

PUBLIC MEETING NOTICE

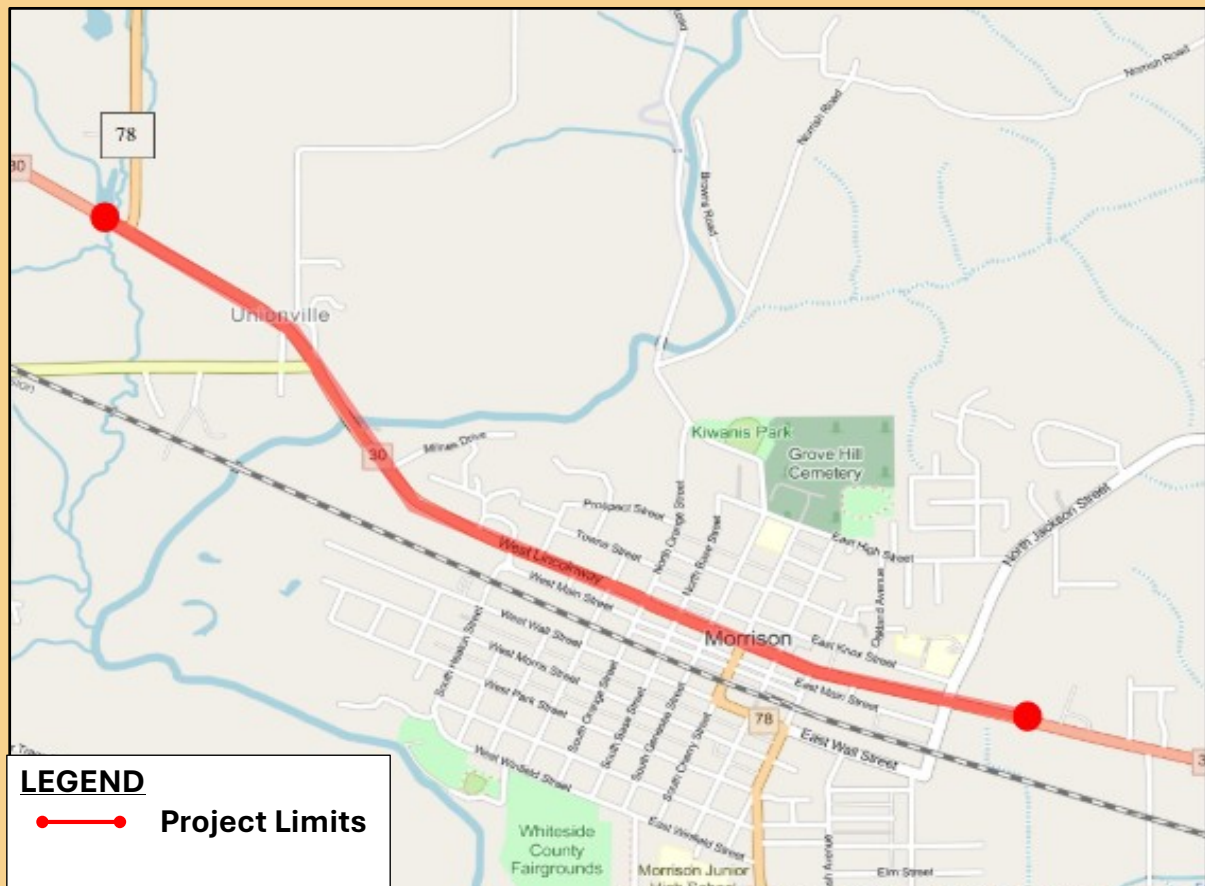

*See You
There!*

*We Need
Your Input!*

JULY 21st 1-6 p.m.

The Illinois Department of Transportation cordially invites you to learn more about the proposed reconstruction of and improvements to the U.S. 30 corridor in Morrison at an open house public meeting from 1-6 p.m. on Tuesday, July 21, 2026, at the Odell Public Library, 307 S. Madison St, Morrison, IL 61270.

The U.S. 30 corridor in Morrison stretches from approximately 0.1-mile west of IL Route 78 N and extends to approximately 0.2-mile east of N. Jackson Street. Proposed improvements may include: Pavement reconstruction, drainage improvements, intersection improvements, and shared use path accommodations.

Section 106:

The Lincoln/Reagan Highway Scenic Corridor, Morrison's Historic Preservation Business District, and the Historic Preservation Residential Hill District may be affected by the proposed project. These resources will be evaluated through the historic resource's protection process in accordance with Section 106 of the National Historic Preservation Act of 1966.

Parks, Recreation Areas, and Refuges (Section 4(f)):

The proposed project would involve use of land from the City Park and the Park property that is bound by U.S.30, Harmony St., and Union St. Proposed improvements to the curb and gutter along the perimeter of the City Park would temporarily impact park access and aesthetic quality. Temporary impacts to the 0.1-acre City Park are anticipated to measure approximately 0.1 acre. Impacts to the 1.0-acre Park are anticipated to measure approximately 0.2 acre. The potential impacts will not affect either of the park's activities, features, or attributes that make the property eligible for Section 4(f) protection. Through publication of this notice, the Department is requesting the public's views on the proposed use of parkland, and on FHWA's intent to make a Section 4(f) de minimus determination.

The Public Meeting will include exhibits and maps detailing existing conditions, proposed improvements, and preliminary alternatives, as well as the opportunity to ask questions and provide direct feedback to the study team.

You are welcome to stop by anytime from 1-6 p.m.

What do you say?!

Our project success relies upon stakeholder feedback – please share your thoughts, experiences, and opinions!

IN-PERSON: Fill out a comment form at the public meeting
