

FY2024 SPRING

T2 TRAINING PROGRAM

Illinois Technology Transfer Center Training Program

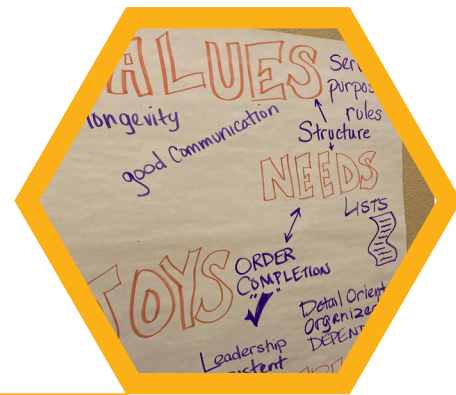

The Technology Transfer (T2) Program is a nationwide effort financed jointly by the Federal Highway Administration and individual state departments of transportation. Its purpose is to transfer the latest state-of-the-art technology in the areas of roads and bridges by translating the technology into terms understood by local and state highway or transportation personnel.

After reading about our training classes, please complete the online [enrollment form](#). Review our enrollment policy, as we have limited seating in some of our classes and in most cases, our seating is open to local agency personnel on a first-come, first-served basis. If you are not able to attend a class, please contact us as soon as possible so we may offer the spot to those on our waiting list. Notifying us in advance of substitution of students is also appreciated.

If you have any additional questions regarding our training program, please contact us.

Illinois Technology Transfer Center
Illinois Department of Transportation
2300 S. Dirksen Parkway, Room 208
Springfield, IL 62764

For more information,
please visit the [T2 website](#).

Meet the T2 Team

Tim Peters

*Local Policy & Technology Engineer
Bureau of Local Roads and Streets
Illinois Department of Transportation*

**2300 S. Dirksen Parkway, Room 208
Springfield, IL 62764**

Office: 217-785-5048
Mobile: 217-836-5600
Email: Tim.Peters@illinois.gov

Barry Kent

*Technology Transfer Program Manager
Bureau of Local Roads and Streets
Illinois Department of Transportation*

**2300 S. Dirksen Parkway, Room 208
Springfield, IL 62764**

Office: 217-785-2350
Mobile: 217-720-2300
Email: Barry.Kent@illinois.gov

Stephanie A. Stoverink

*Technology Transfer Center
Training Development Technician
Bureau of Local Roads and Streets
Illinois Department of Transportation*

**2300 S. Dirksen Parkway, Room 207
Springfield, IL 62764**

Office: 217-557-1910
Mobile: 217-720-2428
Email: Stephanie.A.Stoverink@illinois.gov

Barry Lamb

*Training and Graphics Specialist
Bureau of Local Roads and Streets
Illinois Department of Transportation*

**2300 S. Dirksen Parkway, Room 205
Springfield, IL 62764**

Office: 217-785-8747
Email: Barry.Lamb@illinois.gov

Lisa Godfrey

*Training and Graphics Specialist
Bureau of Local Roads and Streets
Illinois Department of Transportation*

**2300 S. Dirksen Parkway, Room 207
Springfield, IL 62764**

Office: 217-557-1399
Email: Lisa.Godfrey@illinois.gov

Online Enrollment

Please register online for all courses [here](#).

The courses listed on the following pages constitute the Technology Transfer Training Program and are scheduled to be presented on the dates and locations indicated. These classes are all tuition-free, unless otherwise noted. Travel, meals and lodging expenses are always the responsibility of the student.

ENROLLMENT

We invite your agency to enroll students in the classes you desire by completing our online [enrollment form](#).

It is important that you enroll early. Some classes fill up quickly, and we may not be able to schedule additional classes. In cases of excess enrollment, some attendance restrictions will be imposed. In cases of insufficient enrollment, classes may be cancelled. Enrollment in a class will be handled in accordance.

The contact person listed on the online enrollment form will receive an email approximately 24-48 hours prior to the class confirming their registration and providing the classroom/location information. If the class fills up, the applicant will be notified by email that they have been placed on a waiting list and will be contacted if there are cancellations.

