FARMINGTON POLICE

- **Comments**

I feel these figures are in line with the percentages of minorities and caucasian living and traveling through Farmington. If not somewhat lower.  
I do not see any alarming trends from these figures. I would need supplimental data as mentioned by the Illinois Police Chief's Association in order to make a fair comparison.  
Chief Jim Arrington

**Agency: GRANDVIEW POLICE**▪ **Comments**

I believe the estimated minority driving population is very low for the area that we are in. We are on the Northeast side of Springfield and have a large amount of minorities driving through the area.

I also believe that the survey does not take into consideration the makeup of our department. As recently as last year I had 5 officers. Three were black of which one was a female. I had 2 female officers and I myself am of Hispanic origin. The survey does not indicate that the majority of our stops are being conducted by minorities themselves.

Chief Michael A. Feleccia

**Agency: HAMILTON POLICE**▪ **Comments**

We are a small town, but have two major highways, IL 96 and US 136 that go through town. We are across the river and adjacent to Keokuk, Iowa a population of around 10,000. As a result we have a mobile population going through our town that is not completely accurate regarding the demographics of our city alone.

I find the need to do the racial profile an undue burden on Law Enforcement. If we are suppose to be blind to race, then why do we need to document and detail race information?

A review of the information to me indicates that we are fair in our enforcement and I would not think there is any indication of racial bias, as all of the stops that involved a racial person resulted from a moving violation. I would suspect the time of day would also support the inability to profile the stops based upon race due to the inability to make accurate identification due to darkness, or tint of windows.

Walter Sellens  
Chief of Police

## Agency: ILLINOIS STATE POLICE

- **Comments**

The Illinois State Police is proud to report that during 2006 traffic fatalities in Illinois were at the lowest number in over 60 years. Traffic stops by troopers in Illinois were up in 2006 and played a significant role in this major fatality reduction effort.

As contained in this report traffic stops by Illinois state troopers on minority drivers, as in previous years, are below the projected percentage of the minority driving population as determined by Northwestern University. Of course, raw data alone cannot fully determine the existence of bias in policing. The Illinois State Police is closely reviewing this data as part of our ongoing effort of professional policing. The Illinois State Police does not promote, condone, or tolerate bias-based policing.

## Agency: KENDALL COUNTY SHERIFF

### ▪ Comments

The Northwestern study reports Kendall County's estimated minority driving population at 8.67%. In May of 2005, the U.S. Census Bureau ranked Kendall County as the second fastest (per capita) growing county in the nation. With the unprecedented growth in Kendall County, it is only reasonable to assume that the numbers presented by Northwestern do not reflect the most current and accurate make up of the Kendall County population.

In an attempt to present a more current view of the racial make up of Kendall County, the Sheriff's Office studied the race break down of student populations reported by Kendall County schools and school districts. The data reviewed was for the 2006 school year. Only school districts where the vast majority of students actually live in Kendall County were included in the study. For example, although Plainfield South High School is located entirely within Kendall County, it was not included in the population averages because very few of the students attending live in Kendall County.

Total enrollment reported by Kendall County schools in 2006 was 18,011 students. 5,272 of those 18,011 students were reported as non-white, and were identified variously as Black, Hispanic, Asian/Pacific Islander or Native American. This information was gathered through the Illinois State School District reporting system (<http://iirc.niu.edu/default.aspx?tsource=home>) It represents a self reporting minority student population making up approximately 29.27% of total student enrollment. While this number cannot be definitively linked to minority driving population, it does support the argument that said population is likely higher than the estimate provided by Northwestern in this study.

The Kendall County Sheriff's Office does not claim that the minority driving population of Kendall County is 29.27%. It is very likely, however, that it does fall in the 18-20% range. Assuming a 18% minority driving population, there is still a large discrepancy between that number and the 26.79% minority stops reported by the Sheriff's Office. In an attempt to understand the basis of this discrepancy, Sheriff's Office in 2005 requested the Illinois Department of Transportation to provide them a breakdown of reported stops based on the ZIP code of the driver.

