

# Appendix C

## Local Agency Coordination – City of Chicago, Alderman Thompson

I-55 Managed Lane Project

---

Date/Time: February 24, 2016 / 12:00 PM  
Place: City of Chicago – 11th Ward Office  
Next Meeting: TBD  
Attendees: Alderman Thompson – City of Chicago  
Mark Hughes – city of Chicago  
Steve Schilke - IDOT  
Corey Smith - IDOT  
John O'Holleran - Stantec

---

IDOT introduced the I-55 Managed Lane project and gave an overview of the Department's policy on noise abatement. General typical sections of the proposed improvements in the median of I-55 were shared. IDOT has met previously with CDOT on this project. IDOT then showed the current potentially reasonable and feasible locations of noise barrier wall. It was noted that the FHWA/IDOT policy on noise wall mitigation has changed since the previous I-55 improvement in the late 80's. The new policy is designed to allow the impacted residents to determine whether a noise wall is to be included in the project. The local governmental agencies no longer have direct input to this process.

The City confirmed that the area evaluated for potential noise walls were in the City's jurisdiction. The locations identified as B-20 and B-21 meets the Departments reasonableness and feasibility criteria.

IDOT reviewed the View Point Solicitation process, so that the City is aware of what correspondence is being communicated with their residents. IDOT stated that the residents were invited to noise forums on April 4th, 5th and 6th, to explain the noise abatement process. It was noted that the noise form on April 4th, which was held in the 11th Ward was very poorly attended. As the evaluation continues, letter will be sent out for the residents who are identified as benefitted receptors of a proposed noise wall, to vote on if they would like a noise wall or not. The goal is to receive a 33% response rate from the benefitted receptors. If the 33% response goal is not met, a second letter will be sent out to the benefitted receptors by certified mail.

IDOT stated they will keep the Ward office informed as the solicitation progresses so the Ward office is informed if people call. Information will also be posted on the project's website (<http://i55managedlaneproject.org/>). IDOT stated that residents with any questions can contact John Baldauf at [John.Baldauf@illinois.gov](mailto:John.Baldauf@illinois.gov).

Alderman Thompson expressed concern over the low turnout on the April 4th meeting. He noted that the Ward has a very heavy Asian and Hispanic population and suggested that this may be a contributing factor in this low response. He also offered to invite the Department to a local community meeting which he will host in order to support the Department's efforts on community outreach. IDOT accepted this opportunity.

When the Viewpoint solicitation letters are sent out, IDOT will send them in English, Chinese and

February 24, 2016

Local Agency Coordination – Local Agency Coordination – The Village of

Page 2 of 2

Spanish in order to reach the community's benefitted receptors.

IDOT stated that the Phase I process is going to wrap up in late spring / early summer of this year. Although no funding past the Phase I stage exists, it is anticipated that full construction of this project would occur in 2018 or 2019.

The foregoing is considered to be a true and accurate record of all items discussed. If any discrepancies or inconsistencies are noted, please contact the writer immediately.

## Local Agency Coordination – The Village of Burr Ridge

I-55 Managed Lane Project

---

Date/Time: February 23, 2016 / 2:00 PM  
Place: Burr Ridge Village Hall  
Next Meeting: CPG #5 / March 16, 2016  
Attendees: See Sign in Sheet

---

IDOT introduced the I-55 Managed Lane project and gave an overview of the Department's policy on noise abatement. General typical sections of the proposed improvements in the median of I-55 were shared. IDOT then showed the current potentially reasonable and feasible locations of noise barrier wall.

The Village of Burr Ridge asked if IDOT had already sent information out to the residents and if they could get access to the Department's noise manual. IDOT stated nothing has been sent to the residents yet, and a link will be sent that will guide Burr Ridge to the location of the noise manual.

The Village of Burr Ridge requested additional information for the potential walls B8 and B9 located to the north and south of I-55 just west of County Line Road. The northern wall (B8) was deemed reasonable and feasible whereas the southern wall (B9) is not reasonable/feasible. The village would like additional information as to why this is if residents ask. The Village also stated that there are two light industrial companies located to the north of wall B8 which may not want a noise wall located in front of their business, covering up exposure to their names. The Village also asked if the noise analysis for wall B9 included the condition that wall B8 was built because noise may reflect off of one wall and contribute to higher noise levels to the southern wall, potentially making wall B9 reasonable and feasible. IDOT stated that more information will be provided to Burr Ridge as to how the analysis was done.

The Village of Burr Ridge asked if existing walls will be repaired or improved under this project. IDOT stated that they would not.

The Village of Burr Ridge stated that a new development may potentially be permitted shortly that is located just west of the I-294 interchange. A permit could be approved as early as March 21<sup>st</sup> or April 4<sup>th</sup>. IDOT stated that only permitted developments would be looked at and an early analysis of the impacts of that development would be evaluated at this time.

Stantec gave an overview of the existing and proposed drainage aspects of this project. The existing drainage system appears to be functioning as intended and will only need maintenance including storm sewer cleaning and ditch grading. Since the proposed improvements will be constrained in the existing median and no additional impervious pavement will be proposed, limited proposed drainage improvements are anticipated. IDOT stated that additional BMP measures would be looked at and implemented where possible. The Village indicated a poorly draining storm sewer and wetland area located south of Interstate 55 and east of Grant Street. The Managed Lanes project would not include any improvements to the wetland area, the cleaning of the upstream storm sewer and ditches would be evaluated for the Proposed Drainage Plan.

The Village asked if the bridge by Madison Street and I-55 would be included in this project. IDOT stated that the structure will require substructure repair, joint repair, and an overlay that will be completed in a different project.

Burr Ridge stated that they do have a couple of water main crossing across I-55.

The Village also stated that potentially their City Hall or Community center could be used for a noise forum. IDOT and the project team will follow up on this.

IDOT stated that the Phase I process is going to wrap up this year in late spring / early summer. Although no funding past the Phase I stage exists, it is anticipated that full construction of this project would occur in 2018 or 2019. IDOT also stated that residents with any questions can contact John Baldauf at [John.Baldauf@illinois.gov](mailto:John.Baldauf@illinois.gov).

The meeting adjourned at 3:00 PM

The foregoing is considered to be a true and accurate record of all items discussed. If any discrepancies or inconsistencies are noted, please contact the writer immediately.

## Local Agency Coordination – City of Countryside

I-55 Managed Lane Project

---

Date/Time: March 14, 2016 / 1:00 PM  
Place: City of Countryside, 5550 East Avenue, Countryside, IL  
Next Meeting: CPG #5 / March 16, 2016  
Attendees: See Sign in Sheet

---

IDOT introduced the I-55 Managed Lane project and gave an overview of the Phase 1 process. General typical sections of the proposed improvements in the median of I-55 were shared.

