

ENGAGEMENT UPDATES & UPCOMING OPPORTUNITIES

Metra Clybourn Station Feasibility Study Stakeholder Advisory Group (SAG)

Thank you for joining us on the Clybourn Station Site Tour!

Metra Clybourn Station Feasibility Study
Stakeholder Advisory Group
Site Visit
Friday, August 28, 2026

Prepared by:
RailPro
J.M. Chen & Associates

On August 28, 2026, Stakeholder Advisory Group (SAG) members joined the Metra Clybourn Station Feasibility Study team on a site visit of the station and its surroundings.

We appreciate your participation in the SAG site visit and for sharing very detailed field notes and recommendations to the Study team. A summary of the visit has been made available with this update for your reference.

Upcoming Public Engagement Opportunity

Next Wednesday, October 7, 2026, the Study team will host an in-person commuter survey tabling event at Metra Clybourn Station. Feedback gathered will help inform recommendations to modernize the station, improve the rider experience, and support future station planning.

The team will aim to capture feedback from commuters and community members during the morning and evening rush periods. More information below on how you can be a part of this!

Make Your Voice Heard!

Help shape recommendations for modernizing the Metra Clybourn Station located near Chicago's Ashland and Armitage Avenues.

Event Details

Date: Wednesday, October 7, 2026

Location: Metra Clybourn Station, 2001 N. Ashland Ave., Chicago, IL 60622

Morning rush: 7:30–10:30 a.m.

Evening rush: 4:30–7:30 p.m.

How you can help

Please help extend our reach by distributing the survey flyer and link above to your networks and constituents through newsletters and social media channels.

SAG members who are available are encouraged to join the Study team at the station during either outreach period. Volunteers will help distribute postcards and flyers, speak with riders, and encourage commuters to complete the survey.

Please let us know whether you can support the morning or evening outreach period on October 7.

On the Horizon!

The Metra Clybourn Station Feasibility Study team is advancing work to identify and refine potential station alternatives for future discussion with stakeholders.

As part of this process, we will be convening a series of small-group meetings to review and gather feedback on the alternatives under consideration. Meeting invitations will be shared in the coming weeks.

Thank you for your continued involvement and support!