After receiving this data, it was discovered that approximately 54% of all reported stops were made on drivers who claimed to live outside of Kendall County. Further study of stops by ZIP code showed that stops on minority drivers were closely in line with Northwestern's Estimated Minority Driving Population for the drivers' city of residence. For example: the City of Aurora has an Estimated Minority Driving Population of 43.49%. Kendall County Sheriff's Office stops of minority drivers reporting to live in Aurora (by virtue of their ZIP code) was 45.2% according to IDOT figures. Similarly, 23.8% of stops made by Sheriff's Deputies on residents of the City of Joliet were minority drivers. Northwestern reports Joliet's Estimated Minority Driving Population at 34.99%. In contrast, only 14.4% of stops on Kendall County residents were represented as minority stops.

The point that must be made is: Although a study such as this is important to ensure basic fairness and equity to all citizens by law enforcement, benchmarks such as the Estimated Minority Driving Population cannot be arrived at without serious consideration of additional factors. The racial make up of the population surrounding the reporting agency must be assessed, as well the fact that each jurisdiction experiences daily transitory populations resulting from the movement of non-residents in and out of the city or county. These factors have a significant impact on each jurisdictions true minority driving population.

## Agency: LANSING POLICE

- **Comments**

Northwestern University Center for Public Safety did a study in 2003 to determine the minority driving population within the Village of Lansing. At that time, using 6th District Court data, it was determined that 47.01% of the driving population in Lansing was minority. While this estimated information may have been close to correct at that time, surely no one can believe that the minority driving population in the 6th District has remained unchanged in almost four years. Personal observation has shown that the number of minority drivers travelling the roadways of Lansing has increased significantly during the last four years. I request that Northwestern University update this 47.01% number using whatever method they desire. A number reflecting over 55% minority drivers would be much more accurate. How long will this 47.01% number be used? We hope that Northwestern is not planning to use this number until 2010 census data become available in 2011.

**Agency: LASALLE POLICE****▪ Comments**

The 2000 census does not accurately reflect our population. Due to our proximity to Chicago, we have a large minority transient and illegal alien population. The census does not take this into account. Also, our current minority population has greatly increased since the 2000 census.

## Agency: LENA POLICE

- **Comments**

I believe this to be a good program but there are problems in the data asked for. Why do you need an address of the violator? This is time consuming and a waste of space. You never ask the race of the officer, Why? Shouldn't that be included. The biggest thing missing is the area in which the officer works; is population of the patrol area a predominant race, mixed or percentage. I think that would be the most telling statistic. I think you should also be able to enter the exact violation code and sometimes there are multiple violations used for probable cause for the stop.

## Agency: LITCHFIELD POLICE

- **Comments**

The study results appear to be accurate. The study effectively shows we have very few minority subjects involved in our daily operations. The overall minority population in our area is low, as our percentages reflect.

It appears we are targeting violations, as it should be.

BJ Wilkinson, Chief  
Litchfield PD

## Agency: LOMBARD POLICE

- **Comments**

The Lombard Police Department has undertaken a study to try and more accurately determine the driving population in the community. The study involved recording the race of all drivers involved in accidents during the year, as accidents are random in nature. By recording the data, it was learned that the minority driving population for Lombard ranged from approximately 16.8-21.72% for 2006. The range reflects the fact that the race of some drivers is unknown as they left the scene. Accident data for the last three years indicates a minority driving population range of 16.8-25.41%.

## Agency: MATTESON POLICE

- **Comments**

In 2005 the Village of Matteson conducted a special census to capture the considerable amount of new residents who had moved into the Village after the 2000 census. The 2005 census showed an increase in population of 3,651; 165 of which were caucasian and 3,486 were minorities.

The 2006 racial profiling analysis utilizes the 2000 census data which does not account for the 3,651 new residents. Based upon the 2005 census data, the Village of Matteson has a minority population of 12,184 (73.5%) and a caucasian population of 4,395 (26.5%). Although I do not have the 2005 data that identifies the minority driving population, I suspect that the 2000 percentage of 64.18 is far below the actual number and needs to be changed to reflect the present racial make-up of the Village.

Norman Burnson  
Acting Chief of Police  
Matteson Police Department  
708 748-4085

## **Agency: MCDONOUGH COUNTY SHERIFF**

- **Comments**

To whom it may Concern,

I have concerns about the amount of time it takes to submit the information you request. While I am sure you have good motives, I believe my manpower could be put to better use. I am looking forward to this ending.