IDOT explained the Departments method and criteria for evaluating areas of potential noise mitigation. IDOT then showed the current potentially reasonable and feasible locations of noise barrier wall. The City of Countryside confirmed that the areas of these noise walls were in the Cities.

The City of Countryside asked what is IDOT's mailing campaign, so that they are aware of what correspondence is being communicated with their residents. They offered to assist on identifying residents and suggested they will include the information in their monthly newsletter. IDOT stated that the residents will be invited to a noise forum first, to explain the noise abatement process. Then an initial letter will be sent out for the residents who are benefitted receptors, to vote on if they would like a noise wall or not. If 33% of the responses are not received, a second letter will be sent out to the benefitted receptors as a certified letter.

The City expressed concerns that some effected residence have not received notices.

Stantec gave an overview of the existing and proposed drainage aspects of this project. The existing drainage system appears to be functioning as intended and will only require maintenance including storm sewer cleaning and ditch grading. Since the proposed improvements will be constrained in the existing median and no additional impervious pavement will be proposed, limited proposed drainage improvements are anticipated.

The City of Countryside had no outstanding drainage issues in the vicinity of I-55. The City requested a copy of the existing drainage plan. The plan should be sent to John Fitzgerald and Gail Paul.

The foregoing is considered to be a true and accurate record of all items discussed. If any discrepancies or inconsistencies are noted, please contact the writer immediately.

## Local Agency Coordination – The City of Darien

I-55 Managed Lane Project

---

Date/Time: February 23, 2016 / 10:00 AM  
Place: Darien City Hall  
Next Meeting: CPG #5 / March 16, 2016  
Attendees: See Sign in Sheet

---

IDOT introduced the I-55 Managed Lane project and gave an overview of the Department's policy on noise abatement. General typical sections of the proposed improvements in the median of I-55 were shared. IDOT then showed the current potentially reasonable and feasible locations of noise barrier wall.

The City of Darien asked if IDOT had a copy of the study concerning noise walls from 5 to 10 years prior. IDOT stated that may have been a type 2 project, which currently has been suspended. IDOT will look to see if there was a type 2 project done in this area and share any information with the City.

The City of Darien asked if Forest Preserves were also considered as benefitted receptors. IDOT stated that they were, however, only when there is a place of meeting within the area, such as a bench.

The City of Darien asked if the documents handed out at this meeting are public information. IDOT stated that they can be shared, however, they will be posted to the project's website after the next Corridor Planning Group meeting on March 16, 2016. IDOT also stated that residents with any questions can contact John Baldauf at [John.Baldauf@illinois.gov](mailto:John.Baldauf@illinois.gov).

Stantec gave an overview of the existing and proposed drainage aspects of this project. The existing drainage system appears to be functioning as intended and will only need maintenance including storm sewer cleaning and ditch grading. Since the proposed improvements will be constrained in the existing median and no additional impervious pavement will be proposed, limited proposed drainage improvements are anticipated. The City of Darien expressed that there are issues along the frontage roads. IDOT stated that improvements to the Frontage Road are not included in the project scope for the Managed Lanes. Corrections to identified drainage problems may be incorporated into a separate project that would focus on patching, resurfacing, and addressing cross culvert issues on the frontage roads. The City was encouraged to report the location and description of existing drainage problems to be recorded as part of the drainage study. The City of Darien asked to have access to the existing drainage plan and the hydraulic reports that were prepared. IDOT stated that this information will be shared with the city.

The City of Darien also asked if there would be an opportunity to enhance the landscape within this corridor similar to what Burr Ridge had done by the County line Rd project. IDOT stated that there would be no funding for that work on this project, but the City could begin preparing the documentation for an ITIP Grant to help cover costs of additional landscaping improvements.

The City of Darien asked what the timeframe of this project was. IDOT stated that the Phase I process is going to wrap up this year in late spring / early summer. Although no funding past the

### Design with community in mind

Phase I stage exists, it is anticipated that full construction of this project would occur in 2018 or 2019.

The meeting adjourned at 11:00 AM

The foregoing is considered to be a true and accurate record of all items discussed. If any discrepancies or inconsistencies are noted, please contact the writer immediately.

## Local Agency Coordination – DuPage County

I-55 Managed Lane Project

---

Date/Time: March 10, 2016 / 3:10 PM  
Place: DuPage County Department of Transportation  
Next Meeting: CPG #5 / March 16, 2016  
Attendees: See Sign in Sheet

---

IDOT introduced the I-55 Managed Lane project and gave an overview of the Department's policy on noise abatement. General typical sections of the proposed improvements in the median of I-55 were shared. IDOT then showed the current potentially reasonable and feasible locations of noise barrier wall.

The traffic used in the noise analysis assumed an Express Toll Lane (ETL) with continuous access. This alternative generated the highest traffic volumes and is thus the worst case alternative for evaluation of noise impacts. The addition of capacity on I-55 will draw traffic from the adjacent roadways.

Existing noise wall were checked to verify their effectiveness. Barriers must be feasible and meet levels of cost effectiveness to be considered for inclusion in the project. IDOT will maintain the roadway side of the Wall. IDOT asks the local communities/agencies to assume the maintenance of the outside wall. Vegetation restrictions in the vicinity of the walls should be coordinated with the Departments Roadside Development staff.

IDOT reviewed the View Point Solicitation process, so that the County is aware of what correspondence is being communicated with their residents. IDOT stated that the residents will be invited to a noise forum scheduled for early April, to explain the noise abatement process. As the evaluation continues, letter will be sent out for the residents who are identified as benefitted receptors of a proposed noise wall, to vote on if they would like a noise wall or not. If 33% of the responses are not received, a second letter will be sent out to the benefitted receptors by certified mail.

An ETL is the preferred managed lane alternative. Both a controlled access and continuous access operation to the managed lane will be carried through the EA. The location of the controlled access points will be provided to the County.

O-D studies indicate the average trip length for travelers in the corridor is approximately 8 miles, and less than 3% travel the entire corridor. This is consistent with the numerous interchanges and employment centers located throughout the corridor.

IDOT stated they will keep the County informed as the solicitation progresses so the County is informed if people call. Information will also be posted on the project's website (<http://i55managedlaneproject.org/>). IDOT stated that residents with any questions can contact John Baldauf at [John.Baldauf@illinois.gov](mailto:John.Baldauf@illinois.gov).

IDOT stated that the Phase I process is going to wrap up this year in late spring / early summer. Although no funding past the Phase I stage exists, it is anticipated that full construction of this

## Local Agency Coordination – Forest Preserve District of DuPage County

I-55 Managed Lane Project

---

Date/Time: April 14, 2016 / 12:00 PM  
Place: Forest Preserve District of DuPage County  
Attendees: See Sign in Sheet

---

IDOT introduced the I-55 Managed Lane project and gave an overview of the Department's policy on noise abatement. General typical sections of the proposed improvements in the median of I-55 were shared. IDOT then showed the current potentially reasonable and feasible locations of noise barrier wall.

