IL Route 2 from Byron to Rockford | Nov. 17 via Zoom | 6-8 p.m.

Overview

The Illinois Department of Transportation (IDOT) hosted an online public information meeting on Thursday, November 17, 2022 from 6-8 p.m. The meeting was conducted via Zoom and preregistration was required. IDOT staff and the project team gave an introduction and then shared a pre-recorded presentation which included a project overview, project purpose and need, project history, typical sections, a walk-through of the status of the preferred alignment along the entire corridor, project goals, next steps, project schedule and information on the land acquisition process. Following the pre-recorded presentation, IDOT staff and the project team facilitated a live Q&A session where attendees asked questions using the Q&A box or raised their hand to ask a question out loud.

The purpose of this online public meeting is to share information on the status of the preferred design option from the study phase and gather input from attendees.

The presentation, project handout and online comment form were posted on the project website for viewing. The online meeting recording was also posted on the project website after the meeting for those who were unable to attend. Hard copies of the project strip map, presentation slides, project handout and comment forms were also available in person at the Byron Public Library from November 17 to December 8.

Online Public Meeting Promotion

The online public meeting was promoted in a variety of ways, including newspaper display advertisements published in three local newspapers, 118 letters and 230 postcards mailed to stakeholders, local officials and property owners along the corridor, a social media post shared on the IDOT District 2 Twitter account, and a news release sent from the IDOT District 2 page.

Newspaper Advertising (p. 6-8)

In order to advertise for the online meeting and meet the State requirements, a paid display ad was placed in three different papers on four different days.

IL Route 2 from Byron to Rockford | Nov. 17 via Zoom | 6-8 p.m.

Overview

Postcard Invitation and Distribution List (p. 9-12)

Residents and property owners along the IL Route 2 project corridor in Ogle and Winnebago Counties received a project postcard with information about the project, project website and information about the online public meeting, including the registration link. 230 postcards were sent.

Local Officials and Stakeholder Letters and Distribution List (p. 13-16)

Formal letter invitations were sent out to federal, state, regional, and local agencies and local officials. 118 letters were sent.

Social Media (p. 17)

A social media graphic and sample social media posts were prepared for online public meeting promotion. One social media post was shared on November 9 letting people know about the online public meeting and sharing the news release.

News Release (p. 18)

A news release was shared via IDOT's standard channels on November 9. The news release was also used in a social media post also shared on November 9.

Online Public Meeting Materials

A project handout was created in coordination with the online public meeting to provide a status update on the project, outline the project's goals and proposed improvements, and share the project schedule. The handout can be found on page 20.

The slides used during the pre-recorded presentation at the online public meeting are included in this report, starting on page 21. The Zoom Q&A report is also included which outlines questions asked during the live, facilitated Q&A session after the pre-recorded presentation.

Additionally, the presentation slides, project handout and online comment form were posted on the project website for viewing. The online meeting recording was also posted on the project website after the meeting for those who were unable to attend. Hard copies of the project strip map, presentation slides, project handout and comment forms were available in person at the Byron Public Library from November 17 to December 8.

Byron Public Library materials provided

IL Route 2 from Byron to Rockford | Nov. 17 via Zoom | 6-8 p.m.

Overview

Online Public Meeting Attendance

The online Zoom meeting captures both registrants and actual attendees. 100 people registered via the Zoom RSVP link. Of the people that registered via Zoom, 74 or nearly 75%, attended the online public meeting. Both registrant and attendee lists are included in this summary report on pages 49 through 52.

Comments Received and Agency Response

The public comment period for the IL Route 2 online public meeting was from November 17 to December 8. The length of the comment period was determined to be three weeks with consideration of the Thanksgiving Holiday. Comment response forms were online on the project website as well as hard copies available at the Byron Public Library. A total of four online comments were submitted during the comment period.

A comment form created via SurveyMonkey was used to gather public comments online and inperson. A total of four comments were received during the comment period. See comment form on page 54.

This report includes the comment matrix with both comments and IDOT responses on page 55.

