# KENNEDY EXPRESSWAY BRIDGE REHABILITATION PROJECT

Illinois Department of Transportation

**In 2023, IDOT began the rehabilitation of I-90/I-94 to increase safety, reduce maintenance costs and improve traffic flow.**

The Kennedy Expressway supports an average of

**275,000 VEHICLES PER DAY**

## Project efforts totaling approximately $150 million will include:

- Repairs to 36 bridges between Ohio Street and the I-90/I-94 split
- Pavement patching
- Overhead sign-structure replacements
- LED lighting upgrades
- Installing new signage
- Structural painting
- Rehabilitation of the Reversible Lane Access Control (REVLAC) system, which supports traffic flow changes

## Anticipated Construction Schedule

IDOT will work to minimize traffic disruptions as much as possible. Throughout construction, IDOT will maintain traffic using staging, with lane closures and ramp detours as needed. The following schedule is weather permitting and subject to change.

### 2023

**Inbound Lanes Construction**

Spring 2023- Fall 2023

**(Completed)**

- Reversible lanes to be open in the inbound direction while two inbound lanes to be closed at a time

### 2024

**Reversible Lanes Construction**

Spring 2024- Fall 2024

- Reversible lanes to be closed
- Inbound and outbound lanes will open with intermittent ramp and exit closures
- Rehabilitation of the REVLAC system will be concurrent

### 2025

**Outbound Lanes Construction**

Spring 2025- Fall 2025

- Reversible lanes open in outbound direction while two outbound lanes to be closed at a time