Sheriff Rick VanBrooker

The "Estimated Minority Driving Population" for the City of Mendota is listed as 15.58%. This isn't even close. We have a true hispanic population of about 45%

**Agency: METAMORA POLICE**▪ **Comments**

I have no idea where you get the minority traffic through my village at being only 1.26%. We are a major thoroughfare between Chicago and Peoria, not to mention we also have 2 large industry employers in the village. I feel some one needs to look into these 2 areas, and do some readjusting in our numbers. Thank - You.

Michael D. Todd  
Chief Of Police

**Agency: MOKENA POLICE****▪ Comments**

There are 3 written warning tickets listed in the Illinois Traffic Stop Study 2006. Mokena Police Dept. does not issued written warning tickets and was entered in error. Would you please change this and add the three (3) written warnings to the Verbal Warnings. Thank you. Should you have any questions please do not hesitate to contact me. Sharen Fabiszak, Administration, 10907 Front Street, Mokena, Illinois 60448. 708-479-3912.

**Agency: NEW ATHENS POLICE****▪ Comments**

Again, the numbers were are submitting dont seem to match up. Out total number of stops has been higher than what is being shown for this year (just as last year.) But the date is still close to what we have as in percentages. \*\* Chief Larry Kirk \*\*

## Agency: NILES POLICE

- **Comments**

There was a software problem that did not transmit the Consent Search Data. The corrected Consent Search Report should read as follows. Total consent searches were 17. Of the 17 searches, 9 were Caucasian and 8 were Minority. Of the 8 Minority, 2 were Asian and 6 were Hispanic. The software problem has been corrected and the data should be received for the 2007 Racial Profiling Study.

## **Agency: NORMAL POLICE**

- **Comments**

Study does not accurately account for driving demographics. Using population breakdowns as a benchmark results in flawed results.

## Agency: **NORTHBROOK POLICE**

- **Comments**

The Northbrook Police Department has reviewed its traffic stop data and offers the following comments.

The Department is pleased that the Traffic Stop Study for 2006 shows that the Department's ratio for traffic stops of minority drivers is just slightly below the expected ratio assigned to it by the Illinois Department of Transportation (IDOT). The Department is also pleased that its percentages for citations and written warnings for Caucasian and Minority motorists are very similar.

Since implementing its program, the Department has consistently and carefully monitored its stop and search data, which is timely produced to IDOT on a quarterly basis. By producing the information on a consistent basis, the Department is able to analyze it at regular intervals and compare it to previously collected and produced information.

The Department believes that the data for 2006 again shows the vigilance of its officers and command staff to be aware of and prevent unequal law enforcement. As it has done to date, the Department will continue to closely monitor the traffic stop data

## Agency: NORTHFIELD POLICE

- **Comments**

Northfield's data shows that minority drivers in Northfield are not being stopped in numbers disproportionate to their use of our roadways. The data also shows that minority drivers are not being issued citations or searched in numbers disproportionate to their use of our roadways. This is consistent with our record of having received no racial profiling complaints against any individual officers or the Department in 2006.

After two years of compliance with the Illinois Traffic stop data collection law, we have learned that interpretation of the data is far more complex than its collection. Profiling has not been observed in our department, and we are committed to assuring that it never happens in the future. This is accomplished through training, monitoring, police review, and a strong commitment by the Northfield Police Department administration that racial profiling will not be tolerated.

## Agency: PATOKA POLICE

- **Comments**

The racial profiling study in southern illinois smaller police and sheriffs departments have little findings, were the study should concentrate on larger departments and interstate traffic.

thank you.

## Agency: QUINCY POLICE

- **Comments**

The data collected by our department does not match with the data shown. We had many more stops than what is shown on the report.

Our information is as follows:

### Number and Percentage of All Stops by Race

Caucasian	6735	90.37%
African-American	628	8.43%
Hispanic	40	.54%
Asian-Island Pacific	47	.63%
Native American	3	.04%
<b>Total</b>	<b>7453</b>	<b>100.00%</b>

### Number of Stops per Violation

	Caucasian	African-American	Hispanic	Asian-Island Pacific
Moving Violation	4382	366	21	35
Equipment Violation	1700	191	11	9
License Violation	653	71	8	3
<b>Total</b>	<b>6735</b>	<b>628</b>	<b>40</b>	<b>47</b>

### Disposition of Stops

	Caucasian	African-American	Hispanic	Asian-Island Pacific
Citation	2922	23	20	0
Warning Ticket	3757	369	17	27
Verbal Warning	56	3	0	0
<b>Total</b>	<b>6735</b>	<b>628</b>	<b>40</b>	<b>47</b>

I believe the department's information is more accurate than what is shown by Northwestern.

