**Specific Gravity (Gsb) List**  
**January 20, 2023**

This list supercedes the January 6, 2023 list. Note: Changes are not high-lighted on this list.  
Standard Specifications for Road and Bridge Construction, Articles 1020 and 1030 (January 1,2022)

**Notes:**

1. This is the Statewide Specific Gravity (Gsb) list. Gsb values for all new HMA and PCC mix designs shall be obtained from this list.
2. Consulting with your district Mixtures Control Engineer to verify the Gsb values, is encouraged prior to the construction season.
3. This list will be reviewed and updated every December. Until that time, only new products, ledges or producers will be added.
4. Although this list can be used as a "Shopping List", be aware that any change in aggregate source requires a new mix design.
5. For Gsb results for all Slag Producers, contact your district Mixtures Control Engineer.
6. Aggregate for several PCC uses is required to be tested for Freeze-thaw. Please refer to the "Aggregate Freeze-thaw Rating List" prior to use.

**Material Code Definition:**