CANCELLATION POLICY

If a student is unable to attend, it is the agency's responsibility to cancel at least 24 hours prior to the class. Frequent no shows may result in your agency receiving lower priority in future enrollments.

CONSULTANT POLICY

Enrollment for consultants will be allowed in all Technology Transfer training classes except for local agency only classes. Due to the popularity of our classes, we must limit each consulting firm to a maximum of four attendees per class.

CERTIFICATES

A certificate of completion will be awarded to students who successfully complete the final examination for the class. In classes where final exams are not given, a certificate of attendance will be awarded. The majority of T2 classes meet the requirements for Professional Development Hours. The number of PDHs given per class can be found with the course description; however, it is the student's responsibility to ensure that the course meets the continuing education requirements of their license.

For questions, please email Barry Kent at Technology Transfer Program Manager Barry.Kent@illinois.gov or call 217-785-2350 or 217-720-2300.

- If you are interested in hosting a training session or are interested in a specific session that is not currently being offered in your area, please email your request to any Technology Transfer Center staff member.
- Please continue to check your email for Technology Transfer Center announcements of additional classes being held during the fall training session.
- Please direct Flagger/Real Colors class requests and all questions about either training program to the T2 training development technician, Stephanie Stoverink, at Stephanie.A.Stoverink@illinois.gov or call 217-557-1910.

FLAGGER TRAINING CHANGES

IDOT recommends retraining flaggers every three years. Flaggers who have not met this requirement should participate in this training or use the online version of Flagger Safety training.

Flagger training sessions are scheduled regionally throughout the state. Additional trainings may be added and are announced monthly from the T2 email subscription service. Our capacity to add classes is limited, so if your agency has a training room with computer/projector access and will seat at least 50 participants and is open to employees from other agencies, please email Stephanie Stoverink or Barry Kent to be considered for a class onsite at your location.

The U.S. Department of Labor and the Illinois Department of Labor have not specifically defined flagging as a hazardous job. However, the Illinois Department of Transportation recognizes that certain hazards and risks come with the job. Therefore, registration for and participation in flagger training classes and activities are limited to participants aged 18 and up.

Flagger Training

This class provides training to local agency personnel for day labor and maintenance activities. It meets requirements established by the Manual on Uniform Traffic Control Devices and the Occupational Safety and Health Administration. Prerequisites: It is available to local agency highway personnel with a valid driver's license or an Illinois identification card from the Secretary of State. Topics Covered: Traffic control devices, the flagger's role in work zone safety, Illinois laws and responsibilities, and flagging procedures.

- Length: ½ day - PDHs: 3.0
- Instructors: Stephanie Stoverink and Lisa Godfrey

2024 SPRING FY2024 T2 Training Schedule

2024 SPRING T2 Training Course Descriptions

PASER

Overview: This course is intended to assist local officials in understanding and rating the surface condition of asphalt, concrete, sealcoat and gravel pavements. It will describe types of defects and provides a simple system to visually rate pavement conditions. It also will present how to use the ratings to assist in planning and budgeting. The course will consist of both classroom lecture and practicing rating roads in the field.

- Length: 1 day
- PDHs: 5.0
- Instructor: Brian Tjernlund
(Assistant Lee County Engineer)

Ameren Live Line Demo

Overview: This course includes in-person training from safety experts about electricity and how to stay safe around high voltage overhead powerlines. It is well-suited for public works departments and first responders, providing lessons on how to respond in an emergency when dealing with fallen power lines/wires, whether they're on the road or if maintenance equipment accidentally comes into contact with them overhead.

- Length: ½ day
- PDHs: 3.0
- Instructor: Consultant Steve Hancock

Mastic for Pavement Repair

Overview: Using Mastic's for the long-term repair of Hot Mix Asphalt and Portland Cement Concrete pavement distresses. This course is intended to describe Mastic composition, where it can be used, and how it is prepared and applied. Also, a look at how local agencies have adopted Mastic as an enduring pavement maintenance tool for the toughest repairs.

