

Procurement of professional architectural, engineering, and planning services for airport improvement program grant projects is covered by state and federal law (49 USC § 47107(a) (17) and 49 CFR § 18.36, as amended). Sponsors intending to utilize state and/or federal funds to pay for professional services are required to conduct a Qualifications-Based Selection (QBS) process when selecting an Architectural/Engineering (A/E) or planning consulting firm. FAA guidance (150/5100-14E and 5100.38D) allows for Sponsors to procure professional services to complete multiple, phased grant projects through a single consultant selection process. These firms may be retained for up to 5 years for their services.

The following Airport Owner/Sponsor is seeking interested firms to provide professional architectural, engineering and/or planning services for the development of the air navigation facility known as:

Airport Name		Owner/Sponsor (Airport Authority/Municipality/County/Park/Port Dist)