Forest Preserve District of DuPage County confirmed that Waterfall Glenn and Oak Grove Forest Preserves are in the vicinity of the I-55 corridor and that there are hiking/biking trails along the corridor. IDOT noted that unless these facilities had an identified point of common assemble, such as a bench of trail head sight, these paths would not be considered an impacted receptor.

IDOT reviewed the View Point Solicitation process. IDOT stated that three noise forums were held on April 4<sup>th</sup>, 5<sup>th</sup> and 6<sup>th</sup> to explain the noise abatement process. As the evaluation continues, letter will be sent out for the residents, businesses and agencies who are identified as benefitted receptors of a proposed noise wall, to vote on if they would like a noise wall or not. The goal is to receive input from at least 33% of the benefitted receptors. If this 33% response goal is not met, a second letter will be sent out to the benefitted receptors by certified mail.

IDOT stated they will keep the Forest Preserve District informed as the solicitation progresses. Information will also be posted on the project's website (<http://i55managedlaneproject.org/>). IDOT stated that residents, businesses or agencies with any questions can contact John Baldauf at [John.Baldauf@illinois.gov](mailto:John.Baldauf@illinois.gov).

IDOT stated that the Phase I process is going to wrap up in late spring / early summer of this year. Although no funding beyond the Phase I stage exists, it is anticipated that full construction of this project would occur in 2018 or 2019.

The Forest Preserve District requested coordination with the Department as ditch grading and mitigation/BMP plans are considered. They would like to provide comment on plant species to avoid potential introduction of invasive species which may impact their properties. IDOT will continue this coordination with the Forest Preserve District.

The foregoing is considered to be a true and accurate record of all items discussed. If any discrepancies or inconsistencies are noted, please contact the writer immediately.

## Local Agency Coordination – The Village of Hodgkins

I-55 Managed Lane Project

---

Date/Time: February 24, 2016 / 12:00 PM  
Place: Village of Hodgkins  
Next Meeting: CPG #5 / March 16, 2016  
Attendees: See Sign in Sheet

---

IDOT introduced the I-55 Managed Lane project and gave an overview of the Department's policy on noise abatement. General typical sections of the proposed improvements in the median of I-55 were shared. IDOT then showed the current potentially reasonable and feasible locations of noise barrier wall.

The Village of Hodgkins confirmed that the area evaluated for potential noise walls were in the Village's jurisdiction. The location identified as B-18 meets the Departments reasonableness and feasibility criteria.

IDOT reviewed the View Point Solicitation process, so that the Village is aware of what correspondence is being communicated with their residents. IDOT stated that the residents will be invited to a noise forum scheduled for early April, to explain the noise abatement process. As the evaluation continues, letter will be sent out for the residents who are identified as benefitted receptors of a proposed noise wall, to vote on if they would like a noise wall or not. If 33% of the responses are not received, a second letter will be sent out to the benefitted receptors by certified mail.

IDOT stated they will keep the Village informed as the solicitation progresses so the Village is informed if people call. Information will also be posted on the project's website (<http://i55managedlaneproject.org/>). IDOT stated that residents with any questions can contact John Baldauf at [John.Baldauf@illinois.gov](mailto:John.Baldauf@illinois.gov).

Stantec gave an overview of the existing and proposed drainage aspects of this project. The existing drainage system appears to be functioning as intended and will only need maintenance. Since the proposed improvements will be constrained in the existing median and no additional impervious pavement will be proposed, limited proposed drainage improvements are anticipated. The Village acknowledged that this improvement would not impact their local drainage system. The downstream sewer serving the industrial development (south of LaGrange Road) is undersized and the Village asked if some storage/detention could be provided in the existing interchange infield. The Department will consider this if the opportunity is feasible.

IDOT stated that the Phase I process is going to wrap up this year in late spring / early summer. Although no funding past the Phase I stage exists, it is anticipated that full construction of this project would occur in 2018 or 2019.

The foregoing is considered to be a true and accurate record of all items discussed. If any discrepancies or inconsistencies are noted, please contact the writer immediately.

## Local Agency Coordination – The Village of Indian Head Park

I-55 Managed Lane Project

---

Date/Time: February 25, 2016 / 9:30 AM  
Place: Indian Head Park Village Hall  
Next Meeting: CPG #5 / March 16, 2016  
Attendees: See Sign in Sheet

---

IDOT introduced the I-55 Managed Lane project and gave an overview of the Department's policy on noise abatement. General typical sections of the proposed improvements in the median of I-55 were shared. IDOT then showed the current potentially reasonable and feasible locations of noise barrier wall.

The Village of Indian Head Park confirmed that the areas evaluated for potential noise walls were in the Village's jurisdiction. The location identified as B-11 does not meet the Department's feasibility criteria. The existing noise barrier identified as B-12 is under the jurisdiction of the Tollway and will remain.

IDOT reviewed the View Point Solicitation process, so that the Village is aware of what correspondence is being communicated with their residents. IDOT stated that the residents will be invited to a noise forum scheduled for early April, to explain the noise abatement process. As the evaluation continues, letter will be sent out for the residents who are identified as benefitted receptors of a proposed noise wall, to vote on if they would like a noise wall or not. If 33% of the responses are not received, a second letter will be sent out to the benefitted receptors by certified mail.

IDOT stated they will keep the Village informed as the solicitation progresses so the Village is informed if people call. Information will also be posted on the project's website (<http://i55managedlaneproject.org/>). IDOT stated that residents with any questions can contact John Baldauf at [John.Baldauf@illinois.gov](mailto:John.Baldauf@illinois.gov).

Stantec gave an overview of the existing and proposed drainage aspects of this project. The existing drainage system appears to be functioning as intended and will only need maintenance. Since the proposed improvements will be constrained in the existing median and no additional impervious pavement will be proposed, limited proposed drainage improvements are anticipated. The Village acknowledged that this improvement would not impact drainage aspects for their jurisdiction. The Village indicated no drainage problems were observed along I-55.

IDOT stated that the Phase I process is going to wrap up this year in late spring / early summer. Although no funding past the Phase I stage exists, it is anticipated that full construction of this project would occur in 2018 or 2019.

The Village expressed concerns about the property along Wolf Road north of I-55/Tollway entrance ramp. This property has a history of illegal dumping and is an eyesore for the Village. IDOT will contact their maintenance yard to check and check on the ownership of this property.

## Local Agency Coordination – The Village of Summit

I-55 Managed Lane Project

---

Date/Time: February 23, 2016 / 12:00 PM  
Place: Summit Municipal Service Center  
Next Meeting: CPG #5 / March 16, 2016  
Attendees: See Sign in Sheet

---

IDOT introduced the I-55 Managed Lane project and gave an overview of the Department's policy on noise abatement. General typical sections of the proposed improvements in the median of I-55 were shared. IDOT then showed the current potentially reasonable and feasible locations of noise barrier wall.