- Length: 1 hour
- PDHs: 1.0
- Instructor: Jim Lippert (CRAFCO)

ADA/PROWAG

Overview: This seminar includes presentations by the Federal Highway Administration – IL Division and Illinois Department of Transportation that will discuss the United States Access Board's Proposed Accessibility Guidelines for Pedestrians Facilities in the Public Right-of Way (PROWAG) that will impact highway agencies. It will also provide an overview of other state and federal laws affecting access for people with disabilities in the right-of-way. TOPICS COVERED: PROWAG, ADA, EBA, and other federal/state laws and standards.

- Length: 1 day
- PDHs: 6.0
- Instructors: Traci Baker and Stephen Letsky (FHWA), Tim Peters and Barry Kent (IDOT)

Improve Asphalt Pavement Performance and Safety with LJS

Overview: In this training we will discuss the development, use and benefits of Longitudinal Joint Sealant (LJS) to improve the performance of HMA pavement by making the longitudinal joint area impermeable to water and air. We will also discuss improving safety when using rumble strips in combination with LJS and give an example of the use of Highway Safety Improvement Program (HSIP) funds for this type of an application.

- Length: 1 hour
- PDHs: 1.0
- Instructor: Tim Zahn (Asphalt Materials)

Tractor Mower Operator Safety Training

Overview: This workshop combines both classroom and hands-on training to instruct participants on the best safety practices for industrial mower operator safety. Classroom topics include: responsible operation, safety management of hazards and risks, before-operation safety, operation safety, safety during shutdown, and safety practices during maintenance. Hands-on training topics include: equipment inspection, safety signage placement, use of checklists, safe operating techniques, and personal protective gear use.

- Length: 1 day
- PDHs: 5.0
- Instructor: Contractor TBD

ADA Basics: Detailed Introduction to the Americans with Disabilities Act focused Title II Requirements, Program Evaluation, Non-Compliance Risk, and How to Get Started

Overview: Come join us for an introductory online session where anyone can learn what their agency should be doing with respect to compliance with the federal Americans with Disabilities Act (ADA). Learn about the ADA and civil rights laws, ADA Title II Requirements, how IDOT is evaluating your Agency for compliance, risks associated with non-compliance, and how to get started whether your Agency requires new documentation or needs to evaluate their existing documentation and make updates. This introductory session will explain IDOT's ADA Transition Plan initiative and help you understand available resources and how your agency should move forward with future trainings to be offered by IDOT

- Length: 1 hour
- PDHs: TBD (1.0)
- Instructor: Local IDOT Engineering representative or designee

Coming Soon and Additional Course Offerings

COMING SOON!

ADA Self-Evaluation and Transition Plan Requirements for Local Government Agencies

Overview: The purpose of this training is to inform local public agencies of their responsibilities and requirements under Title II of the Americans with Disabilities Act (ADA) with an emphasis on the public right-of-way. This course provides participants with an understanding of the risk's agencies take by failing to have ADA self-evaluations and transition plans in place. Participants will be given the tools to evaluate their programs, services, and activities to ensure persons with disabilities are not excluded from participation in, or denied the benefits of the program, ser-

vice, or activity. Participants will learn how to achieve compliance with ADA Title II administrative requirements. Templates will be provided, and available resources and best practices will be reviewed. Attendees will have an opportunity to participate in a formal Question and Answer session.

Desired audience: All local public agencies and ADA Coordinators/Responsible Employees

Topics covered: Americans with Disabilities Act (ADA), Architectural Barriers Act (ABA), ADA Title II Requirements, Public Right-of-way Accessibility Guidelines (PROWAG) and other federal/state laws and standards.