Susan Vahlkamp, Records Supervisor

## **Agency: RANTOUL POLICE**

- **Comments**

We believe the minority driving population of Rantoul is greater than 19.71% and would welcome any efforts to research the demographics of our rather unique community, which has a mobility rate of 28.8% and a rental rate of over 49%.

**Agency: RICHTON PARK POLICE****▪ Comments**

The estimated minority driving population utilized for this study is lower than the majority of the populations in three of the 5 towns in the immediate area. Furthermore, I have seen no evidence than any study was conducted by NU to determine the actual driving population. This is vital because of the I-57 interchange.

**Agency: ROCKFORD POLICE**▪ **Comments**

Thursday May 10, 2007

This is the Rockford Police Department's response to the 2006 Racial Profiling Study:

The department does not issue written warnings. This information is reflected in the "Outcome of Stop" area. The department only issues verbal warnings or citations. The report accurately reflects the only two possible outcomes for a traffic stop.

All information on the report is an accurate representation of the 2006 driver stops.

Kim Binder  
Crime Analyst  
Rockford Police Department  
(815)967.6905

## Agency: ROCKTON POLICE

- **Comments**

We believe that the estimated minority driving population used is low based on the minority population of Rock County, WI (six miles north) and the minority population of Winnebago County, IL. Rockton is situated between these communities and is served by a four-lane highway (IL. route 2) that has direct access between Beloit, WI and Rockford, IL. IL. route 75 is another major route through Rockton that brings minority driving population from Iowa and Milwaukee, WI through town. Rockton lies within access of Interstate 90-39 with an off-ramp leading directly through town and connecting with IL 2 and IL 75.

Based on our calculations we believe the minority driving population is closer to 19% than the 16.3% used in the survey. Less than 1% of minority drivers stopped are residents of Rockton.

**Agency: SHERRARD POLICE****▪ Comments**

I believe that the study also needs to include the age ranges in which people are being stopped. It would have a better impact on the case study for information, awareness and this study it self.

I can only speak for my community (rural farm) and my department on this, but I know we have a lot of teens, elderly and pick up trucks in our area. Teens are by far the biggest problem with the information, in which the teens need to be aware of the issues on hand concerning them and their driving habits.

As a whole, the Stop Study is a good thing for the information given, which is only as good as the information recieved.

## Agency: SOUTH HOLLAND POLICE

### ▪ Comments

While IDOT has raised its estimation of the minority (Black, Hispanic, Asian and other non-whites) driving population in the Village of South Holland from 50.67% in 2004 to 69.12% in 2005, the formula used, again, relied upon outdated 2000 Census data, therefore; IDOT's estimate of the minority driving population remains significantly flawed.

A far more accurate estimate of the minority driving population in South Holland is at least 80% not 69.12%. This estimate is based on, among other factors, the actual counts that have been conducted on customers patronizing South Holland businesses and the racial make-up of communities that either border South Holland or are in close proximity to South Holland along major feeder routes.

The Village of South Holland is located just 2 miles from the Chicago City limits. The Village has 4 major County and/or State routes running through it, and has an interchange with the Bishop Ford Freeway on the north and I80-294 on the south.

If we use the 2000 census information of those communities (Calumet City, Harvey, Markham, Dixmoor, Lansing, Dolton, Riverdale, Thornton, Phoenix, Calumet Park, East Hazel Crest and neighboring south Chicago Districts) that border South Holland or are in close proximity to South Holland along major feeder routes, their estimated minority driving population is approximately 80%.

It is important to note that the Village of South Holland is a major regional draw in the Chicago Southland region. The Village has the largest industrial park in the Chicago Southland, which employs a significant number of people from the region. This Industrial Park is home to major companies such as Ed Miniat Co., Carl Buddig, Hershey Creamery, Con Agra and Accurate Dispersions.

In addition, South Suburban College and the 6 private schools attract students from all of the surrounding communities. Known as the "Community of Churches", South Holland has 28 churches that also bring in parishioners from the local region.

