

Study in Elgin

Illinois Department
of Transportation

US 20 Study PROJECT AREA

SCOPE

The Illinois Department of Transportation (IDOT) is conducting an engineering study and environmental analysis of US 20 in Elgin. The US 20 project study area extends from west of Randall Road to east of Shales Parkway for a distance of approximately 5.7 miles. The area around the McLean Boulevard interchange is currently being reconstructed and is not included in this study.

The proposed project is anticipated to consist of roadway and bridge rehabilitation to improve safety and mobility along the corridor

For project updates, visit US20elginstudy.com

As many as 55,000 vehicles travel US 20 in Elgin every day.

IDOT's project team is currently gathering data on existing roadway and bridge conditions along US 20. Some of this data will come from YOU.

IDOT uses a process called **Context Sensitive Solutions** to engage the public. This multi-disciplinary approach seeks to develop effective solutions by working with stakeholders like you to develop, build and maintain transportation facilities that fit into and reflect the project's surroundings—its context. Turn the page to learn how to get involved.

Get Involved.

IDOT will hold a series of public meetings for Elgin residents.

This will be an opportunity for the community to

SHARE your concerns and ideas

LEARN from engineering and transportation experts and facilitators

WORK TOGETHER to plan for US 20's future

Share your opinion with IDOT.

ATTEND A PUBLIC MEETING

Future public meetings are planned.