- **Length:** 3 hours (2-hour presentation, 1-hour Q&A session)
- **PDHs:** TBD
- **Instructor:** Local IDOT Engineering representative or designee
- **Meeting Location:** On-Site and Virtual Training (locations TBD)
- **Dates:** TBD

ADDITIONAL COURSE OFFERINGS

- **ADA Basics: A Detailed Introduction to the Americans with Disabilities Act (ADA) Focused Title II Requirements, Program Evaluation, Non-Compliance Risk, and How to Get Started**
Local IDOT Engineering representative or designee
- **ADA/PROWAG (Proposed Accessibility Guidelines for Pedestrian Facilities in the Public Right-of-Way)**
Traci Baker (FHWA) and Stephen Letsky, Barry Kent, Tim Peters (IDOT)
- **ADA Self-Evaluation and Transition Plans**
Tim Peters (IDOT)
- **ADA Self-Evaluation and Transition Plan Requirements for Local Government Agencies**
Local IDOT Engineering representative or designee
- **Ameren Live Line Demo**
Steve Hancock
- **Basic Essentials of the Uniform Act, Real Estate Workshop for LPAs**
James Kyte (FHWA)
- **Basic Math Refresher Training**
Barry Kent (IDOT)
- **Basic Supervisory Skills**
Barry Kent (IDOT)
- **CDL Theory Training**
Lisa Godfrey (IDOT T2)
- **Commercial Driver's License Training**
Dan Meyer (Division Administrator-Illinois Division, Federal Motor Carrier Safety Administration)
- **Communication Excellence: Written Communication and Maximizing Social Media in the Workplace**
Bree Hankins (IDOT)
- **Concrete Pavements 101**
Luke B. McHugh (National Ready Mix Concrete Association) and James D. Randolph (Illinois Ready Mix Concrete Association)
- **Concrete Structures (STTP-S13)**
Doug Dirks (IDOT)
- **Contract Administration (STTP-S100)**
Mike Copp (IDOT)
- **Creating a Healthy Workplace Culture Starts With You**
Heather Humphrey (IDOT)
- **Drilled Shafts Construction Inspection (STTP-S32)**
Doug Dirks (IDOT)
- **Drones 101**
Barry Kent (IDOT)
- **Drones 201: Enhancing Safety and Productivity in Transportation Projects through Drone Technology**
Christopher Mason (American Survey)
- **Drug and Alcohol Testing Regulations**
Shelly Miller and Matt Wells (Mid-West Truckers Association, Inc.)

Continued - Additional Course Offerings

- **Earth Excavation and Embankment (STTP-S15)**
Ryan Sheley (IDOT)
- **Emerging Size/Weight Technologies**
Geno Koehler (IDOT)
- **Excavating-Trenching**
County Highway Department
- **Flagger Training**
Stephanie Stoverink and Lisa Godfrey (IDOT)
- **Galvanized Press Brake Tub Girder Bridge Technology**
Jeff Simkins and Greg Mitchel (Valmont Bridge Solutions)
- **General Administrative Duties of the Township Highway Commissioner**
Barry Kent (IDOT)
- **Grant Accountability and Transparency Act (GATA)**
Carissa Calloway and Dana Edwards
Denise Johnson and Shelly Runyard
Aubrey Schuckman and Cassandra Squires and Melanie Turner (ALL IDOT)
- **HEC-RAS Training**
Consultant
- **IDOT Phase 1 Course**
John Sherrill and Felecia Hurley
Carlos Feliciano and Charles Riddle
Kevin Stallworth and Ben Sperry
Josh Vennas and Shawn Wilcockson (ALL IDOT)
- **Illinois Roads Scholar Program**
APWA Chicago Metro Chapter partnering with IDOT T2
- **Illinois Statutes and Rules for Professional Engineering**
Tim Peters (IDOT)
- **Implementing Safe Work Zone Operations Strategies**
FHWA
- **Improve Asphalt Pavement Performance and Safety with LJS**
Tim Zahrn (Asphalt Materials)
- **Instructing the Implementing Safe Work Zone Operations Strategies Training Course**
FHWA
- **JULIE Essentials for Excavators**
Consultant
- **Land Acquisition: Negotiation Skills Workshop**
James Kyte (FHWA)
- **Land Acquisition: A Federal and State Update**
James Kyte (FHWA)
- **Mastic for pavement repair**
Jim Lippert (CRAFCO)
- **MFT (Motor Fuel Tax) Refresher**
Amy Whitecotton (IDOT)
- **MFT Eligibility & Spending Process**
George Tapas, Shawn Ortgiesen, Brian Trygg, Kayla Friederich, Barry Kent, Susan Green, Tim Peters (IDOT)
- **MUTCD (Manual on Uniform Traffic Control Devices) Training**
Dean Mentjes (FHWA) and Marshall Metcalf (IDOT)
- **PASER**
Brian Tjernlund (Assistant Lee County Engineer)
- **PCC Pavement Construction Inspection (STTP-S21)**
Doug Dirks (IDOT)
- **Permeable Pavements Workshop FHWA Pile Foundation Construction Inspection (STTP-S19)**
FHWA
- **Pile Foundation Construction Inspection (STTP-S19)**
Mike Copp (IDOT)
PREREQUISITE: Probability of assignment to inspection and documentation of pile driving operation
- **Plant Mix Asphalt: Design, Construction, Maintenance, and Rehabilitation**
Kevin Burke III (Illinois Asphalt Pavement Association)
- **Professional Conduct and Ethics**
Tim Peters (IDOT)
- **Project Administration Seminar**
IDOT T2 & CBLRS Staff (IDOT)
- **Proposed Accessibility Guidelines for Pedestrian Facilities in the Public Right-of-Way Seminar**
Traci Baker (FHWA) and Tim Peters (IDOT)
- **Qualification Based Selection Training**
Tim Peters (IDOT)
- **Repairing Pipe Culverts with Pipe Liners**
Mark Shaffer (IDOT)
- **Savings & Utility Rebates with Smart LED Street Lights and Controls**
Matt O'Brien (The Will Group/TWG Infrastructure Solutions)
- **Seal Coats (Introduction to Chip Seals with Best Practices)**
Brian Horner (Etyrne)
- **Seal Coat, Gravel, and Dirt Roads**
Tim Peters (IDOT)
- **Sexual Harassment Prevention Training (Instructor-led online)**
Barry Kent and Tim Peters (IDOT)
- **Small Drainage Structures Construction Inspection (STTP-S46)**
Mike Copp (IDOT) and Ryan Sheley (IDOT)