The profound economic vitality of the Village of South Holland appeals to many residents from other communities. They travel into the Village for employment and to patronize businesses, such as, banks and financial institutions, car dealerships, restaurant chains and national grocery store chains that are unavailable to them in their communities.

Based upon the above information, we believe that IDOT's estimate of the minority driving population in the Village of South Holland is flawed, and a more accurate estimate would show that the data is proportionate to the traffic stops made.

▪ **Comments**

The SIUC Department of Public Safety supports efforts to identify and eliminate biased-based policing. Individual and department data is shared periodically with all commissioned officers in an effort to keep them informed about individual and department data, legislative amendments, and the importance of enforcement decisions that are behavior based.

## Agency: SOUTHERN VIEW POLICE

### ▪ Comments

May 11, 2007  
Sergeant Ralli Mottar  
Southern View Police Department

To Whom It May Concern:

I cannot comment on the entire year or any specific data in the database. My comments and questions are in general. Please feel free to contact me at 766@hushmail.com or via my department phone, 217-529-0255.

After being away from law enforcement for several years, I returned in October 2006. This is the reason I cannot comment on the specific data.

My first question is about the use of the data.

How will this data be used? I see in the database, which I viewed for Southern View, it states 18.79% of our stops are minorities. You have used an estimated minority driving population of 10.48%. Where does this estimate come from? Southern View? Sangamon County? Springfield? Illinois? Nationwide?

This gives the perception that we are stopping almost twice the minority population in Southern View. A dangerous estimate depending on how this will be used against or for any particular cause.

The data which is gathered does not take into consideration multiple citations/warnings written on the same stop. If we try to enter multiples, the database tells us it already has a stop for that person and time. How is this data to be considered accurate?

What consideration is given to areas of small villages which have a large percentage or small percentage of minorities?

What consideration is given to areas which have much higher or much lower crime rates?

How is the data used when a traffic stop leads to an arrest and the time on the stop is extended?

How are audits done to have any sense of check and balance for accurate reporting?

My next question is about the input screen.

One concern is about the entry of multiple citations. The form does not have any place to indicate how many citations were written in the amount of time given. If I write 3 citations and it takes me 30 minutes, the form only tells you that I was on that particular stop for 30 minutes. If my average is 10 minutes per stop, then this will seem like a particularly long stop. If this data is used without supporting information, then it may not be accurate based on the only factor of time and not circumstances.

The next challenge I see is with the names input. How can they be input accurately when the database does not distinguish between the first, middle, and last name? How do you have consistency when John A Smith could be entered, John A. Smith, Smith, John A, or John Smith? If the purpose is to document specific people on a stop, then we need to use specific identifiers

such as driver license or social security numbers. How does this data get verified?

The last input screen sections I would like to address are the Reason for Stop, Moving Violation, and Result of Stop areas. These areas are excessively broad. On traffic stops, we deal in specific violation of the Illinois Vehicle Code. If only three selections are going to be provided, please provide a list of which Illinois Vehicle Codes fall under each category. Without this, it only supports the questions about the accuracy of the data. Each department may be entering information under different selections provided. A good example would be a stop which has an additional offense of No Insurance. Not only can we not input additional citations, but we are unsure of which category other agencies are listing it under. We strive to be uniform and provide accurate information.

Thank you for providing this opportunity for feedback. I look forward to helping you in any way possible. Please feel free to contact me.

Sergeant Ralli Mottar  
Southern View Police Department

**Agency: THORNTON POLICE****▪ Comments**

The estimated Minority Driving population figure of 47.1% is extremely low. This is the same number that has been used since the start of the study. My estimated driving population is between 70 and 80%. Please increase this number of advise us how you would like us to determine the actual driving population.

**Agency: WINNEBAGO POLICE****▪ Comments**

According to current traffic volumes posted on IDOT'S Website entitled, Traveling Public/Getting Around Illinois - Travel Statistics, "Average Daily Traffic Counts" it is reflected that there are more than 15,000 vehicles that travel through the intersection of U.S. Route 20 (also referred to as West State Road), and Winnebago Road (commonly referred to as North Elida Road), on a daily basis. There are two gas stations with convenience stores, a strip mall, and several fast-food restaurants located just south of this intersection, which is commonly referred to as "Winnebago Corners." Winnebago Corners is within the jurisdiction of the Winnebago Police Department.