The Village of Summit confirmed that the areas of these noise walls were in the Village's jurisdiction and not in Forest View.

The Village of Summit asked what is IDOT's mailing campaign, so that they are aware of what correspondence is being communicated with their residents. IDOT stated that the residents will be invited to a noise forum first, to explain the noise abatement process. Then an initial letter will be sent out for the residents who are benefitted receptors, to vote on if they would like a noise wall or not. If 33% of the responses are not received, a second letter will be sent out to the benefitted receptors as a certified letter.

The Village of Summit asked if the Village would be kept abreast of all actions taken by IDOT and courtesy copies sent prior to contacting the residents so the Village is informed if people call. IDOT stated that the Village would be contacted and information will be posted on the project's website (<http://i55managedlaneproject.org/>). IDOT also stated that residents with any questions can contact John Baldauf at [John.Baldauf@illinois.gov](mailto:John.Baldauf@illinois.gov).

Stantec gave an overview of the existing and proposed drainage aspects of this project. The existing drainage system appears to be functioning as intended and will only need maintenance. Since the proposed improvements will be constrained in the existing median and no additional impervious pavement will be proposed, limited proposed drainage improvements are anticipated. The Village of Summit acknowledged that this improvement would not impact drainage aspects for their jurisdiction.

IDOT stated that the Phase I process is going to wrap up this year in late spring / early summer. Although no funding past the Phase I stage exists, it is anticipated that full construction of this project would occur in 2018 or 2019.

The meeting adjourned at 1:00 PM

The foregoing is considered to be a true and accurate record of all items discussed. If any discrepancies or inconsistencies are noted, please contact the writer immediately.

# Meeting Notes

## Local Agency Coordination – The Village of Woodridge

I-55 Managed Lane Project

---

Date/Time: March 1, 2016 / 1:00 PM  
Place: Woodridge Village of Woodridge, Department of Public Works  
1 Plaza Drive, Woodridge, IL  
Next Meeting: CPG #5 / March 16, 2016  
Attendees: See Sign in Sheet

---

Stantec / IDOT introduced the I-55 Managed Lane project and gave an overview of the Phase 1 process. General typical sections of the proposed improvements in the median of I-55 were shared.

Stantec gave an overview of the existing and proposed drainage aspects of this project. The existing drainage system appears to be functioning as intended and will only require maintenance including storm sewer cleaning and ditch grading. Since the proposed improvements will be constrained in the existing median and no additional impervious pavement will be proposed, limited proposed drainage improvements are anticipated.

The Village of Woodridge noted that the existing Black Partridge Creek floodplain (north of I-55) is removed from the preliminary DuPage County FIRM maps. The new FIRM maps are currently in the process of being redone and are not yet approved by FEMA. The existing pond and regional detention serving upstream of Black Partridge Creek had some drainage problems previously, but have since been corrected and are functional at this time.

The Village expressed the need to account for the pond overflow through the planned noisewall. Stantec indicated that details will likely not be included as part of the Proposed Drainage Plan (PDP), but a note will be provided to reflect the need to account for the overflow as part of the Phase II Design.

The Village of Woodridge shared that they were not aware of any existing drainage issues or concerns along I-55. The Village was encouraged to report the location and description of existing drainage problems to be recorded as part of the drainage study.

The Existing Drainage Plan previously revised to reflect the improvements related to a new development located east of the existing residential subdivision.

The Village of Woodridge asked what the timeframe to complete the Proposed Drainage Plan. IDOT stated that the Phase I process is going to wrap up this year in late spring / early summer. Although no funding past the Phase I stage exists, it is anticipated that full construction of this project would occur in 2018 or 2019.

The meeting adjourned at 1:30 PM

The foregoing is considered to be a true and accurate record of all items discussed. If any discrepancies or inconsistencies are noted, please contact the writer immediately.

## **I-55 Managed Lane Project Noise Wall Forums Summary**

April 5, 2016 – Chicago  
April 6, 2017 – Burr Ridge  
April 7, 2016 – Woodridge

As part of the ongoing I-55 Managed Lane project, the Illinois Department of Transportation (IDOT) hosted special forums to inform benefitted receptors about the upcoming vote on installing noise walls at selected locations along the I-55 Corridor, in conjunction with the planned roadway improvements. The meetings took place from 5:30 pm to 7:30 pm on April 5, 2016 at the St. Richard School at 5025 S. Kenneth Ave. Chicago, IL 60632; April 6, 2016 at the Burr Ridge Middle School at 15W451 91st Street Burr Ridge, IL 60527; and April 7, 2016 at the Thomas Jefferson Junior High School at 7200 Janes Avenue Woodridge, Illinois 60517.

At each of the three public forums exhibits and aerial maps of the corridor were on display, and attendees had the opportunity to speak with IDOT and study team representatives. Beginning at 6:30 pm there was a short presentation on the I-55 planning process, noise analysis methodology, and findings. This was followed by a moderated question and answer session. The same information was presented at each of the three forums. To notify individuals of the forums IDOT mailed postcard invitations (Exhibit 1) to the benefitted receptors along the corridor. This outreach resulted in **141 attendees**. During the question and answer session **19 Question** were submitted and several **questions or comments** were submitted verbally. **2** comment forms were submitted.

### **The following public officials were in attendance:**

- Kathy Abbate, Trustee: Downers Grove Township
- Mary Anne Blair Trustee: Village of Woodridge
- Gina Cunningham Mayor: Village of Woodridge
- Mike Krucek Trustee: Village of Woodridge
- Theresa Mah Illinois State Representative – Elect: 2<sup>nd</sup> District
- Mickey Straub Mayor: Village of Burr Ridge

### **Municipalities/agencies/organizations represented include:**

- Archer Heights Civic Association
- Chicago Department of Transportation
- Clarenbrook Homeowners Assoc.
- Country Club Oaks Townhome Association
- DuPage County
- Tri-State Village
- Vicente Homeowners Association

- Village of Burr Ridge
- Village of Willowbrook
- Village of Woodridge
- Waterfall Glen Condo Association

**No media outlets were in attendance.**

There were 19 question cards submitted, additionally several verbal questions/comments, and two comment forms were submitted. The questions and comments covered a variety of topics, with the most predominant themes including:

- Timeline of noise wall construction in relation to the managed lane completion
- Who is eligible to vote?
- How does the voting process work?
- What happens to the noise after walls are constructed?
- How will the noise walls be funded?
- How are property values affected?
- Who will be responsible for noise wall maintenance?