SILVER VIEW Continued from Page 5

Medins, who remembers taking a trip from Oregon to Minneapolis on the Twin Cities Zephyr as a child, suggested Abernethy move the Silver View closer to St. Charles and pro-

View closer to St. Charles and pro-posed the Oregon Depot. Earlier this year, officials from the Burlington Northern-Santa Fe agreed to replace and upgrade the "house" track – the track that once served the freighthouse – just west of the Oregon Depot for the Silver View to sit on. That track, located north of the active BNSF freight line, is the Silver View's new home during its next res-

View's new home during its next restoration phase. The Oregon Depot Museum Board

was offered a \$5,000 matching dona-tion from Medins for costs associated with moving the Silver View.

The Oregon Depot Board matched his donation with funds given by local donors.

Abernethy is president and tour operator of Zephyr Route, a small pri-vately owned business he launched to fund the restoration of the Silver View. Silver View was built by the Budd Co. and delivered to the Burlington

Northern-Santa Fe on Nov. 29, 1947. It immediately became one of the signature Vista Dome cars for the Burlington's famed Twin Cities Zephyrs. The Twin Cities Zephyrs operated between

Online public meeting set for Nov. 17 to discuss Illinois 2 corridor study

DIXON – The Illinois Department of Transportation will hold an online public informational meeting at 6 p m. on Thursday, Nov. 17, for the Illinois 2 corridor improvement study in Ogle and Winnebago counties. The meeting will be held via Zoom and registration is required to attend. RSVP here or at https://us06web.zoom.us/webinar/register/WN_b-mIoWboTGCplI4QG410bQ

The study is examining transportation needs and solutions for the corridor, which starts at Illinois 72 in Byron and extends 10.5 miles to Belfline Road south of Rockford. The goals of the project are multifold, and the proposed improvements being studied aim to address the following:

Online public meeting set for Nov. 17 to discuss Illinois 2 corridor study

DIXON – The Illinois Department of Transportation will hold an online public informational meeting at 6 p.m. on Thursday, Nov. 17, for the Illinois 2 corridor improvement study in Ogle and Winnebago counties. The meeting will be held via Zoom and registration is required to attend. RSVP here or at

https://us06web.zoom.us/webinar/register/WN_b-mIoWboTGCplI4QG4I0bQ

The study is examining transportation needs and solutions for the corridor, which starts at Illinois 72 in Byron and extends 10.5 miles to Beltline Road south of Rockford. The goals of the project are multifold, and the proposed improvements being studied aim to address the following:

- Improve safety for all users along the Illinois 2 corridor.
- Address existing geometric deficiencies and roadside hazards.
- Improve travel time along a corridor with a growing population and increased travel demand.
- · Facilitate and enhance adjacent recreational facilities.
- Protect and preserve the existing environment and scenic values along the corridor.

The purpose of this online public meeting is to share information on the status of the preferred design from the study phase and gather public input. A formal presentation will begin at 6 p.m. followed by a Q&A session where attendees will have the opportunity to provide comments, ask questions and interact with IDOT representatives and the project team.

Feedback from the public is encouraged, and all comments collected by Thursday, Dec. 8, will be part of the official meeting record. For those who are unable to attend, meeting materials and the meeting recording will be posted on the project webpage. An online comment form will be provided from Nov. 17 to Dec. 8. Project plans and handouts will also be available for in-person viewing until Dec. 8 at the Byron Public Library, 100 S Washington St.

More information about the Illinois 2 corridor study is available on the <u>project webpage</u> or at https://idot.illinois.gov/projects/il-2-byron-to-beltline-road.

Over the next six years, IDOT is planning to improve more than 2,500 miles of highway and nearly 10 million square feet of bridge deck as part of the Rebuild Illinois capital program, which is investing \$33.2 billion into all modes of transportation. Accomplishments through Year Three of Rebuild Illinois included approximately \$8.6 billion of improvements statewide on 4,422 miles of highway, 412 bridges, and 621 additional safety improvements.

For IDOT District 2 updates, follow us on Twitter at <u>@IDOTDistrict2</u> or view area construction details on IDOT's <u>traveler information map</u> on GettingAroundIllinois.com.

