Standard Specifications for Road and Bridge Construction Article 280.04(a)  
(Adopted April 1, 2016)

**Submittal for Testing and Approval**

**A. Scope**

Before materials can be used for a Department project, the manufacturer/supplier must have a producer/supplier number assigned to their facility. The following guidelines are provided to clarify the submittal requirements and expedite the process.

**B. Procedure**

When requesting producer/supplier status with the Department, the following shall be included in the certification:

- Manufacturer name and internet address (if applicable),
- The specific product brand name, (if private label must provide original product name)
- Material Safety Data Sheet (if applicable),
- Technical Data Sheet,
- A signed letter stating the subject material will not be changed without written notification to the Department, and
- Contact person's name, title, address, email address, and phone number.

Depending on the material, test samples may be required to obtain a producer/supplier number. Please contact [Michael Brownlee](#) at (217) 782-6538 for sample size as sizes vary depending on the material type. The sample and certification shall be sent to:

Illinois Department of  
Transportation Bureau of Materials  
[Attn: Michael Brownlee](#)  
126 East Ash Street  
Springfield, IL 62704-4766

Any sample provided without the required information listed will not be tested. Any changes outside the manufacturer's original parameters will necessitate a new sample submittal.

Submitted materials will be tested according to the Department's current edition of the Standard Specifications for Road and Bridge Construction.
