

INTERACTIVE 3D PDF INSTRUCTIONS (v9/26/25)

Downloading & Enabling 3D Model Content in Adobe

1. From the IDOT CADD page, right-click on the model link and select “download” or “Save link as” to download the model to your computer
2. Open the 3D PDF from your computer using Adobe.
3. Go to “Edit” > “Preferences;” go to the “Multimedia & 3D” Category.
4. Toggle on “Enable playing of Multimedia and 3D content.”

5. If/when prompted with a “Multimedia and 3D content has been disabled” banner
 - a. On the banner, click “Options”
 - b. Select your preferred trust setting.

6. Close/re-open the file (you may need to left-click in the white-space of the model to view/activate the model).

Navigating Interactive 3D Models from IDOT

[General Adobe Help Link](#)

[Interacting with 3D models](#)