**Learn about the I-55 Noise Analysis at 1 of the upcoming public forums**

Location	Date	Time	Address
Chicago	April 5, 2016	5:30 pm to 7:30 pm	St. Richard School 5025 S. Kennedy Ave. Chicago, IL 60632
Burr Ridge	April 6, 2016	5:30 pm to 7:30 pm	Burr Ridge Middle School 15045 1st St. Burr Ridge, IL 60527
Woodridge	April 7, 2016	5:30 pm to 7:30 pm	Thomas Jefferson Junior High School 7200 James Ave. Woodridge, IL 60517

Illinois Department of Transportation | [www.i55managedlaneproject.org](http://www.i55managedlaneproject.org)

## I-55 Managed Lane Public Forums to be Held

*Join us at a public forum to learn about the noise wall voicing process and design options for your area along I-55 from I-355 (Veterans Memorial Tollway) to I-90/94 (Dan Ryan Expressway) in DuPage and Cook Counties.*

As part of the ongoing I-55 Managed Lane study, the Illinois Department of Transportation is hosting three public forums to discuss the potential installation of noise walls along I-55 in conjunction with the planned roadway improvements. The traffic noise analysis has indicated that noise levels in your area warrant the consideration of noise walls. You are highly encouraged to attend as your opinion, along with other residents benefited by noise abatement, will decide whether or not noise walls will be installed along I-55.

**For a noise barrier to be built, it must:**

- ✓ be constructible
- ✓ achieve a meaningful noise level reduction
- ✓ be economically reasonable, and
- ✓ be accepted by a majority of those who will benefit

At each of the three public forums, there will be a short presentation on the I-55 planning process, noise analysis methodology, and findings beginning at 6:30 pm. Exhibits will be on display, and you will have the opportunity to speak with IDOT and study team representatives. The same information will be presented at each of the forums.

After the forums, a ballot will be sent to all property owners and tenants who would benefit from a noise wall. IDOT will consider all votes received to determine if noise walls will be installed. Please visit [www.i55managedlaneproject.org](http://www.i55managedlaneproject.org) for more information about the noise analysis and the overall I-55 study.

These meetings will be accessible to persons with disabilities. Anyone needing special assistance should contact Keith Eggenwerdt at (630) 810-2844. Persons planning to attend who will need a sign language interpreter or other similar accommodations should notify the TTY ID number (800) 805-2844 or TTY Users (period) 800 801-0964 or T11, and/or telewrite (773) 806-5820 at least five days prior to the meeting.

RE: I-55 Noise Barrier Viewpoint Solicitation  
FIRST NOTICE

Dear Property Owner or Resident:

The Illinois Department of Transportation (IDOT) is conducting Preliminary Engineering and Environmental (Phase I) studies for the improvement of I-55 from I-355 to I-90/94 in DuPage and Cook Counties. The scope of work for this improvement consists of the addition of one managed lane in each direction within the existing median of I-55, drainage improvements, and noise walls. The existing travel lanes along I-55 will remain free but the new managed lane is proposed to be tolled as an Express Toll Lane.

As part of the environmental study for this project, traffic noise was evaluated for the proposed improvements as well as the No-Build or do-nothing option. The analysis found that with the proposed improvements, the predicted future noise levels in your area warrant the consideration of noise abatement. The enclosed exhibits show the location of the noise wall.

IDOT takes public opinion into account before a final decision is made on the construction of noise walls. Each property "benefitted" by a noise wall may vote in favor of or against the wall. A property is benefitted by a wall when the proposed wall results in a noticeable reduction in noise level, which is defined as five decibels or more. If more than half of the votes received are in favor of the wall, the wall will likely be included in the project. A final decision on the installation of abatement measures will be made upon completion of the project's final design and the public involvement process.

May 4, 2016  
Page 2

Your property/rental unit has been found to be benefitted from the noise wall shown in the enclosed exhibits. IDOT respectfully requests your vote for or against the noise wall.

Additional information is available on the project website [www.I55ManagedLaneProject.org](http://www.I55ManagedLaneProject.org) and in IDOT's traffic noise handbook: <http://www.idot.illinois.gov/Assets/uploads/files/Doing-Business/Manuals-Guides-&-Handbooks/Highways/Design-and-Environment/Environment/HighwayTrafficNoiseAssessmentManual.pdf>

Enclosed is a "Viewpoint Form" for you to vote for or against the recommended noise wall in your area and an exhibit showing the noise wall you are voting for. For your vote to count, please complete and return the form by June 2, 2016 using the provided self-addressed, stamped envelope.

If you have any questions or need additional information, please contact John Baldauf, P.E., Project Manager, at (847) 705-4103.

Very truly yours,

John Fortmann, P.E.  
Region One Engineer

RE: Solicitud para Punto de Vista de la I-55 Barrera Acústica  
PRIMER AVISO

Estimado Propietario o Residente:

El Departamento de Transporte de Illinois (IDOT) está llevando a cabo estudios preliminares de Ingeniería y Ambientales (Fase I) para mejorar las operaciones de la I-55 desde la I-355 hacia la I-90/94 en los Condados DuPage y Cook. Las mejoras consistirán en la adición de un carril gestionado en cada dirección dentro de la mediana existente de la I-55, mejoras de drenaje, y en paredes de ruido. Los carriles existentes a lo largo de la I-55 seguirán siendo gratuitos, pero se propone que los nuevos carriles gestionados a lo largo de la I-55 serán carriles de peaje expreso.

Como parte del estudio ambiental para este proyecto, se evaluó el ruido del tráfico para las futuras mejoras y la opción de No-Construir o no hacer nada. El análisis encontró que las mejoras propuestas representan una considerable reducción en el nivel de ruido. Las imágenes adjuntas muestran la ubicación de la pared de ruido.

IDOT toma en consideración la opinión pública antes de una decisión final sobre la construcción de las paredes de ruido. Cada propiedad "beneficiada" por una pared de ruido puede votar a favor o en contra de la pared. Una propiedad que será beneficiada por una pared de ruido cuando la pared propuesta resulte en una reducción notable del nivel de ruido, lo cual es definido, como cinco decibeles o más. Si más de la mitad de los votos recibidos están a favor de la pared, es probable que la pared sea incluida en el proyecto. La decisión final sobre la instalación de las medidas de reducción se realizarán una vez que el diseño final y el proceso de participación pública se hallan completado.

4 de mayo, 2016  
Página 2

Se ha encontrado que su unidad de propiedad/alquiler será beneficiada con la pared de ruido mostrado en las imagenes adjuntas. IDOT solicita respetuosamente su voto a favor o en contra de la pared de ruido.

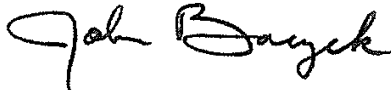

Información adicional está disponible en la página web del proyecto: [www.I55ManagedLaneProject.org](http://www.I55ManagedLaneProject.org) y en el manual de ruido de tráfico de IDOT: <http://www.idot.illinois.gov/Assets/uploads/files/Doing-Business/Manuals-Guides-&-Handbooks/Highways/Design-and-Environment/Environment/HighwayTrafficNoiseAssessmentManual.pdf>.