Continued - Additional Course Offerings

- **Smart Roadway Lighting Solutions/ Energy Cost Savings & Utility Rebates with Smart LED Street Lights and Controls**
Matt O'Brien (The Will Group/ TWG Infrastructure Solutions)
- **Snow and Ice Training**
Tim Peters (IDOT)
- **Social Media: Do's and Don'ts**
Joe Schatteman (IDOT)
- **Soils Field Testing and Inspection Course (STTP S-33)**
IDOT Representative
- **Soils Field Testing and Inspection Course (STTP S-33)**
IDOT Representative
- **Steel Structures Construction Inspection (STTP-S51)**
Justan Mann (IDOT) and Ryan Sheley (IDOT)
- **Tractor Mower Operator Safety Training**
Consultant
- **Turning Conflict into Resolution**
Heather Humphrey (IDOT)
- **Understanding USACE and IDNR/ OWR Permitting Requirements for Road Projects**
 - Springfield: Donna Jones (Army Corp of Engineers) and Bill Milner (IDNR)
 - Downstate: Keith McMullen (Army Corp of Engineers) and Steve Altman (IDNR) – St. Louis: Julie Rimbault (Army Corp of Engineers)
 - Chicago: Gary Jereb (IDNR)
- **Waiver Valuation Workshop: The Nuts and Bolts to Preparing Waiver Valuations**
James Kyte (FHWA)
- **Welding Workshop for Highway Structures**
Justin Ocel, Ph.D., P.E (FHWA)
- **Workplace Diversity**
T2 Team (IDOT)

LOCAL AGENCY ONLY CLASSES

- **Flagger Training**
Stephanie Stoverink and Lisa Godfrey (IDOT)
- **Work Zone Safety**
Juan Pava (IDOT), Paul Gurklys (IDOT), and Dean Mentjes (FHWA)
- **You, Others & Their Real Colors Training Series**
- **Real Applications**
PREREQUISITE: You, Others & Their Real Colors
Tim Peters, Barry Kent, Stephanie Stoverink, Lisa Godfrey and Barry Lamb (IDOT)