				4461 E Open View Dr	Byron	61010	11/21/2022		Q2 How well do you feel the proposed IL Route 2 project addresses safety concerns? Somewhat addressed: During the information meeting, I brought up the lack of a southbound turn lane onto Kennedy Hill Road. There is none currently in the	Southbound turn lane at Kennedy Hill Road	The Illinois Department of Transportation appreciates your input on the IL Route 2 corridor improvement study from Byron to Rockford. A southbound turn lane on IL Route 2 at Kennedy Hill Road was
									Sourbound currently in the plan. I was told this was not possible due to "environmental concerns". I would like to know specifically what these concerns are? We have to negotiate this hairpin turn every time we return from Rockford. You have to decelerate so much to make the turn that if anyone is behind you, you just pray their front bumper doesn't end up in your back seat. A turn lane here is definitely needed!		A southouting that is on it route 2 at kerney min route was reviewed, but due to the amount of additional property acquisition this would require and potential impact to the environmental resource in the area, it was demed not a preferred alternative option. We are not able to provide specific information regarding environmental resources due to the sensitivity of some of these the area. The southbound right turn will be improved as
									Q4 How well do you feel the proposed IL Route 2 project addresses the preservation of environmental resources? Somewhat addressed: I would like to know more about this, specifically at the intersection mentioned above.		part of the IL 2 project even without the addition of a turn lane. The pavement will be widened to for a smoother turn than the existing "hairpin". Additionally, the 8' shoulder will provide space to pull away from through traffic for occasions when there may be a car following closely.
											Thank you again for your interest in this important project, for providing feedback and for your cooperation during the process. Please contact the project team with any additional questions or concerns.
				10708 N II Route 2	Rockford	61103	11/27/2022	Public Meeting Online Survey	Q2 How well do you feel the proposed IL Route 2 project addresses safety concerns? Not at all addressed: No turn lanes for the blackhawk lodge area of homes	No turn lanes for Blackhawk Lodge area	The Illinois Department of Transportation appreciates your input on the IL Route 2 corridor improvement study from Byron to Rockford.
									I live in an area that you have listed at a 5% crash rate, which is higher than other areas receiving turn lanes. Our home already sits close to route 2 and with the additional 8' shoulder it will put vehicles closer to our home, which does not seem safer. The shoulder will not help when the residents must turn left into their driveways. Especially with a passing lane not to far up the road.		We understand your concern about safety along the IL Route 2 corridor. The design was reviewed carefully to improve the safety of IL 2 as well as minimize impacts to private property and environmental resources along the corridor. The 8' shoulder will not move vehicles closer to the surrounding homes but it will provide additional buffer to roadside hazards. The passing lane to the south of your property and this area is for southbound traffic so northbound left turns will not be competing with people utilizing the passing lane.
											Thank you again for your interest in this important project, for providing feedback and for your cooperation during the process. Please contact the project team with any additional questions or concerns.
				6901 Kishwaukee Rd	Rockford			Public Meeting Online Survey	QS: Please share any additional thoughts about the IL Route 2 corridor study! Kishwaukee Road via River Road is proposed as the detour route for all traffic when Rt 2 is closed during construction. Kishwaukee Road is not designed for the increased truck traffic, especially in the segment that intersects with Sillman Valley Road and South Bend Road where several accidents have occurred. Heavy trucks should be routed on IL Rt 72 to U.S. 51 or 1-39, not via Kishwaukee Road. The proposed closure of South Bend Road during the construction phase will cause undo hardship on the use of Indian Hill Manor, a historic site listed on the National Register of Historic Places, and people who live on South Bend Road.	Proposed detour route on Kishwaukee Road	No written reponse needed. Project team met with stakeholder directly.
				5119 E. Brooke Ct.	Byron	61010	12/7/2022	Public Meeting Online Survey	Q5: Please share any additional thoughts about the IL Route 2 corridor study! I'd like to see a crossing point from the Lake View / Setters Cover Subdivision on Ashelford Dr to the Muti-use Path (MUP) that will be on the West side of IL 2. There are 75 homes in the subdivision and between the railroad, Rock River and Route 2, there's no way to leave on foot or bike safely. Please use the large amount of right away at the entrance to Ashelford and Rt 2 to have a point where bikes and people can access the MUP. Thank you.	Bike/ped crossings and access	No written reponse needed. Direct coordination with project team already underway.