Encontrará adjunto una "Forma de Perspectiva" para que voten a favor o en contra de la pared de ruido recomendada en su área y una exposición que muestra la pared de ruido por la que se está votando. Para que su voto cuente, por favor complete y envíe la forma adjunta en o antes del 2 de junio, 2016 utilizando el sobre estampado con su dirección proporcionada.

Si usted tiene alguna pregunta o necesita información adicional, por favor, póngase en contacto con Brenda Alicea, Ingeniero del Proyecto, al (847) 705-4186.

Muy atentamente,

John Fortmann, P.E.

RE: I-55 隔音墙意见征集  
首次通知

尊敬的业主和住户：

伊利诺伊州交通局 (IDOT) 正在对位于杜佩奇县和库克县的 I-55 自 I-355 至 I-90/94 之间的路段的改进项目进行初步的工程与环境研究 (一期)。这次的改善措施包括在 I-55 的已有道路中间带以内双向各增设一条收费快车道, 改进排水设施及安装隔音墙。I-55 上现有的交通道将保持免费, 但是新的管理车道计划按照快速收费车道进行收费。

作为该项目环境研究的一部分, 该项目对交通噪音在改善前后均进行了评估。研究表明在改善后, 项目需要建造隔音墙来降低您所在地区未来的噪音水平。附件展示图上标有具体的隔音墙位置。

在关于隔音墙施工的最终决定确定之前, 伊州交通局 (IDOT) 需要听取公众的意见。每一个“受益”的住户可以投票支持或者反对隔音墙的建设。当隔音墙的实施使噪音明显降低, 具体标准为五分贝以上, 那么房产就认为是受益的。如果收到的票选中有一半以上的支持票, 最终项目将可能会把隔音墙加进去。关于具体减噪措施的决定会在项目的最终设计跟公众参与过程结束之后作出。

2016年5月4日

RE: I-55 Noise Barrier Viewpoint Solicitation  
SECOND NOTICE

Dear Property Owner or Resident:

This is a follow up to the letter sent to you in May 2016 regarding the Illinois Department of Transportation's (IDOT's) ongoing study for the improvement of I-55 from I-355 to I-90/94 in DuPage and Cook Counties. IDOT is seeking your input regarding the installation of noise walls in your area. We are sending this second request for your input because our records indicate that we have not received a response from the first mailing. If you have already voted, please disregard this notice and we thank you for your participation. The scope of work for this improvement consists of the addition of one managed lane in each direction within the existing median of I-55, drainage improvements, and noise walls. The existing travel lanes along I-55 will remain free but the new managed lane is proposed to be tolled as an Express Toll Lane.

As part of the environmental study for this project, traffic noise was evaluated for the proposed improvements as well as the No-Build or do-nothing option. The analysis found that with the proposed improvements, the predicted future noise levels in your area warrant the consideration of noise abatement. The enclosed exhibits show the location of the noise wall.

IDOT takes public opinion into account before a final decision is made on the construction of noise walls. Each property "benefitted" by a noise wall may vote in favor of or against the wall. A property is benefitted by a wall when the proposed wall results in a noticeable reduction in noise level, which is defined as five decibels or more. If more than half of the votes received are in favor of the wall, the wall will likely be included in the project. A final decision on the installation of abatement measures will be made upon completion of the project's final design and the public involvement process.

«First\_Name» «Last\_Name»  
June 8, 2016  
Page two

Your property/rental unit has been found to be benefitted from the noise wall shown in the enclosed exhibits. IDOT respectfully requests your vote for or against the noise wall.

Additional information is available on the project website [www.I55ManagedLaneProject.org](http://www.I55ManagedLaneProject.org) and in IDOT's traffic noise handbook: <http://www.idot.illinois.gov/Assets/uploads/files/Doing-Business/Manuals-Guides-&-Handbooks/Highways/Design-and-Environment/Environment/HighwayTrafficNoiseAssessmentManual.pdf>

Enclosed is a "Viewpoint Form" for you to vote for or against the recommended noise wall in your area and an exhibit showing the noise wall you are voting for. For your vote to count, please complete and return the form by July 8, 2016 using the provided self-addressed, stamped envelope.

If you have any questions or need additional information, please contact John Baldauf, P.E., Project Manager, at (847) 705-4103.

Very truly yours,

John Fortmann, P.E.  
Region One Engineer

RE: Solicitud para Punto de Vista de la I-55 Barrera Acústica  
SEGUNDO AVISO

Estimado Propietario o Residente:

Esta carta es para dar seguimiento a la carta que le fue enviada el pasado mes de Mayo con relación al estudio que el Departamento de Transporte de Illinois (IDOT) está llevando para mejorar las operaciones de la I-55 desde la I-355 hacia la I-90/94 en los Condados de DuPage y Cook. IDOT quiere saber su opinión respecto a la instalación de una pared de ruido en su área. Estamos enviando este segundo aviso debido a que nuestros registros indican que no hemos recibido su voto con el primer aviso. Si usted ya emitió su voto, por favor ignore este segundo aviso y le agradecemos su participación. Las mejoras consistirán en la adición de un carril gestionado en cada dirección dentro de la mediana existente de la I-55, mejoras de drenaje, y en paredes de ruido. Los carriles existentes a lo largo de la I-55 seguirán siendo gratuitos, pero se propone que los nuevos carriles gestionados a lo largo de la I-55 serán carriles de peaje expreso.

Como parte del estudio ambiental para este proyecto, se evaluó el ruido del tráfico para las futuras mejoras y la opción de No-Construir o no hacer nada. El análisis encontró que las mejoras propuestas representan una considerable reducción en el nivel de ruido. Las imágenes adjuntas muestran la ubicación de la pared de ruido.

IDOT toma en consideración la opinión pública antes de una decisión final sobre la construcción de las paredes de ruido. Cada propiedad "beneficiada" por una pared de ruido puede votar a favor o en contra de la pared. Una propiedad que será beneficiada por una pared de ruido cuando la pared propuesta resulte en una reducción notable del nivel de ruido, lo cual es definido, como cinco decibeles o más. Si más de la mitad de los votos recibidos están a favor de la pared, es probable que la pared sea incluida en el proyecto.

8 de Junio, 2016  
Página 2

La decisión final sobre la instalación de las medidas de reducción se realizarán una vez que el diseño final y el proceso de participación pública se hallan completado.

Se ha encontrado que su unidad de propiedad/alquiler será beneficiada con la pared de ruido mostrado en las imagenes adjuntas. IDOT solicita respetuosamente su voto a favor o en contra de la pared de ruido.

