

CHAMPAIGN-URBANA

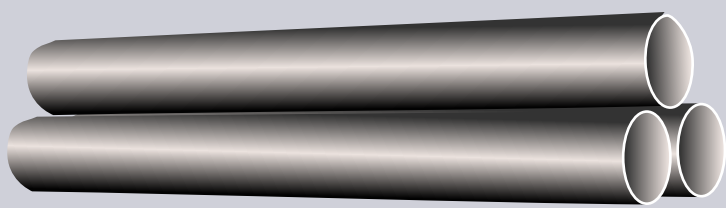

INTERCHANGE RECONSTRUCTION

Built in **1965**, the **I-57/74** interchange no longer meets current traffic volumes and demands. The new, modern-designed interchange, with anticipated completion in **2023**, will improve traffic flow, efficiency and safety, while the project brings economic opportunity and jobs to the region.

1,091,878 yards³ of earth to be moved

This could fill up the University of Illinois State Farm Center more than twice!

1,195,790 lbs of stainless steel rebar

That's equivalent to 6 Chicago Bean sculptures!

SO LONG, CLOVERLEAF!

76,153+ man hours*

have contributed to the project so far...
(*As of 4/30/22)

350,000 hours

are estimated to completion!

89.25 acres of seeding

That's enough to cover U of I's main quad over 20 times!

33,411 yards³ of concrete

(3,713 concrete trucks)