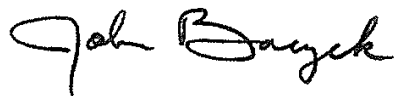

Información adicional está disponible en la página web del proyecto: [www.I55ManagedLaneProject.org](http://www.I55ManagedLaneProject.org) y en el manual de ruido de tráfico de IDOT: <http://www.idot.illinois.gov/Assets/uploads/files/Doing-Business/Manuals-Guides-&-Handbooks/Highways/Design-and-Environment/Environment/HighwayTrafficNoiseAssessmentManual.pdf>.

Encontrará adjunto una "Forma de Perspectiva" para que voten a favor o en contra de la pared de ruido recomendada en su área y una exposición que muestra la pared de ruido por la que se está votando. Para que su voto cuente, por favor complete y envíe la forma adjunta en o antes del 8 de Julio de 2016 utilizando el sobre estampado con su dirección proporcionada.

Si usted tiene alguna pregunta o necesita información adicional, por favor, póngase en contacto con Brenda Alicea, Ingeniero del Proyecto, al (847) 705-4186.

RE: I-55 隔音墙意见征集  
第二次通知

尊敬的业主和住户:

此通知是对五月份首次通知的跟进, 有关伊利诺伊州交通局 (IDOT) 针对位于杜佩奇县和库克县的 I-55 自 I-355 至 I-90/94 之间路段的改进研究项目。伊州旨在征求您对于修建隔音墙的意见。伊州特此发二次通知是因为首次通知的回复尚未收到。如果您已经作出投票, 请无视此通知, 伊州感谢您的参与。这次的改善措施包括在 I-55 的已有道路中间带以内双向各增设一条收费快车道, 改进排水设施及安装隔音墙。I-55 上现有的交通道将保持免费, 但是新的管理车道计划按照快速收费车道进行收费。

作为该项目环境研究的一部分, 该项目对交通噪音在改善前后均进行了评估。研究表明在改善后, 项目需要建造隔音墙来降低您所在地区未来的噪音水平。附件展示图上标有具体的隔音墙位置。

在关于隔音墙施工的最终决定确定之前, 伊州交通局 (IDOT) 需要听取公众的意见。每一个“受益”的住户可以投票支持或者反对隔音墙的建设。当隔音墙的实施使噪音明显降低, 具体标准为五分贝以上, 那么房产就认为是受益的。如果收到的票选中有一半以上的支持票, 最终项目将可能会把隔音墙加进去。关于具体减噪措施的决定会在项目的最终设计跟公众参与过程结束之后作出。

2016年6月6日

## Noise Wall Viewpoint Summary of Comment Responses

As part of the environmental study for this project, traffic noise was evaluated. The analysis found that nearly 12 miles of noise walls meet IDOT criteria. A viewpoint solicitation was sent to each receptor “benefited” by a noise wall to vote for or against the wall. Each viewpoint solicitation form had a comment section that benefited receptors could fill out. Comments made included the following topics:

*Noise Wall Support:* The majority of comments written on the viewpoint forms were in favor of implementing noise walls. Many of the comments expressed that noise walls would benefit the residents and would be greatly appreciated.

*Cost Participation:* If the benefitted receptors vote in favor of a noise wall, the standard construction cost will be borne by IDOT as part of the overall I-55 project. Non-standard features, or enhanced aesthetics, will be subject to municipal cost participation. Individual property owners would not be asked to pay for a noise wall.

*Noise Analysis:* The traffic noise study for this project followed all of IDOT’s policy and procedures. The existing noise levels were evaluated and modeled. The analysis included the three existing walls and external noise wall sources at the receptor locations. IDOT only mitigates for noise impacts associated with the proposed action. Mitigation for external sources is excluded. The detailed analysis can be found in this report.

*Wall Height:* The proposed wall heights were analyzed to provide the greatest amount of benefited receptors while being cost effective and achieving a reduction in noise levels. Beyond a certain height, incremental changes in height do not provide additional perceptible reduction in noise level.

*Noise Wall Aesthetics:* Current noise walls were shown at the public hearing, on the public hearing newsletter and on the project website to give residents a visual of typical noise walls. The wall type, vegetation, as well as options to minimize disruption in view shed will be further analyzed in subsequent phases of this study. There was also a suggestion of adding trees as a noise abatement instead of a noise wall. Vegetation, such as a dense growth of trees need to be at least 200 feet in width and 18 feet high to reduce noise levels by 5 to 10 dB(A). Another aesthetic concern was regarding graffiti. Recognizing that graffiti on noise walls may be a problem in some areas, materials that can be readily repainted or readily washed will be considered. Landscaping in front of the noise walls will also be considered and may deter graffiti as well as enhance the visual perception of the noise walls.

*Construction:* Design (Phase II), which is the next phase of this study, is funded and will take approximately 12-24 months to complete. Construction (Phase III) is currently unfunded. Once funded and completion of Phase II, Phase III will take approximately 24 months to complete. Construction sequencing will be evaluated based on contractor access and once more information on constructability issues is determined such as soil data. Contractors will at all times observe and comply with all Federal and State laws, local laws, ordinances, and regulations.

*Construction Noise:* As previously stated in this report, residents along the alignment will at some time experience perceptible construction noise from implementation of the project. To minimize or eliminate the effect of construction noise on these areas, mitigation measures have been incorporated into the Illinois Department of Transportation’s Standard Specifications for Road and Bridge Construction as Article 107.35.

*Managed Lane:* While the majority of general comments about the project were in favor of the project, there were some concerns about adding a tolling component to I-55. Tolling the managed lane provides a sustainable transportation solution while the additional lane increases the capacity of the overall roadway. As a result, the general purpose (free) lanes would also experience reduced congestion.

*Miscellaneous:* There was a comment regarding the need to replace the bridge over Lemont Road. The replacement of the Lemont Bridge is included in the proposed action. Regarding air quality, the analysis shows the proposed alternative will have an overall reduction in emissions.

*Noise Wall Process:* There were some comments about the noise wall process as well as what the advantages and disadvantages are. This information can be found in this report. The results of the noise viewpoint solicitation process will be mailed to benefited receptors and will also be on the project website at [www.I55managedlaneproject.org](http://www.I55managedlaneproject.org).

Comments:

There's enough barrier w/ trees and space  
alone. I hate these barrier walls as a  
driver and a resident! The big Country Club  
houses have a wall of condos & townhomes in  
between also - I don't want my world all

Comments:

Very much in favor of the sound walls  
In the summer we have to keep the windows  
closed because of the traffic noise even if temperature  
mild enough to have windows open. Cannot use patio

Comments:

*We definitely need a noise barrier! At times the traffic noise is almost unbearable and we cannot enjoy being outdoors or our pets or having our windows open. Also, homes are severely affected in value and desirability.*

Owner of this property

Tenant on this property

Comments:

Will there be a vote on the appearance of  
the wall? The plain concrete ones are  
unsightly. Something looking more  
natural would be more attractive.

Comments:

I have a clear view of I-55 from my backyard, and have listened to the increase in noise volume since I moved to Darien in 1999. The noise level has increased so much that I no longer sit on my patio or open my windows. I feel a noise wall would be incredibly beneficial to residents.

Comments:

We very much support the noise wall!  
We are often unable to open windows in of  
our home in spring/summer months because the noise  
is too loud and we avoid sitting in our backyard or deck  
also because ~~the~~ of the noise. In many rooms of  
our home we can even  
hear the noise with  
all windows closed.  
Please construct the  
wall to make our  
home a property more  
peaceful.

Comments: We have lived here for 40 years + haven't been bothered by the highway noise. It helps drown out the noise from the country club. The problem is the noise from the news helicopters hovering over our home for long periods (sometimes at 3am) covering highway crashes of which there are likely to be many more due to the convoluted HOV + ETL rules as outlined in the website's FAQs. No wall makes it easier to see if the highway is jammed so we don't get on the jammed highway to find out it's jammed.

We are strongly in favor of a noise wall, as  
are many of our neighbors, based on our  
discussions with them.

Comments:  
A 13-ft. wall in front of our house is a very ugly site. ~~It is~~ We enjoy the views of the freeway traffic especially at night and the noise does not bother us inside the house.

Comments:

The noise is very loud at night when you are trying to sleep. Motorcycles & trucks make all the noise. Sometimes the house even "shakes". Put up the wall real soon so I can get some sleep. Thank You -

Comments:

From the time I bought my condo in 1980,  
I've been hoping & praying that someday, a wall  
would be built along Frontage Rd. to soften the  
noise coming from I 55 - Now that hope & prayer  
will, at last, happen. THANK you IDOT.

Comments:  
THE CONSTRUCTION OF THE NOISE WALL WILL NOT MAKE THAT MUCH OF A DIFFERENCE. A ROARING SOUND WILL STILL BE HEARD. THE COST WILL BE MUCH GREATER THAN THE BENEFIT. LET'S NOT SPEND THE MONEY WE DON'T HAVE AND ALWAYS BE IN DEBT JUST LIKE THE FEDERAL GOVERNMENT!

Comments:

The noise<sup>wall</sup> would be a blessing. There is quite a bit  
of noise in the neighborhood from the expressway.  
We have a hard time sleeping from the noise.  
The wall is a wonderful idea! we vote yes 100%!

Comments:

I would truly appreciate some noise abatement. When we moved here almost 38 years ago, traffic was much lighter on I-55 and there was no 24/7 trucking traffic on the north side of I-55.

Project and Environmental Studies  
Interstate 55 (I-55)  
I-355 (Veterans Memorial Tollway) to I-90/94 (Dan Ryan Expressway)  
DuPage County and Cook County

Date: May 26, 2016

**Do you support the construction of the noise wall «Noise Wall»?** Yes  No

Name:   
Address:   
Signature: 

*You are (select one):*  Owner of this property  Tenant on this property

Comments:  
We have lived at this address since October 1992. We have witnessed a dramatic increase in the noise level from I55 due to the increase in truck, auto and motorcycle traffic. The noise level is at the point where we are no longer able to spend time outdoors because we cannot converse in a normal tone; we are practically shouting even when sitting next to each other. The noise level inside the house is also greater and is especially noticeable at night. We no longer open the windows and need to rely on air-conditioning even when the weather is comfortable outside.

**Please respond by June 2, 2016.**

Comments:

WALL WOULD GIVE OUR AREA A CLOSED-IN  
FEELING AND WOULD BE VERY UNSIGHTLY. ALSO  
THE WALL WOULD LIMIT OUR TENANTS EXPOSURE  
TO THE MANY CARS THAT TRAVEL ON I-55.

PROJECT

### Benefitted Receptor Viewpoint Form

Project and Environmental Studies

Interstate 55 (I-55)

I-355 (Veterans Memorial Tollway) to I-90/94 (Dan Ryan Expressway)

DuPage County and Cook County

Date: 05/19/2016

Do you support the construction of the noise wall «Noise Wall»?

Yes

No

Name:

Address:

Signature:

You are (select one):

Owner of this property

Tenant on this property

Comments:

Due To Semi Tractors that use Turbo  
Braking when exiting the highway causing increased  
Noise levels ALREADY I am IN FAVOR of this  
Proposed Project.

Comments:  
WE LIVE A FEW HOUSES AWAY FROM THE TRAIN TRACKS + WE ALSO GET AIRPLANE NOISE FROM MIDWAY AIRPORT. I DON'T SEE HOW A 14' WALL WOULD HELP. WITH A WALL IT WOULD SEAL IN THE NOISE WE ALREADY HAVE. WOULD IT BE AN EYESORE TOO? WHO PAYS FOR MAINTENANCE?

Comments:

The noise level is NOT loud. We do not want our view to be 'blocked' by a giant concrete wall. It would also make it feel too enclosed and closed off. We also do not want a wall to encourage graffiti which will be another eye sore.

Comments:

IDOT should consider build a Noise Wall North of the  
train tracks instead of building on the highway (I-55).  
IDOT should strongly consider build more express lanes on the  
Kennedy so both directions could benefit from it @ rush hours.

意见和建议:

我支持隔音墙建造, 但如果新管理, 车道同样象现有的交通管理车道一样保持免费收费, 这样最完美。

Comments:  
Especial at night time, cars/trucks go  
on highway, from our home's windows, we  
hear more noise from highway.

Comments:  
The noise of commercial aircrafts causes an extreme amount of disturbance.  
The window of flights carry on from early morning to after midnight. This  
disturbance affects the people who needs to sleep at night. It can also affect  
the value of our community. Is there a way to change the path of flights?  
or maybe cut down the late flights?

# Noise Wall Voting Results

# I-55 Managed Lane

## Traffic Noise Study

The Illinois Department of Transportation (IDOT) is completing a Preliminary Engineering and Environmental (Phase I) study for improvement to I-55. This project will repurpose the inside shoulder to add a managed lane from I-355 to I-90/94 in DuPage and Cook Counties. As part of the environmental study for this project, traffic noise was evaluated. The analysis found that nearly 12 miles of noise walls meet IDOT criteria. Once the criteria are met, it is IDOT's policy to send a viewpoint solicitation to each receptor "benefited" by a noise wall to vote for or against the wall.

The noise wall viewpoint solicitation is complete, and **12 out of the 13 noise walls achieved the majority of votes in favor of construction.** As such, 12 noise walls totaling more than 11 miles in length are likely to be implemented as part of the project. **The noise wall voting results are available on the project website at [www.i55managedlaneproject.org](http://www.i55managedlaneproject.org).**

**For additional information please visit the project website or contact: Mr. John Baldauf, P.E., Project Manager at 847-705-4103.**
